THE LOCATIONS FROM FIVE NIGHTS AT FREDDY'S

This book is a guide to the animatronics from *Five Nights at Freddy's*—specifically what games or books they appear in, their key behaviors and characteristics, and what makes each one special. The content covers the games from the original *Five Nights at Freddy's* to *Five Nights at Freddy's: Security Breach*, the novel trilogy, and the Fazbear Frights novellas. There are many references to locations in this book, so here's a helpful breakdown of the main ones.

The core location, introduced in *Five Nights at Freddy's*, is Freddy Fazbear's Pizza, famed for its singing animatronic mascots. Well, we say "famed," but "notorious" might be a better word.

It's not all about pizza—Fredbear's Family Diner is mentioned in *Five Nights at Freddy's 2* and appears in other games.

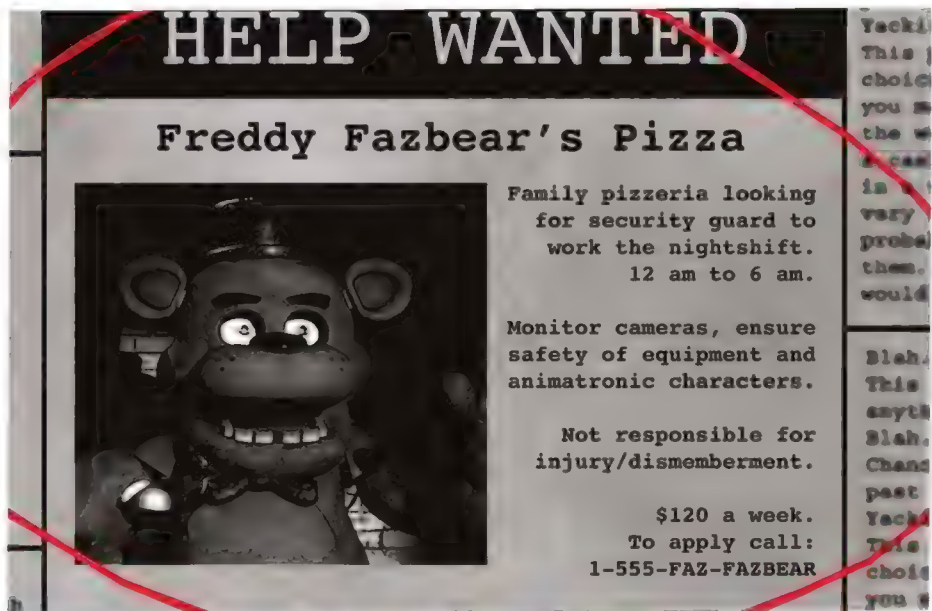

Fazbear's Fright: The Horror Attraction features a re-creation of Freddy Fazbear's

Pizzeria and is the main location of *Five Nights at Freddy's 3*.

Freddy Fazbear's Pizza Place is a different location from Freddy Fazbear's Pizza—it's the establishment you must run and design in *Freddy Fazbear's Pizzeria Simulator*. Hopefully no lawsuits are involved in your very own pizzeria!

Another branch of the Fazbear Empire is Circus Baby's Entertainment and Rental, which is the main setting of *Five Nights at Freddy's: Sister Location*. This establishment rents out animatronics for private events., including its main mascot, Circus Baby.

The largest Fazbear establishment so far is Freddy Fazbear's Mega Pizzaplex, an entertainment complex featured in *Five Nights at Freddy's: Security Breach*. "At three stories tall, it's the flashiest, raddest, rockingest, safest pizzeria the universe has ever seen," says the promotional material, and who are we to disagree?

Finally there's The Bedroom, where a child is haunted by terrible memories of a visit to Freddy Fazbear's Pizza in *Five Nights at Freddy's 4*.

And now, it's time to meet some friends . . .

FREDDY FAZBEAR

The most popular Freddy! His name's right up there on the sign!

Data File

Name: Freddy Fazbear

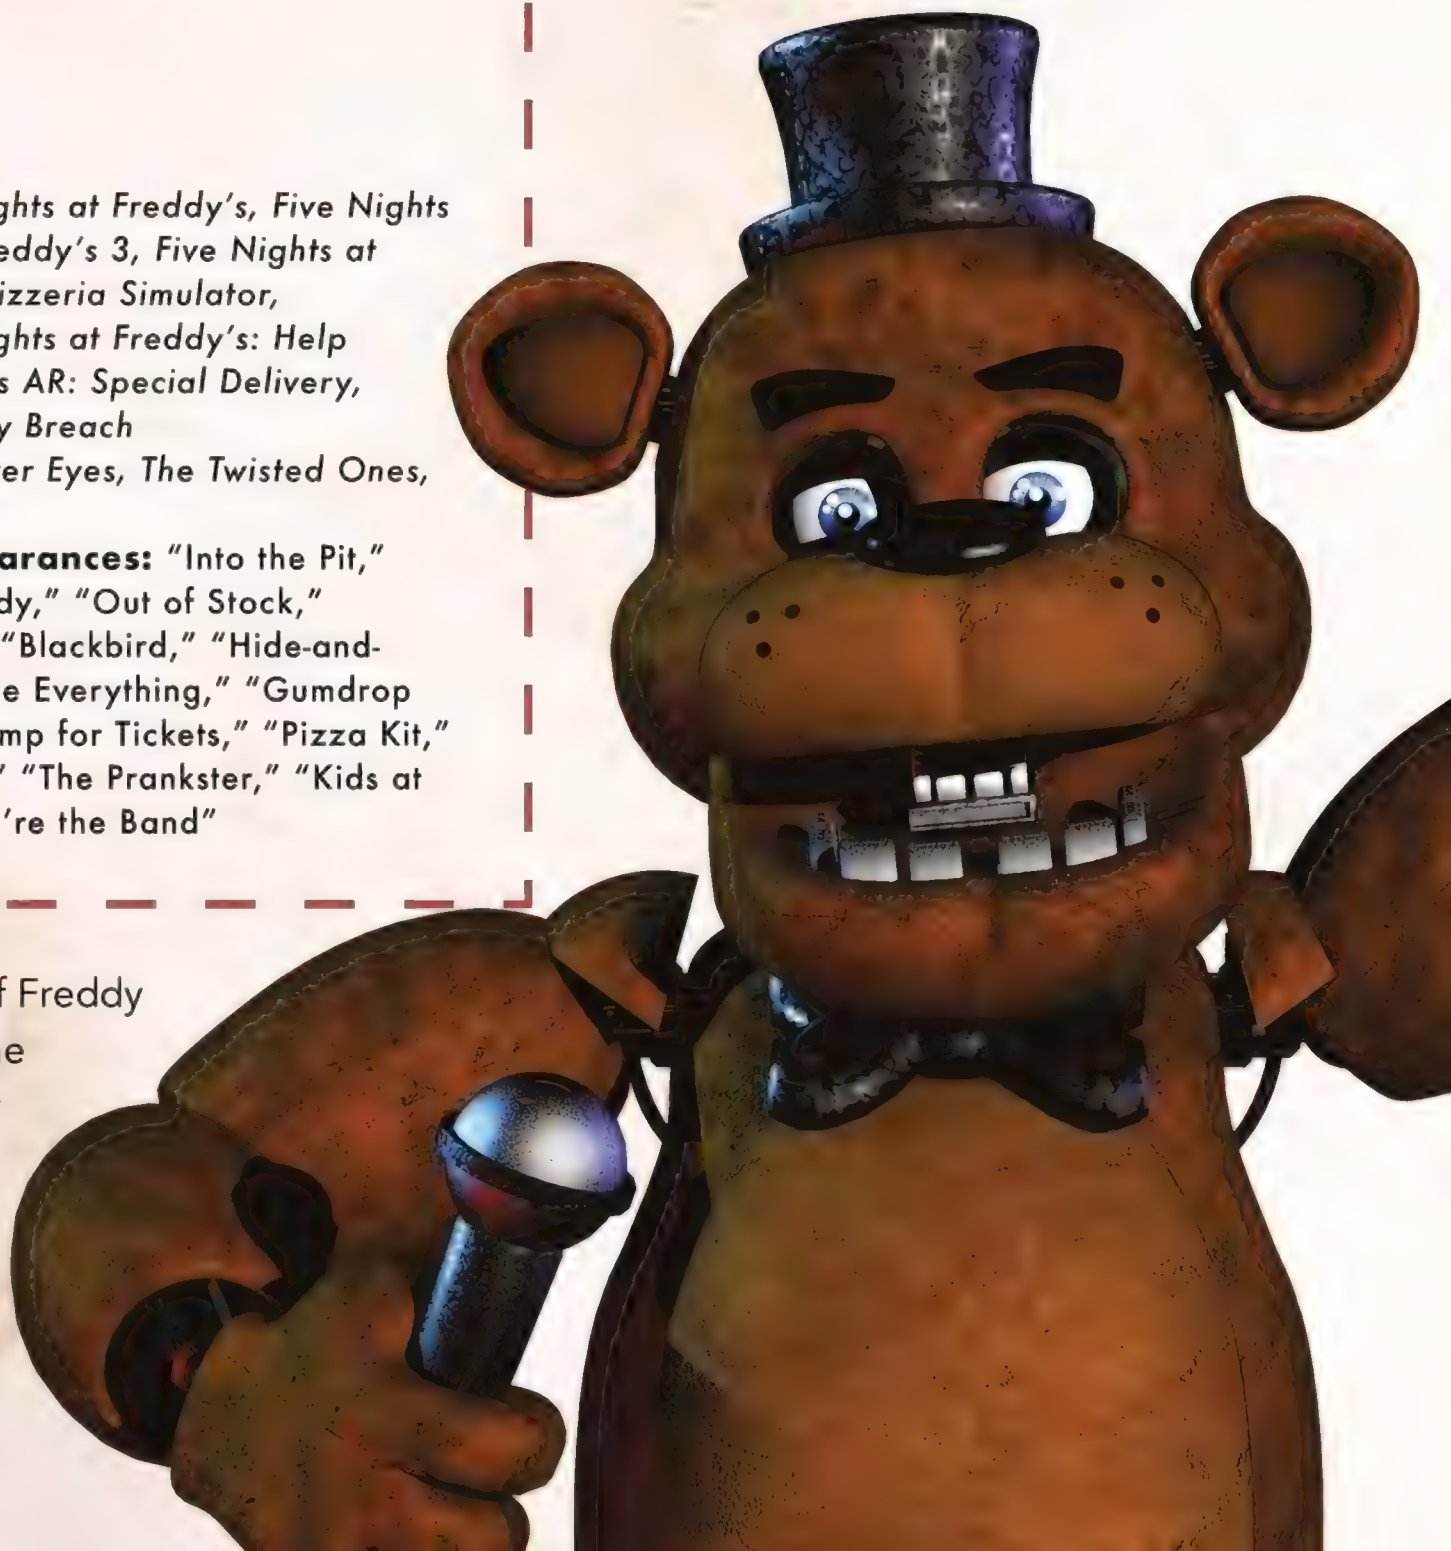

Type: Animatronic Bear

Game appearances: *Five Nights at Freddy's*, *Five Nights at Freddy's 2*, *Five Nights at Freddy's 3*, *Five Nights at Freddy's 4*, *Freddy Fazbear's Pizzeria Simulator*, *Ultimate Custom Night*, *Five Nights at Freddy's: Help Wanted*, *Five Nights at Freddy's AR: Special Delivery*, *Five Nights at Freddy's: Security Breach*

Novel appearances: *The Silver Eyes*, *The Twisted Ones*, *The Fourth Closet*

Short story collection appearances: "Into the Pit," "To Be Beautiful," "Lonely Freddy," "Out of Stock," "The New Kid," "Step Closer," "Blackbird," "Hide-and-Seek," "The Cliffs," "He Told Me Everything," "Gumdrop Angel," "What We Found," "Jump for Tickets," "Pizza Kit," "Friendly Face," "Sea Bonnies," "The Prankster," "Kids at Play," "Find Player Two!," "You're the Band"

Freddy Fazbear is the mascot of Freddy Fazbear's Pizza. According to the lyrics of his theme song, Freddy is "a real fun-lovin' guy." He's a cheerful, friendly animatronic bear who loves to have fun and entertain children . . . during the day!

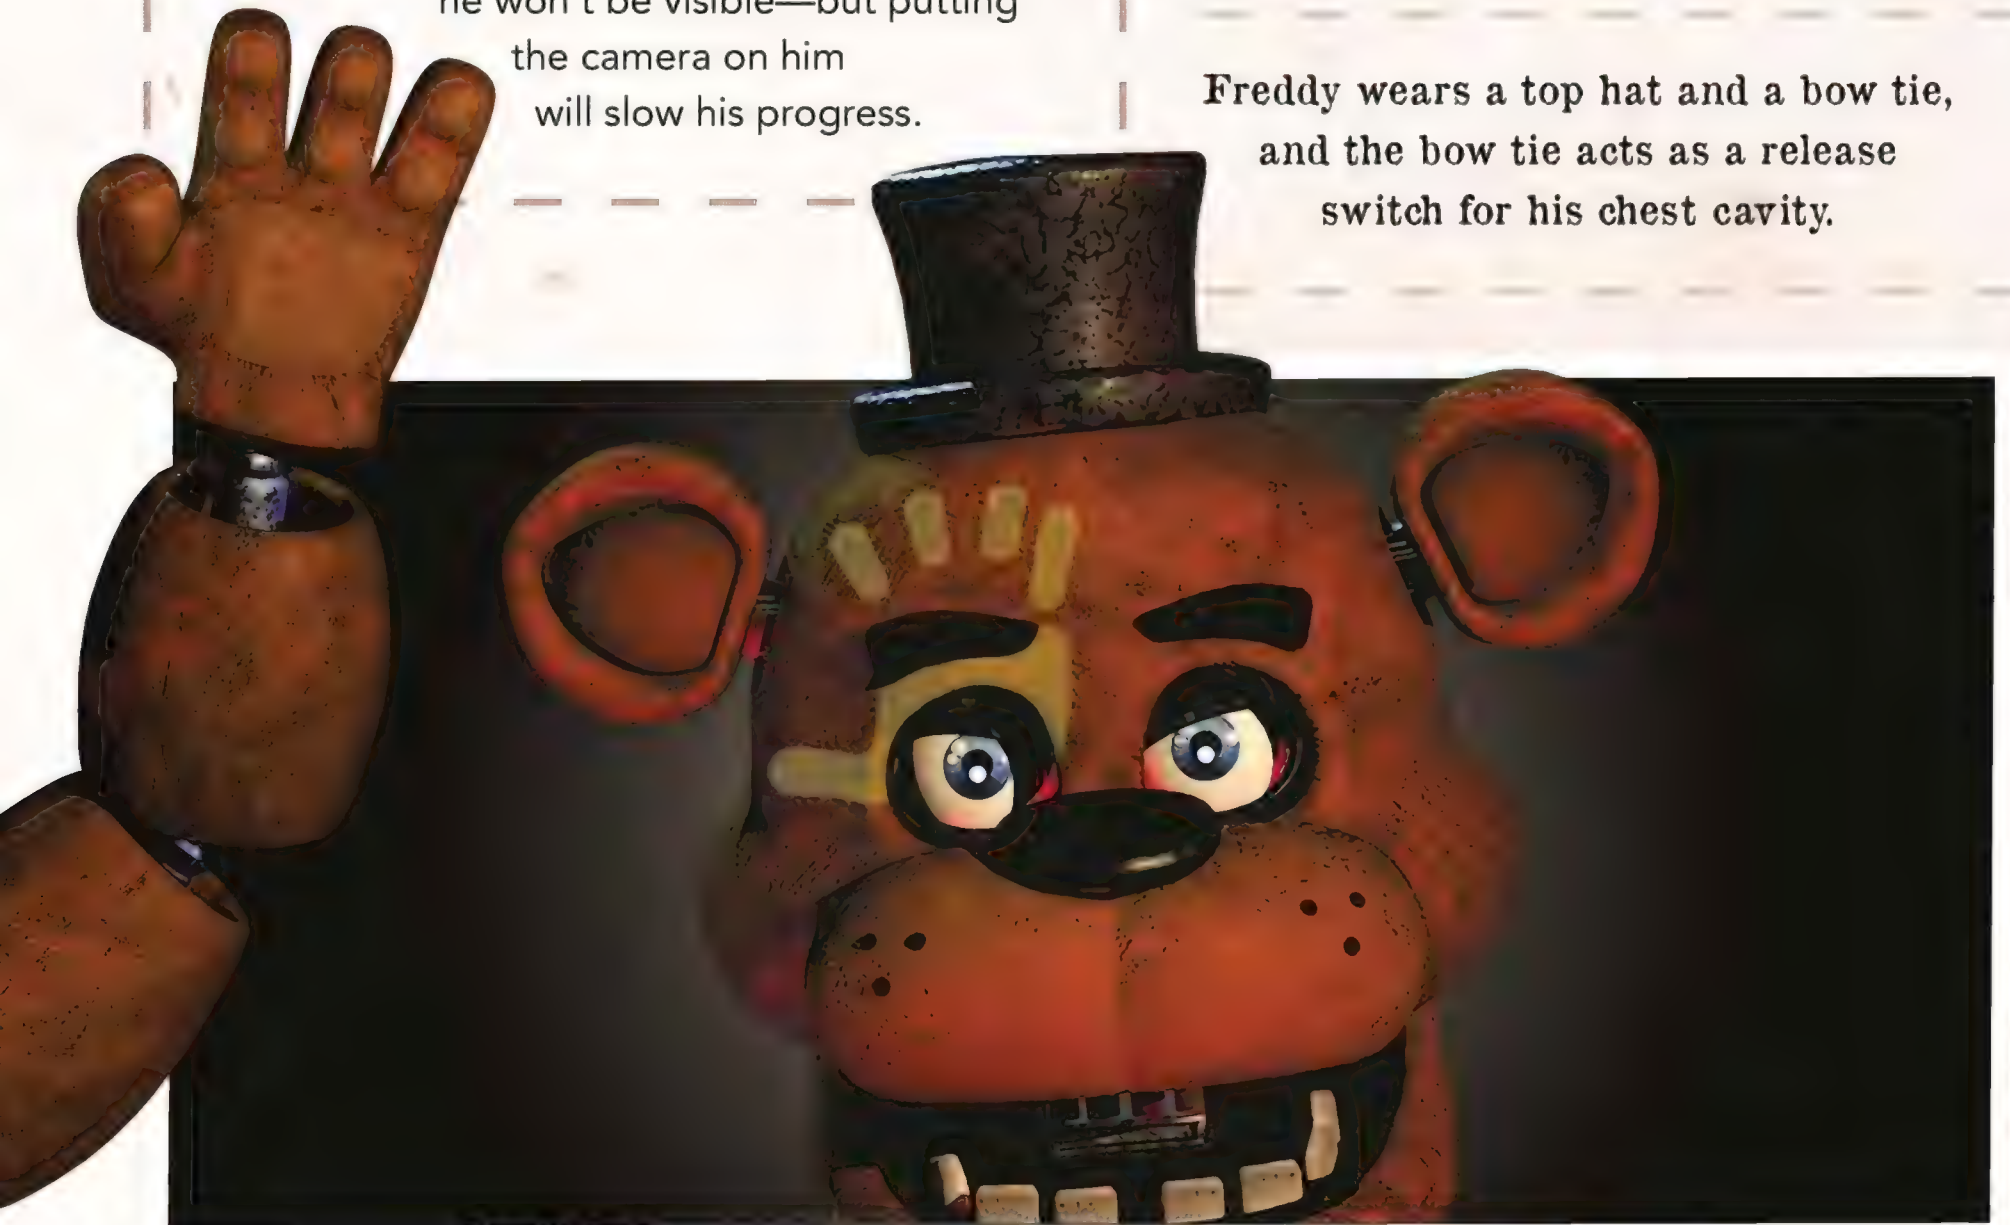

At night, Freddy sneaks around the restaurant, sings creepy songs, and taunts the night guard. Freddy always carries a microphone, reminding you that he is first and foremost a performer—he's not going to march right in, grab you, and stuff you into an animatronic suit. Listen for his iconic toreador march music box when the power goes out!

SHADY BEHAVIOR

In *Five Nights at Freddy's*, Freddy's behavior is different from the other animatronics—he keeps to the shadows and is hard to see. If another animatronic is in the room, he won't be visible—but putting the camera on him will slow his progress.

Freddy wears a top hat and a bow tie, and the bow tie acts as a release switch for his chest cavity.

Under some lights you can see a human handprint on Freddy's head.
Where did that come from?

TOY FREDDY

New and improved! Well, he was new at one time, anyway.

Data File

Name: Toy Freddy

Type: Animatronic Bear

Game appearances: *Five Nights at Freddy's 2*,
Five Nights at Freddy's 3, *Five Nights at*
Freddy's 4, *Ultimate Custom Night*, *Five*
Nights at Freddy's: Help Wanted, *Five*
Nights at Freddy's AR: Special Delivery,
Five Nights at Freddy's: Security Breach

Toy Freddy makes his debut in *Five Nights at Freddy's 2*. He has the same features as the Freddy we know and fear, but he's cartoonier. Toy Freddy is glossy! He's sweet! He's cute! Okay, his blue eyes are pretty unsettling.

However, Toy Freddy is friendlier than most of the other animatronics at the restaurant and won't harm people unless something upsets him. He wants you to be his friend, but he just doesn't actually understand how friendship works. Apart from that, he's alright. Kind of. He's more active than regular Freddy in *Five Nights at Freddy's 2* and will move around on the first two nights.

SORE LOSER

What upsets Toy Freddy the most? Losing at video games. He can be seen doing just that in *Ultimate Custom Night*, where he is said to be "retired" and spends his time playing Five Nights with Mr. Hugs in the Parts and Service area. You can help Toy Freddy out to keep him calm. That game was totally rigged!

Toy animatronics are programmed with an advanced security system.

Toy Freddy tries to do that trick where you wiggle your ears.

WITHERED FREDDY

Old and unimproved! And just kind of thrown in a corner.

Data File

Name: Withered Freddy

Type: Animatronic Bear

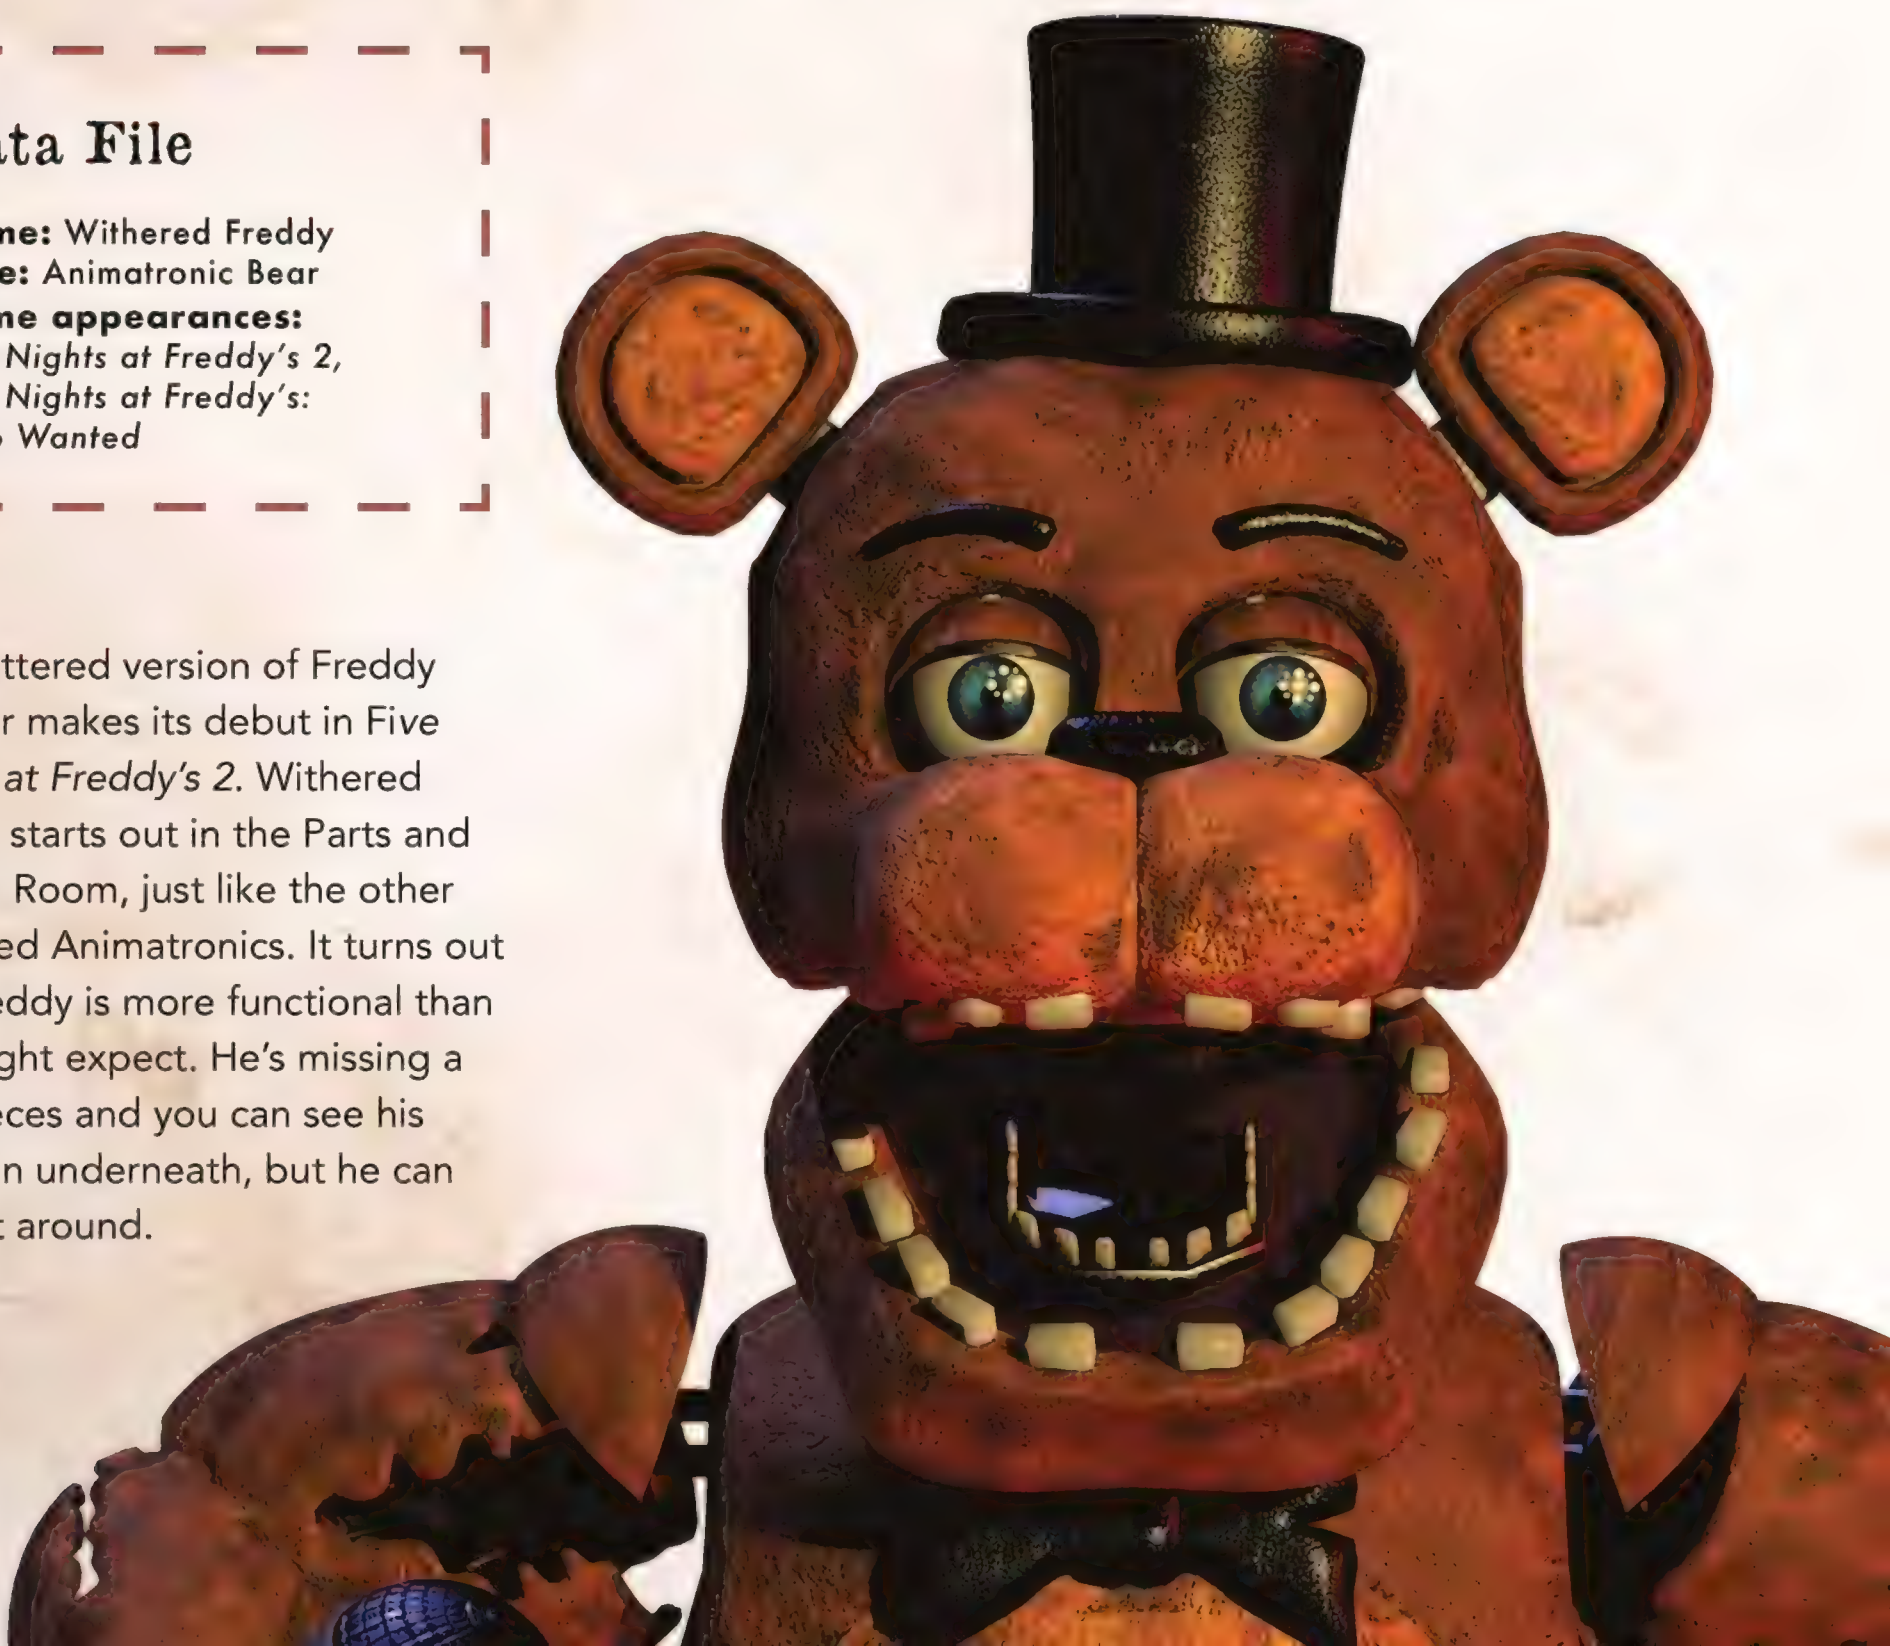

Game appearances:

Five Nights at Freddy's 2,

Five Nights at Freddy's:

Help Wanted

This battered version of Freddy Fazbear makes its debut in *Five Nights at Freddy's 2*. Withered Freddy starts out in the Parts and Service Room, just like the other Withered Animatronics. It turns out this Freddy is more functional than you might expect. He's missing a few pieces and you can see his skeleton underneath, but he can still get around.

In *Five Nights at Freddy's 2*, Withered Freddy is less active than his fellow Withered Animatronics and will not often come into the office (and he doesn't become active until the third night anyway). When he does come in, he can be deflected by immediately putting on the Freddy Fazbear head.

WHO'S THERE?

Withered Freddy appears in the *Five Nights at Freddy's 2* levels of *Help Wanted*, but he also pops up in the *Curse of Dreadbear* DLC for this game, in the Trick or Treat level, along with the other Withered Animatronics. Any of them may answer the door, but if it's Freddy, the old tactic of putting on the Freddy Fazbear head will ward off his jump scare.

Imagine if you had an extra row of teeth instead of a tongue.

It's no fun to be replaced by a new model.

GOLDEN FREDDY

In Freddy Fazbear's Pizzeria,
gold strikes YOU.

Data File

Name: Golden Freddy

Type: Animatronic Bear

Game appearances: *Five Nights at Freddy's*,
Five Nights at Freddy's 2, *Five Nights at Freddy's 3*,
Five Nights at Freddy's 4, *Five Nights at Freddy's*:
Sister Location, *Ultimate Custom Night*, *Five Nights*
at Freddy's AR: Special Delivery

The mysterious Golden Freddy appears frequently in the world of *Five Nights at Freddy's*. He looks like other versions of Freddy except for his yellow fur and missing eyes—he's got a microphone and everything! But he can be hard to see . . .

In the original game, Golden Freddy is a rarely found Easter egg. Camera 2B

can be used to view a Freddy poster that will occasionally switch to an image of Golden Freddy—this will summon Golden Freddy to the office, and a jump scare will result unless the monitor is brought up. It's possible to prevent him appearing at all—if you can manage not to look at the poster . . . You can also make Golden Freddy appear by putting in 1987 on the custom night settings, which crashes the game.

WHO'S IN THERE?

This seems to confirm the ghostly, weird nature of Golden Freddy—he doesn't move around in the same way as other animatronics—but exactly what he is, we don't know. A withered-looking version of Golden Freddy appears in *Five Nights at Freddy's 2*—more frequently than in *Five Nights at Freddy's 1*—it appears lying lifelessly on the left side of the office or sometimes as a giant floating head in the hallway. Its jump scare also involves its body vanishing if you don't put your mask on fast enough.

Gold shines even in darkness.
Golden Freddy, not so much.

How are you supposed to get around the office with junk like this lying around?

SHADOW FREDDY

Darkness is his vibe.

Data File

Name: Shadow Freddy

Type: Animatronic Bear

Game appearances: *Five Nights at Freddy's 2*, *Five Nights at Freddy's 3*, *Five Nights at Freddy's 4* *Freddy Fazbear's Pizzeria Simulator*, *Five Nights at Freddy's: Help Wanted*

This mysterious figure first appeared as an Easter egg in *Five Nights at Freddy's 2*, and not much more has been revealed about him since. He's a dark-purple version of Golden Freddy who can sometimes be found in Bonnie's usual place in the Parts and Service section. Don't look at him too long.

SO WHO IS HE?

We don't know much about him. Will he turn out to be a crucial character in the ongoing mythology of *Five Nights at Freddy's*? Maybe. Maybe not. Time will tell . . . Shadow Freddy also appears in the first four end-of-night mini games in *Five Nights at Freddy's 3*. In each one, you play as a different animatronic: Shadow Freddy says, "Follow me," then guides you through the pizzeria . . . to a room where you're torn to pieces.

PHANTOM FREDDY

Great, he's come back to haunt you.

Data File

Name: Phantom Freddy

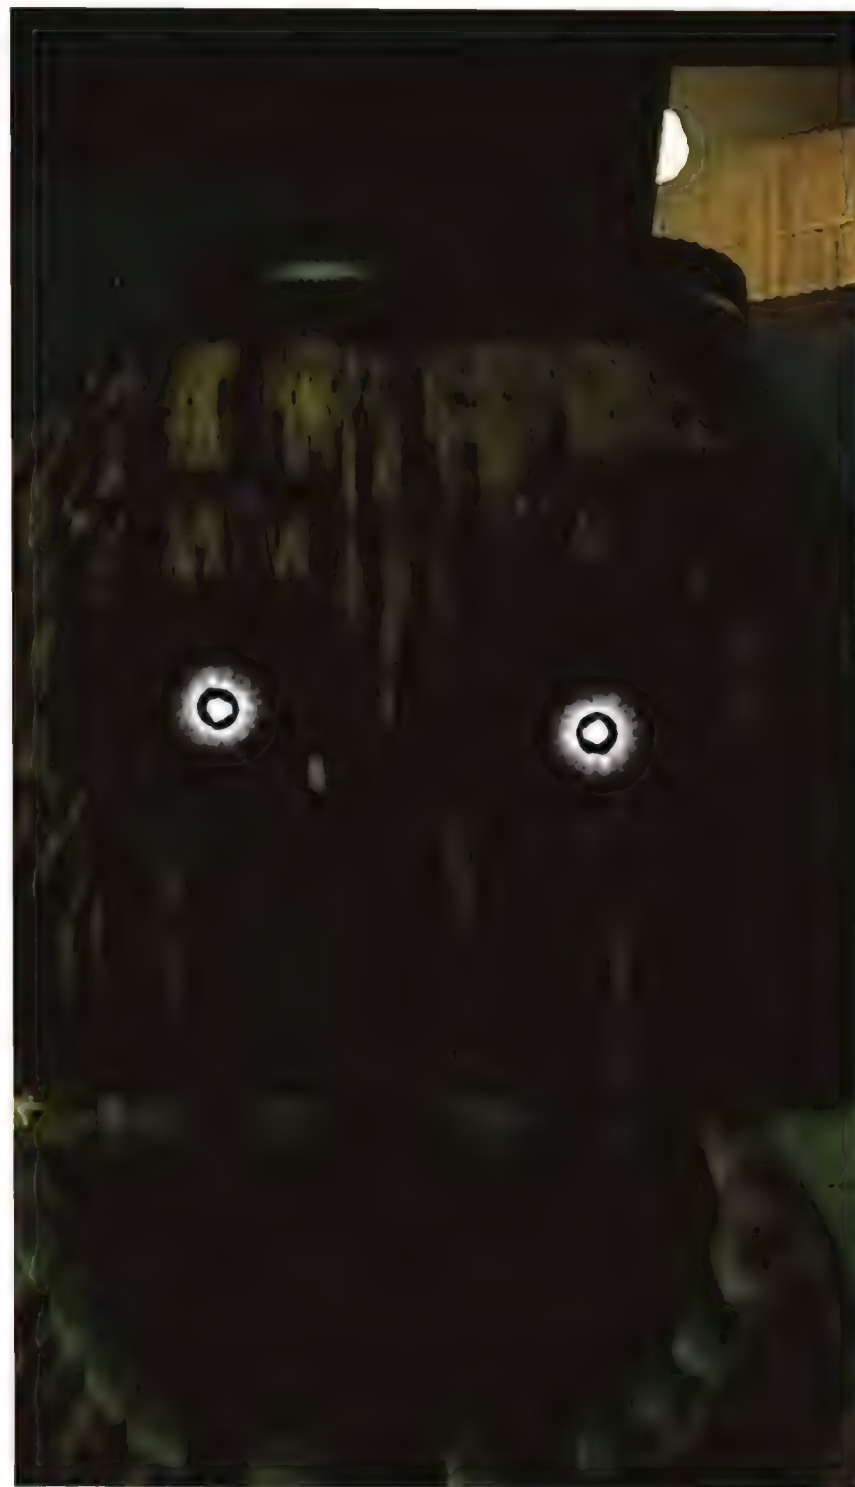

Type: Animatronic Bear

Game appearances: *Five Nights at Freddy's 3, Ultimate Custom Night, Five Nights at Freddy's: Help Wanted, Five Nights at Freddy's: Security Breach*

Fazbear's Fright: The Horror Attraction comes complete with actual phantoms, including Phantom Freddy, of course! His small, beady pupils set him apart from the other Phantom Animatronics.

GHOSTING IN

Phantom Freddy appears to be burnt and damaged, and like Shadow Freddy, he has the same basic look as Golden Freddy. Phantom Freddy limps across the corridor outside the office, and if you watch him for too long you'll be met with a jump scare!

NIGHTMARE FREDDY

Lurking in your unconscious.

Data File

Name: Nightmare Freddy

Type: Animatronic Bear

Game appearances: *Five Nights at Freddy's 4*,
Ultimate Custom Night, *Five Nights at Freddy's*:
Help Wanted, *Five Nights at Freddy's AR: Special*
Delivery

Anyone who's been inside Freddy Fazbear's Pizzeria won't be surprised to hear that some kids have had nightmares about the animatronics. But Nightmare Freddy is a horror beyond the imagination of most terrified children. Nightmare Freddy is a version of Freddy who first appears in the Bedroom of *Five Nights at Freddy's 4*. How did he get there? Don't ask—you don't want to know.

Nightmare Freddy is bigger, more battered, and more monstrous than the normal version! He has sharper teeth, and there are three smaller versions—the Freddles—attached to him. Nightmare Freddy hides under the bed, waiting for his Freddles to call him . . .

NO MORE MR. NICE GUY

Nightmare Freddy doesn't even have to pretend to be fun or friendly—he doesn't have a day job at the pizzeria. He torments and mocks his victims. Come to think of it, where does he go in the daytime?

Whatever you do, don't laugh at his tiny hat.

NIGHTMARE FREDBEAR

Well, that's just unnecessary.

Data File

Name: Nightmare Fredbear

Type: Animatronic Bear

Game appearances: *Five Nights at Freddy's 4*,
Ultimate Custom Night, *Five Nights at Freddy's: Help Wanted*,
Five Nights at Freddy's: Security Breach

Not to be confused with Nightmare Freddy, Nightmare Fredbear has longer, sharper teeth and claws. He has teeth in his torso (which we don't even want to think about), plus he wears a purple hat and bow tie.

THE EVIL TWIN OF . . .

The normal Fredbear is another version of Freddy Fazbear and the mascot of Fredbear's Family Diner. He can be seen in the mini games in *Five Nights at Freddy's 4* in the form of a plush cuddly toy owned by the game's protagonist—and the full-size version also appears in a more disturbing sequence. He's pretty friendly and sympathetic . . . most of the time. Tomorrow is another day.

NIGHTMARE

Sweet dreams!

Data File

Name: Nightmare

Type: Animatronic Bear

Game appearances: *Five Nights at Freddy's 4*, *Ultimate Custom Night*

How could you make Nightmare Fredbear scarier? We didn't think it was possible, but turns out it was. Nightmare is basically the same as Nightmare Fredbear apart from his coloring (note he also has a yellow hat and bow tie). Additionally, his endoskeleton can be seen, and his jump scare is different.

A LONG WEEKEND

You won't see Nightmare until after you've completed the unlockable sixth night of *Five Nights at Freddy's 4*. This unlocks a seventh night, where Nightmare appears at 4 a.m. to take over for Nightmare Fredbear.

FUNTIME FREDDY

He has fun—your time might be over.

Data File

Name: Funtime Freddy

Type: Animatronic Bear

Game appearances: *Five Nights at Freddy's: Sister Location*, *Freddy Fazbear's Pizzeria Simulator*, *Ultimate Custom Night*, *Five Nights at Freddy's: Help Wanted*, *Five Nights at Freddy's AR: Special Delivery*, *Five Nights at Freddy's: Security Breach*

Novel appearances: *The Fourth Closet*

Short story collection appearances: "Count the Ways," "Room for One More"

Funtime Freddy can be found performing at the Funtime Auditorium in Circus Baby's Entertainment and Rental. He's a circus-themed bear whose act involves his hand puppet, Bon-Bon. Most of the time, he's a cheery guy who loves birthdays—but he does have the occasional outburst.

MAD SKILLS

Funtime Freddy has the ability to mimic the voices of others, which he uses to lure potential victims. He's also equipped with sensors that can locate victims and group them together, not to mention a machine claw inside his torso he can use to grab his victims into his stomach storage tank.

ROCKSTAR FREDDY

PLeASe dEPoSIt FiVe cOiNS.

Data File

Name: Rockstar Freddy

Type: Animatronic Bear

Game appearances: *Freddy Fazbear's Pizzeria Simulator*, *Ultimate Custom Night*, *Five Nights at Freddy's: Security Breach*

This glitzy version of Freddy Fazbear doesn't move around like other animatronics—instead, he stays in the office. He doesn't seem to have much of a personality, either—he just wakes up every now and then and demands coins. Which is fairly realistic for a rock star, we suppose.

PAY OR TAKE THE HEAT

When Rockstar Freddy makes his demands, you can either pay him five Faz-Coins or turn up the heater to make him malfunction—otherwise, he'll jump scare you. Plus, it's just annoying hearing him say "Please deposit five coins" over and over again. He also occasionally gifts you power-ups in *Ultimate Custom Night*!

LEFTY

He's not quite right.

Data File

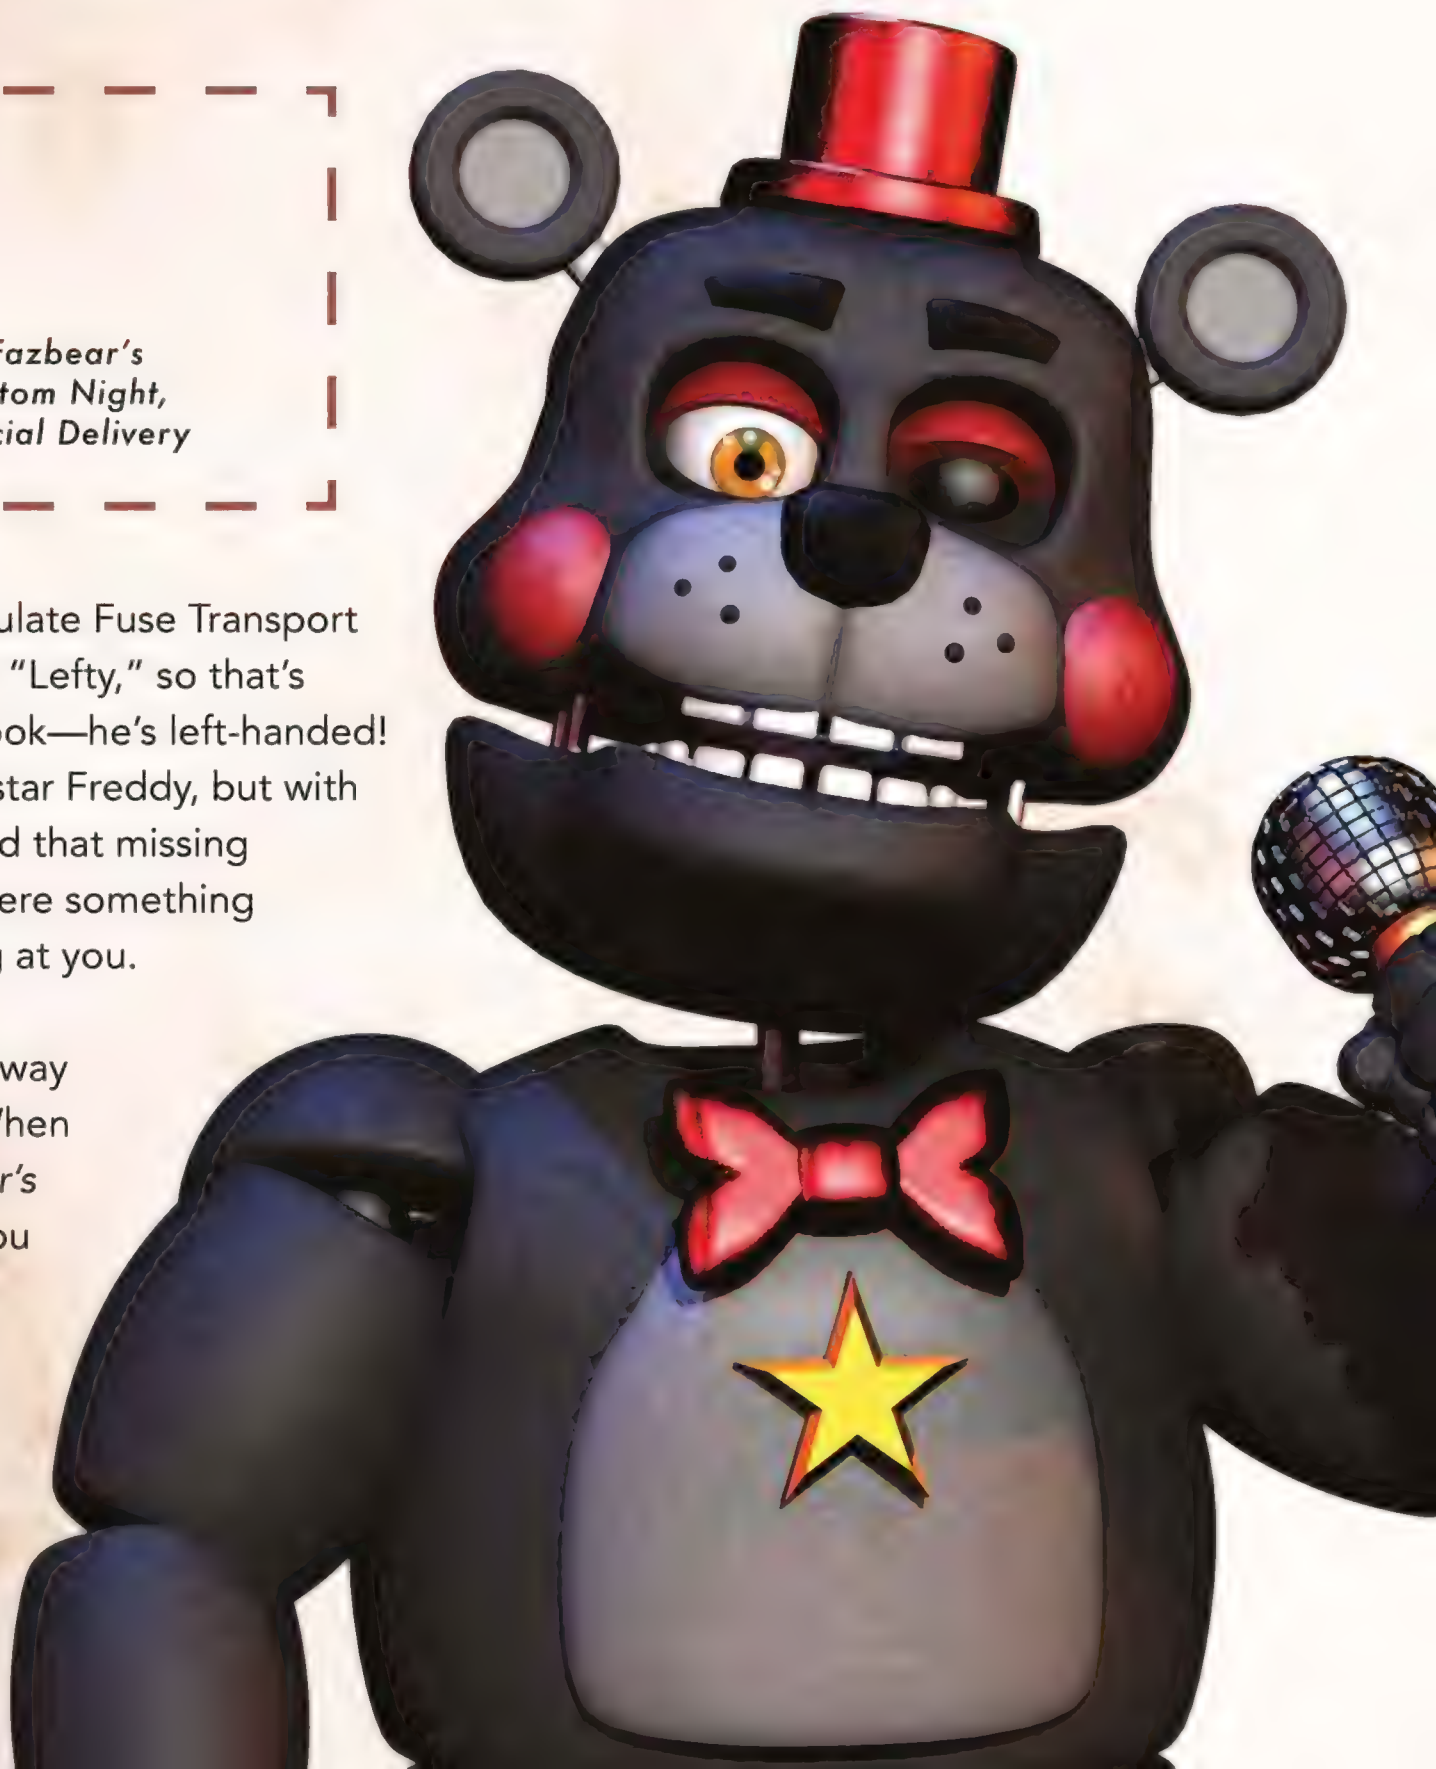

Name: Lefty

Type: Animatronic Bear

Game appearances: *Freddy Fazbear's Pizzeria Simulator*, *Ultimate Custom Night*, *Five Nights at Freddy's AR: Special Delivery*

L.E.F.T.E. stands for Lure Encapsulate Fuse Transport and Extract, but it's pronounced "Lefty," so that's what everyone calls him. Also, look—he's left-handed! He's like a mirror image of Rockstar Freddy, but with a different color scheme. Oh, and that missing part of his left eye—wait, was there something else inside? No, he's not winking at you.

Lefty behaves in kind of a weird way (yes, weirder than the others). When he attacks you in *Freddy Fazbear's Pizzeria Simulator*, he shushes you first. He has dialogue when he appears in *Ultimate Custom Night*, but he always shushes you before delivering his line—usually something creepy about making room for you.

LEFT IN THE ALLEY

Lefty is faulty, so his dance moves aren't as smooth as they should be when he's entertaining. After you find Lefty, you can choose to throw him back into the alley where you found him or complete a maintenance check so that you can salvage him. If you can salvage Lefty without getting jump scared, you can make \$5,000.

A free animatronic! Just dumped in an alley! Too good to be true?

Look him in the eye before you die . . .

HELPY

He shouldn't freak us out, but he does.

Data File

Name: Helpy

Type: Miniature Toy

Game appearances:

*Freddy Fazbear's
Pizzeria Simulator,
Ultimate Custom Night,
Five Nights at Freddy's:
Help Wanted, Five Nights
at Freddy's AR: Special
Delivery, Five Nights at
Freddy's: Security Breach*

Helpy is a toy. So what's there to be scared of? He's just a little toy, who looks quite like Funtime Freddy with similar colors, hat, and bow tie. But little versions of things are often creepier than the real thing, and that goes double for Helpy. He's just horrible!

Helpy appears in most of the mini games in *Freddy Fazbear's Pizzeria Simulator*. He's not actually called Helpy in the game, but the name was confirmed in update notes. Why Helpy? He tests the items you buy, and after you attempt to salvage the animatronics, he appears during the results and reacts to them. Which isn't that helpful.

BEAR HORN

During the Bears Attack challenge in *Ultimate Custom Night*, Helpy becomes easier to fight in the third round. His jump scares in *Ultimate Custom Night* don't end the game—he just creates a distraction by blowing an air horn. So he's not the worst. We're still not huge fans, though.

He's a tiny shiny bear,
and he's coming for you.

Gah! Helpy can squeeze through the smallest cracks . . .

GLAMROCK FREDDY

Don't be afraid! No really, don't.

Data File

Name: Glamrock Freddy
Type: Animatronic Bear
Game appearances:
Five Nights at Freddy's:
Security Breach

Glamrock Freddy is the lead singer of the Glamrock Animatronics in the shiny, new, non-sinister Freddy Fazbear's Mega Pizzaplex. He's got a flashy makeup design, and his overall look is influenced by glam metal. He also has a chest hatch to contain large birthday cakes and piñatas, and a candle lighter in one of his fingers. He needs regular charging and isn't designed to go outside the Pizzaplex.

At the start of *Security Breach*, Freddy glitches while onstage and goes into Safe mode. He revives to find Gregory is hiding in his chest hatch. Freddy is the only one of the

Glamrock Animatronics

not to fall under the influence of Vanny, and while the others are used to attack Gregory, Freddy advises and helps the boy escape the Pizzaplex.

BEARER OF GOOD NEWS

There are some situations where Freddy may lose control of himself. If his power runs too low, or if he's incorrectly maintained in Parts and Service, he will jump scare Gregory. Although Freddy tells Gregory he can't leave the building, it is possible to get a happy ending for Freddy in this game . . .

Waiting to go onstage
and come alive . . .

Haven't you heard? Top hats are cool now.

BLACKLIGHT FREDDY

Hands down the darkest Freddy.

Data File

Name: Blacklight Freddy

Type: Animatronic Bear

Game appearances: *Five Nights at Freddy's: Help Wanted*,
Five Nights at Freddy's AR: Special Delivery

This Freddy variant appears in Blacklight mode in *Help Wanted*. Each mini game has a Blacklight mode that you can unlock by winning that game on normal difficulty. In Blacklight mode, the game is made harder by extra distractions like loud music and balloons floating around. It's also made more unsettling by the presence of Blacklight Freddy.

LIGHTEN UP

The Dark version of Blacklight Freddy from *Special Delivery* is entirely pitch black except for his glowing eyes, creating one of the worst jump scares of the whole series. It's like being swallowed into an infinite void. Oh, and he has Dark Freddles, too. Brr.

PARTY FREDDY

There's a party in his mouth, and everyone's invited!

Data File

Name: Party Freddy

Type: Animatronic Bear

Game appearances: *Five Nights at Freddy's:
Help Wanted*

Another Blacklight-mode version of Freddy, Party Freddy appears in the Blacklight version of the Pizza Party level, in which you must roam the pizzeria in search of the pizza party before the timer runs out. You also have to avoid all the other animatronics in the various rooms.

PARTY TIME

If you do run out of time, well, guess who turns up for a jump scare. Party Freddy is just like Blacklight Freddy, except his eyes and mouth are outlined in bright red. Who invited him to the party anyway?

FREDDLES

Mini nightmares.

Data File

Name: Freddles

Type: Animatronic Bears

Game appearances: *Five Nights at Freddy's 4*, *Ultimate Custom Night*, *Five Nights at Freddy's: Help Wanted*

There are three Freddles, and they all look slightly different since each is missing different pieces. In *Five Nights at Freddy's 4*, they gather on the bed and can be scared off with a flashlight. But if all three Freddles gather and aren't scared off in time, they'll summon Nightmare Freddy.

A BAD COMBINATION

The three Freddles can fuse themselves onto Nightmare Freddy's body. But they don't seem to be controlled by their terrifying host, as they don't share his characteristics—they're far more playful and not nearly so aggressive.

DREADBEAR

He's alive! Aliiiiive!

Data File

Name: Dreadbear

Type: Animatronic Bear

Game appearances: *Five Nights at Freddy's: Help Wanted*

Dreadbear made his first appearance in *Curse of Dreadbear*, a Halloween DLC add-on for *Five Nights at Freddy's: Help Wanted*. He's a Freddy variant styled after Frankenstein's monster—tall and bulky with stitches across his skin, bolts through his neck, and a lumbering walk.

PRACTICING MINDFULNESS

Dreadbear must be assembled by you as part of the Spooky Mansion game mode. You need to set up his brain and make sure it will fit in his head; otherwise, the mindless Dreadbear will attack! The power keeps going out, and every time it's turned on, Dreadbear gets a shock—and if he's shocked five times, he'll attack.

SHAMROCK FREDDY

The bad luck of the Irish.

Data File

Name: Shamrock Freddy

Type: Animatronic Bear

Game appearances: *Five Nights at Freddy's AR: Special Delivery*

Shamrock Freddy was the first in a series of holiday-themed skins for *Special Delivery*, released for St. Patrick's Day in 2020 (and revived several times since). (The shamrock is a plant that's a symbol of Ireland, and St. Patrick is the patron saint of Ireland.)

GOING GREEN

Shamrock Freddy differs from the normal Freddy Fazbear mostly because he's green (obviously). But he's also swapped his usual black top hat for a leprechaun's hat. Referencing the folklore about leprechauns guarding pots of gold, Shamrock Freddy's microphone is gold, and he also wears a gold chain.

FIREWORK FREDDY

He'll scare you to death the American way.

Data File

Name: Firework Freddy

Type: Animatronic Bear

Game appearances: *Five Nights at Freddy's*
AR: Special Delivery

Firework Freddy is a holiday variant marking Independence Day on the fourth of July, and was first released in 2020. Firework displays are traditional on this day, but we're sure Freddy isn't going to let off that huge rocket inside the pizzeria, right . . . ?

ALL DRESSED UP

Unusually, this Freddy is wearing more than just a top hat and bow tie (though he does also have those). He's got sunglasses, a tank top, and shorts—all with the same patriotic red, white, and blue stars-and-stripes color scheme.

VR TOY FREDDY

He almost looks real!

Data File

Name: VR Toy Freddy

Type: Animatronic Bear

Game appearances: *Five Nights at Freddy's*
AR: Special Delivery

This variant skin for Toy Freddy was made available for a limited time during the Arcade Mayhem event in *Special Delivery*, as part of the Arcade Animatronics series of skins. He looks like a purple neon wire-frame model of Toy Freddy.

IN HIS OWN WORLD

VR Toy Freddy wears a set of VR goggles, so that must mean he can't see you and you're safe? Ha, no. When he goes into attack mode, he turns orange and the headset vanishes to reveal greenish-yellow glowing eyes.

WOODLAND TOY FREDDY

What wood Freddy do?

Data File

Name: Woodland Toy Freddy

Type: Animatronic Bear

Game appearances: *Five Nights at Freddy's*
AR: Special Delivery

This Toy Freddy variant—along with the rest of the Forest Animatronics series—was released for the Haunted Forest event. He carries a stick instead of a microphone, suggesting he's less of an entertainer than his counterpart.

TREE-MENDOUS

Woodland Toy Freddy is made out of wood, but he doesn't look like he's been assembled from parts. No, he looks like he's been grown—he's got moss and mushrooms sprouting all over him, and his empty chest cavity reveals he's got no inner workings. So basically he's a haunted tree. It's really made us reconsider going for a walk in the woods.

FREDDY FROSTBEAR

Man, that's cold.

Data File

Name: Freddy Frostbear

Type: Animatronic Bear

Game appearances:

Five Nights at Freddy's AR:
Special Delivery

This version of Freddy was released for the 2019 Christmas event in *Special Delivery*, and the first skin to be released in the game. He's based on the original Freddy Fazbear, but he's an ice sculpture come to life, which seems perfectly normal. He carries an icicle instead of a microphone.

COLD CALLS

Freddy Frostbear doesn't talk to you. What he does is far worse—he sends you emails with cold-themed puns. He has a unique ability to freeze the screen, which means you must shake your device until the frost disappears.

BLACK ICE FROSTBEAR

He's a slippery character.

Data File

Name: Black Ice Frostbear

Type: Animatronic Bear

Game appearances: *Five Nights at Freddy's*
AR: Special Delivery

A variant of a variant, Black Ice Frostbear is a version of Freddy Frostbear introduced for the Winter Wonderland event in 2020. Rather than the clear blue ice of Freddy Frostbear, the Black Ice version is much darker, and his ice has formed into sharp spikes.

NOT VERY CHRISTMASSY

The cheerful touches that distinguished Freddy Frostbear—his tartan bow tie and the sprig of holly on his hat—are nowhere to be seen. Plus, the icicle has been replaced with a full-on ice spear. He could poke someone's eye out with that!

AERONAUT TOY FREDDY

Flight or fright?

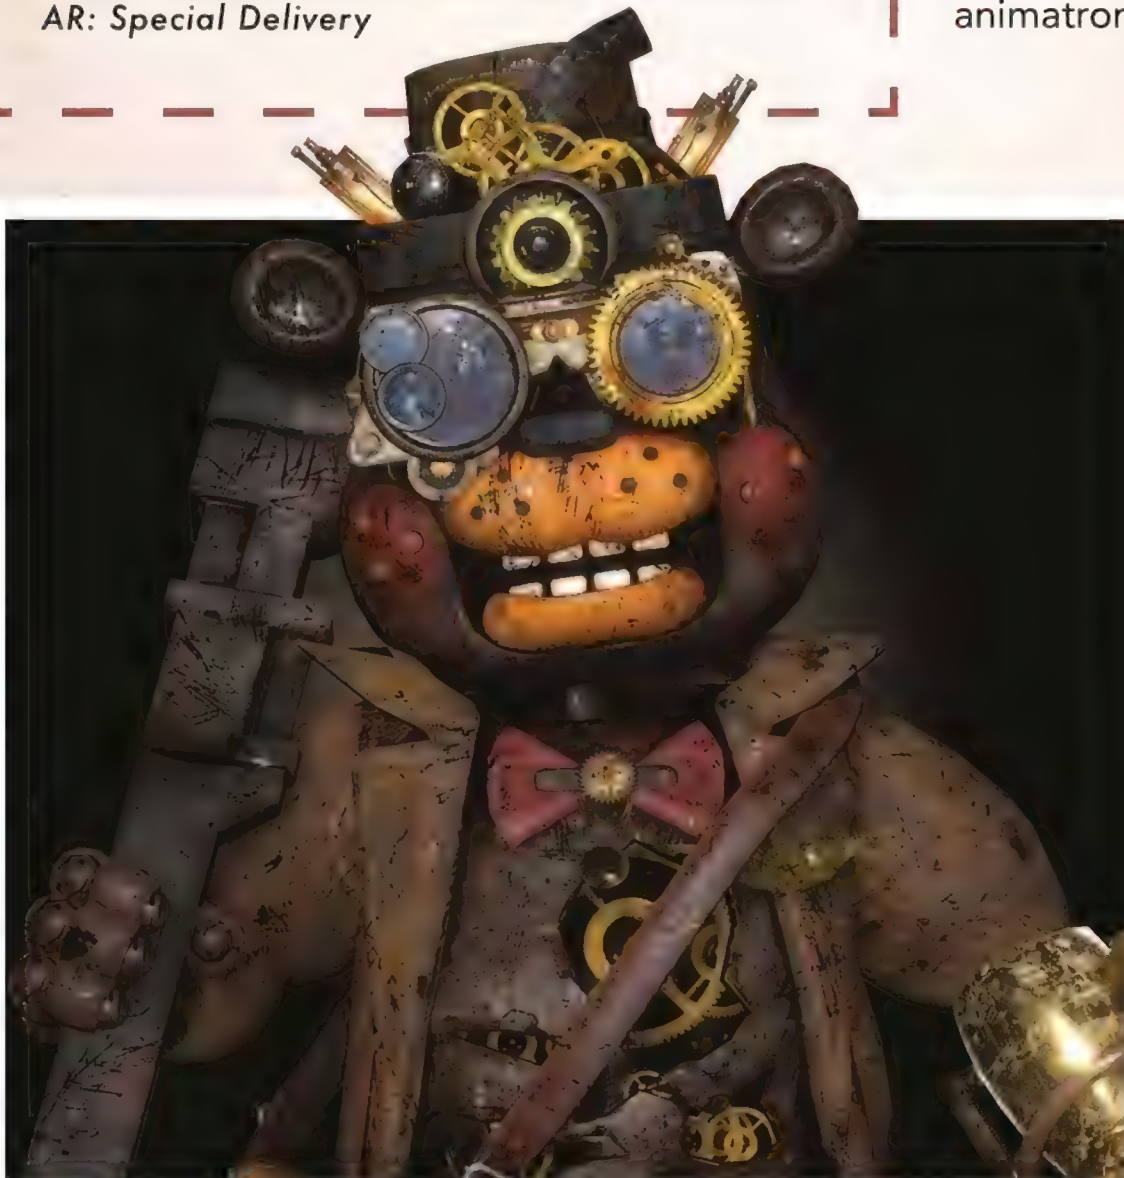

Data File

Name: Aeronaut Toy Freddy

Type: Animatronic Bear

Game appearances: *Five Nights at Freddy's*
AR: Special Delivery

This Freddy variant was released for the Screampunk event in *Special Delivery* in 2021. He's dressed in a steampunk style (a type of sci-fi based around pre-digital technology and the Victorian era)—a very good fit for the creepy animatronics of Freddy Fazbear's world.

FLY GUY

The Aeronaut (a name for someone who studies and makes flying machines) has one of the most elaborate costumes we've yet seen on any version of Freddy, with a trench coat, shoulder bag, and glasses decorated with cogs. In fact, he's so steampunk, steam actually comes out of the holes in his body! Now that's commitment to a look.

LONELY FREDDY

Be his friend? No, don't.

Data File

Name: Lonely Freddy

Type: Animatronic Bear

Short story collection appearances:
"Lonely Freddy"

Lonely Freddy is a smaller version of Freddy, designed as a companion for kids who don't have anyone else to play with at parties. He can talk to kids and learn about their favorite things so they can interact with him like a real friend.

QUESTIONABLE BEHAVIORS

Lonely Freddy in Fazbear Frights #2 goes deeper than expected, putting a boy called Alec into a trance as it asks questions that become more and more personal . . . before finally swapping bodies with Alec, who is trapped inside Lonely Freddy's body. It looks like the same fate has happened to other children at the pizzeria, as the ending shows a dumpster filled with dozens of Lonely Fredmys.

TWISTED FREDDY

A twist on an old favorite.

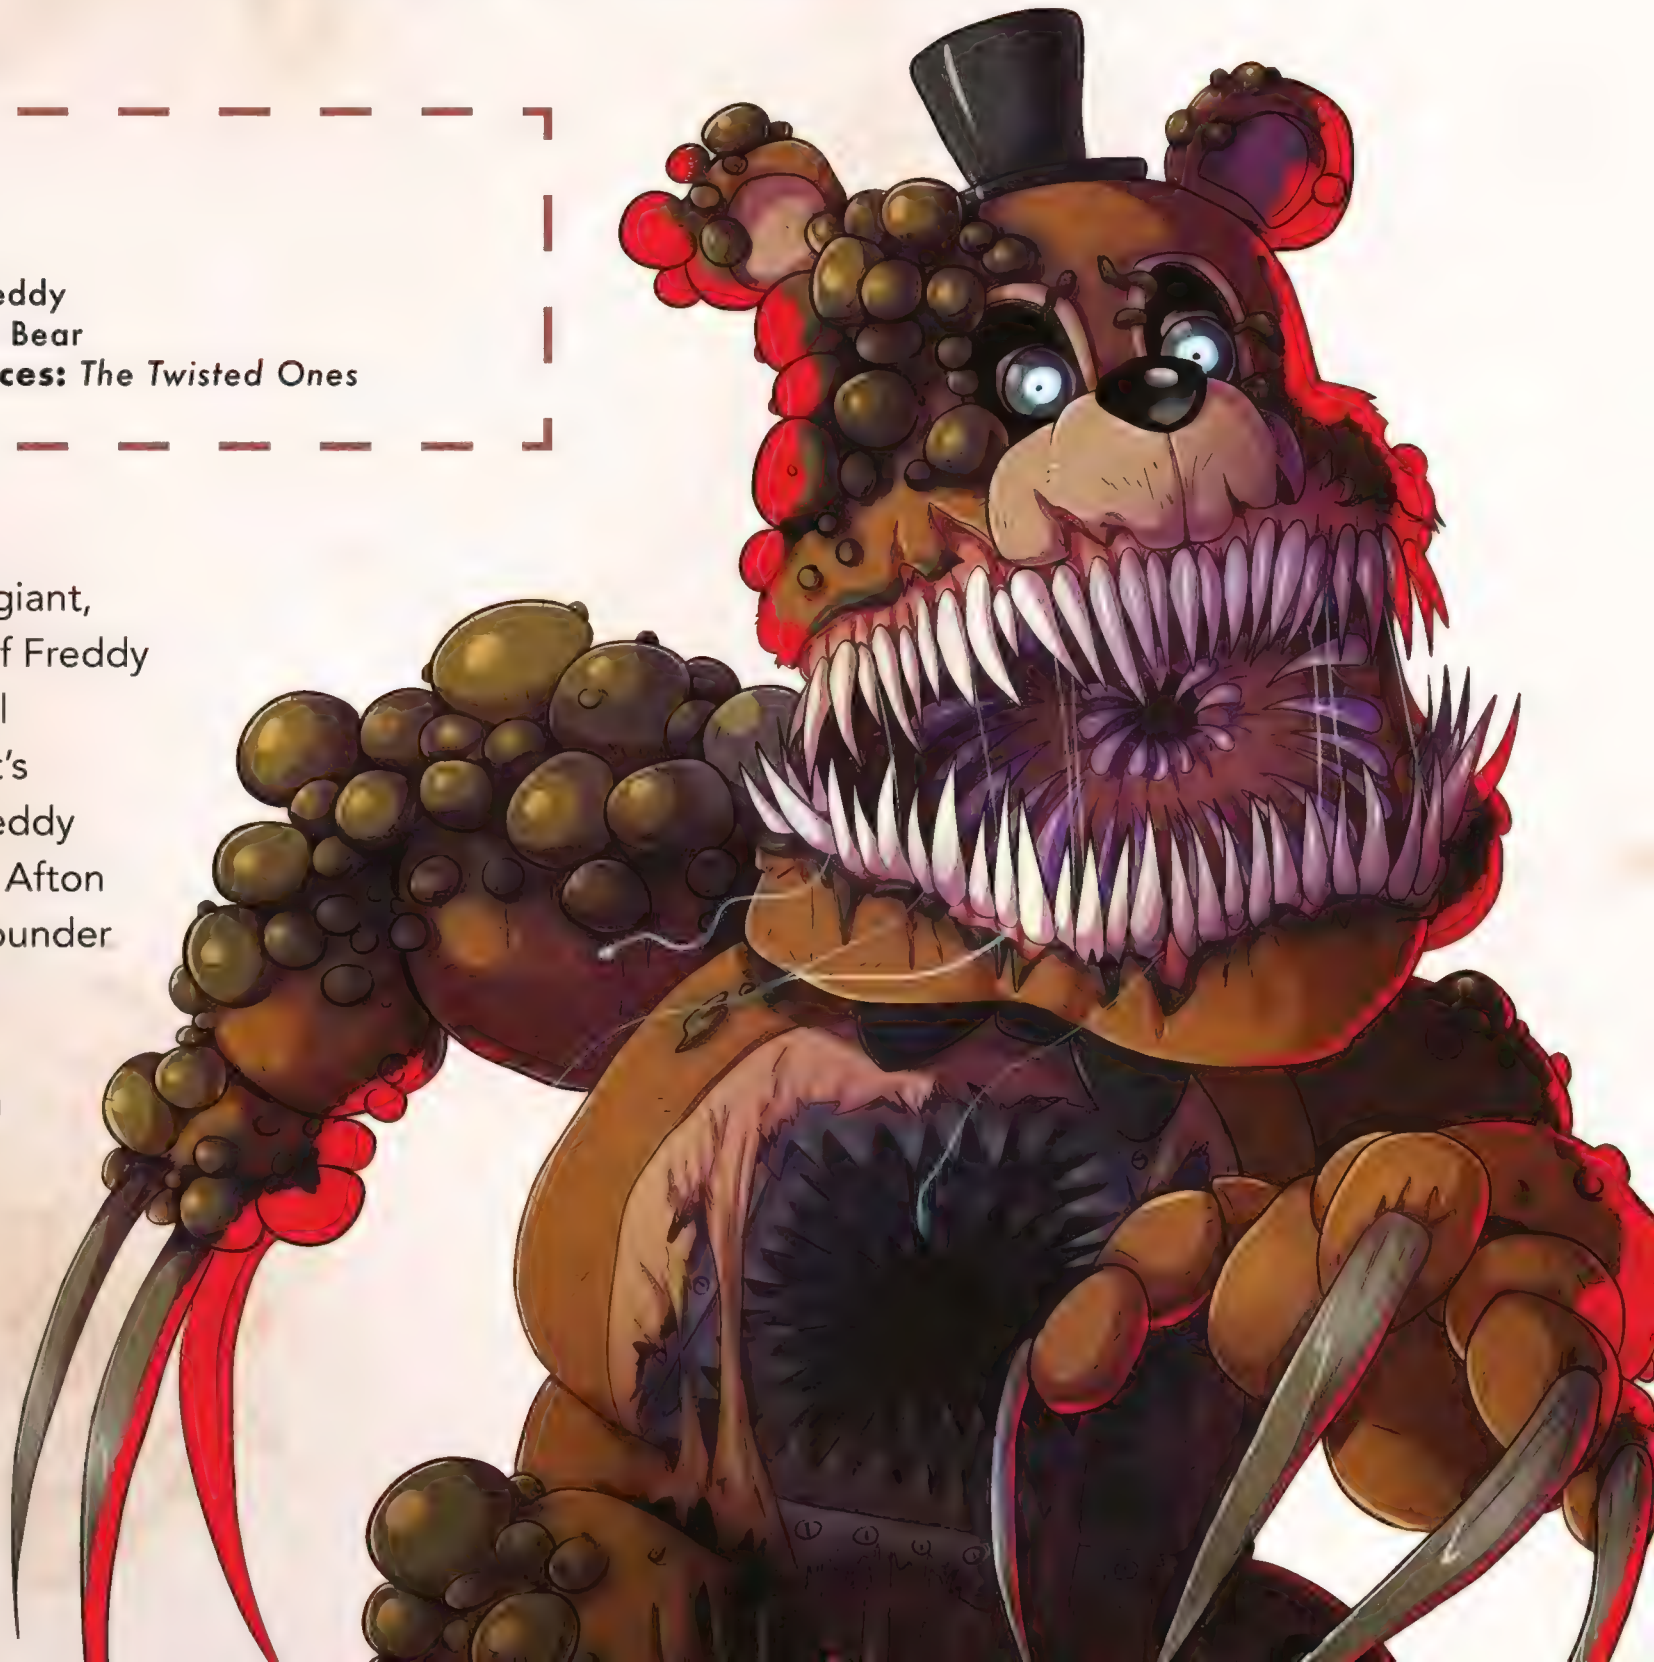

Data File

Name: Twisted Freddy

Type: Animatronic Bear

Novel appearances: *The Twisted Ones*

Twisted Freddy is a giant, monstrous version of Freddy Fazbear. In the novel *The Twisted Ones*, it's revealed Twisted Freddy was built by William Afton (serial killer and cofounder of Fredbear's Family Diner and Freddy Fazbear's Pizza) with the aim of killing Charlotte Emily (his business partner's daughter).

The “second mouth” on Twisted Freddy’s body leads to a cavity large enough to hold a person, who is then restrained by springlocks. The springlocks can also kill the captive, which is what happened to Charlotte, or “Charlie.” Twisted Freddy can roll his eyes back to look inside the cavity and view his captive.

BURIED SECRETS

In *The Twisted Ones*, Twisted Freddy is uncovered buried in a backyard. He kidnaps Charlotte Emily from her former childhood home, which has been destroyed by a tornado. He does then eventually kill Charlotte when she’s trapped inside his chest and a springlock fails. But Charlotte’s story doesn’t end there . . .

He’s looking to eat something more filling.

A hole lot of trouble is coming your way.

BONNIE

It's rabbit season.

Data File

Name: Bonnie

Type: Animatronic Rabbit

Game appearances:

Five Nights at Freddy's,
Five Nights at Freddy's 2,
Five Nights at Freddy's 3, *Five*
Nights at Freddy's 4, *Ultimate*
Custom Night, *Five Nights at Freddy's*:
Help Wanted, *Five Nights at Freddy's*
AR: Special Delivery, *Five Nights*
at Freddy's: Security Breach

Novel appearances: *The Silver Eyes*,
The Twisted Ones, *The Fourth Closet*

Short story collection appearances:

"The New Kid," "Hide-and-Seek,"
"Sea Bonnies," "Find Player Two!,"
"Stitchwraith Stingers"

Bonnie is a bunny—a human-sized animatronic bunny who plays in Freddy Fazbear's band and carries a red Flying V guitar. His personality may seem laid-back, but like a lot of the animatronics, how he talks and how he acts aren't the same thing . . .

In fact, Bonnie is often the most active and aggressive of the animatronics. In *Five Nights at Freddy's*, he's usually the first to start moving in the direction of the office each night.

However, when he's shut out, he's also the quickest to give up and go away. But watch out, as he may teleport instantaneously around the pizzeria later on!

TWO'S A CROWD

In *Ultimate Custom Night*, Bonnie is forced to share a cramped stage with Foxy in Pirate's Cove, which puts him in an even worse mood. If Bonnie is peering out when you check this camera, he'll use the blinding flash of his eyes to disable all the cameras! A figurine on your desk changes between Bonnie and Foxy, and tells you which character is active.

Hope you floss between those teeth regularly.

Are you ready to rock? Well, he's coming whether you are or not.

TOY BONNIE

Something new . . .

Data File

Name: Toy Bonnie

Type: Animatronic Rabbit

Game appearances: *Five Nights at Freddy's 2*, *Five Nights at Freddy's 3*, *Five Nights at Freddy's 4*, *Ultimate Custom Night*, *Five Nights at Freddy's: Help Wanted*, *Five Nights at Freddy's AR: Special Delivery*, *Five Nights at Freddy's: Security Breach*

Toy Bonnie has a glossier, more polished surface than Bonnie, and his overall shape is more distinctive—the original Bonnie is more similar to Freddy. But he acts quite similarly to Bonnie, and in *Five Nights at Freddy's 2*, he is the first of the Toy Animatronics to become active.

Unlike his predecessor, Toy Bonnie has a bit of an ego problem—he believes he’s the real star of Freddy Fazbear’s Band. He has a very high opinion of himself, talking about how shiny he is, and he likes to announce his presence by saying, “Clear the stage, for the star of our show is now here.”

COUNTDOWN . . . OR UP?

Toy Bonnie also has issues with counting. Yes, when he tries to count down, he goes the wrong way and gets the numbers in the wrong order. It’s common to hear “Six. Seven. Five. Three. Four. Two. One!” when he’s around. But hey, nobody’s perfect. It’s the murders that really bother us.

Those ears look like offensive weapons.

Those jointed fingers do look much better for playing guitar.

WITHERED BONNIE

Something old . . .

Data File

Name: Withered Bonnie

Type: Animatronic Rabbit

Game appearances: *Five Nights at Freddy's 2, Ultimate Custom Night, Five Nights at Freddy's: Help Wanted*

There are two reasons you wouldn't want to meet Withered Bonnie. One is that he doesn't have a face—it's just fallen clean off! The other is that he makes a lot of puns about not having a face. The most damaged of the Withered Animatronics, he's also missing an arm and the "skin" on his hand and foot, and his eyes are just two red LEDs piercing the darkness.

Withered Bonnie's missing arm means that he can't perform his customary role of playing guitar, which leaves him free to stalk people around the restaurant. Be sure to look out for the audio and video distortions he creates when he's nearby.

LOSING FACE

Withered Bonnie's puns in *Ultimate Custom Night* include such zingers as "Time to face the consequences of your failure," and "Might as well face the facts—you were always destined to fail." While he seems to get some enjoyment from these gags, he is clearly saddened by his lack of face.

Face it . . . you haven't got one.

Withered Bonnie sits in the dark. Is it better to be able to see him, or not?

RWQFSFASXC

And how do you pronounce that?

Data File

Name: RWQFSFASXC

Type: Animatronic Rabbit

Game appearances: *Five Nights at Freddy's 2*, *Five Nights at Freddy's 3*, *Ultimate Custom Night*, *Five Nights at Freddy's: Help Wanted*, *Five Nights at Freddy's AR: Special Delivery*, *Five Nights at Freddy's: Security Breach*

No, we didn't lean on the keyboard by mistake! Though it looks like that's exactly how RWQFSFASXC got his name; someone hit caps lock and drummed the fingers of their left hand on the keyboard a few times. RWQFSFASXC is also known as Shadow Bonnie.

The outline of RWQFSFASXC is a lot like Toy Bonnie, but he's completely dark—he's rumored to be made entirely from Dark Remnant. His first appearance in *Five Nights at Freddy's 2* was as an Easter egg—he spawns extremely rarely on the left side of the office. Staring at him too long will crash the game.

BRINGER OF DARKNESS

RWQFSFASXC appears more commonly in other games in the series. He's part of a mini game in *Five Nights at Freddy's 3* and in *Ultimate Custom Night*, where he can turn your office pitch black for around ten seconds. In *Special Delivery*, he spawns if you collect too much Dark Remnant.

Not sure this would be accepted as a passport photo.

Ah, the benefits of brushing your teeth regularly.

NIGHTMARE BONNIE

When dreams of stardom turn sour.

Data File

Name: Nightmare Bonnie

Type: Animatronic Rabbit

Game appearances: *Five Nights at Freddy's 4*, *Ultimate Custom Night*, *Five Nights at Freddy's: Help Wanted*, *Five Nights at Freddy's AR: Special Delivery*

Another of the Nightmare series of animatronics, Nightmare Bonnie looks similar to the original Bonnie, but with considerable damage to his fabric revealing the workings underneath. The exception to this is his bow tie, which is bright, shiny red.

In *Five Nights at Freddy's 4*, Nightmare Bonnie is a major presence in the first few nights. He's very active and comes down the left hall. Make sure to listen to his breathing before you flash your light.

GET YOUR PRIORITIES STRAIGHT

In *Ultimate Custom Night*, the way to avoid attacks from Nightmare Bonnie—as well as Nightmare Mangle and Circus Baby in the right hallway—is to buy their plushie from the Prize Corner. But they change their order of attack from night to night and you don't have that much money, so you have to buy the plushies in the right sequence!

Don't you bite your tongue?
Oh, you don't have one.

Aren't rabbits supposed to nibble leaves and carrots and stuff?

BON-BON

(BONNIE HAND PUPPET)

Aren't bon-bons supposed to be sweet?

Data File

Name: Bon-Bon

Type: Animatronic Puppet

Game appearances: *Five Nights at Freddy's: Sister Location*, *Freddy Fazbear's Pizzeria Simulator*, *Five Nights at Freddy's 3*, *Ultimate Custom Night*, *Five Nights at Freddy's: Help Wanted*, *Five Nights at Freddy's AR: Special Delivery*

Bon-Bon is a puppet used by Funtime Freddy who looks like a mini version of Toy Bonnie. Puppets are creepy enough as it is without giving them human teeth. Eesh. But is Bon-Bon a puppet? Look closer—Funtime Freddy has Bon-Bon instead of a right hand. And she frequently comes off Funtime Freddy's hand during the games.

RIGHT HAND GAL

Usually, you'd expect a puppet to be controlled by the person wearing it, but that doesn't seem to be the case with Bon-Bon—she seems to have a mind of her own. In fact, when Funtime Freddy loses his temper, Bon-Bon is often the one to calm him down. She seems more levelheaded than Funtime Freddy!

BONNET

She needs a hand.

Data File

Name: Bonnet

Type: Animatronic Puppet

Game appearances: *Five Nights at Freddy's: Sister Location*, *Ultimate Custom Night*, *Five Nights at Freddy's: Help Wanted*

See if you can guess what makes Bonnet different from other Bonnie variants. That's right! She's the first girl version of Bonnie to appear in the series. Other than her color, though, her design is identical to Bon-Bon.

LOOK, NO HANDS!

Bonnet is a puppet like Bon-Bon, except she isn't attached to any of the other animatronics. She just wanders around on her own, and in *Sister Location*, she makes her way from one side of the office to the other. To deactivate her, just touch her nose. That can be difficult to do when there are many other animatronics to keep an eye on!

JACK-O-BONNIE

Bringing the pumpkin spice.

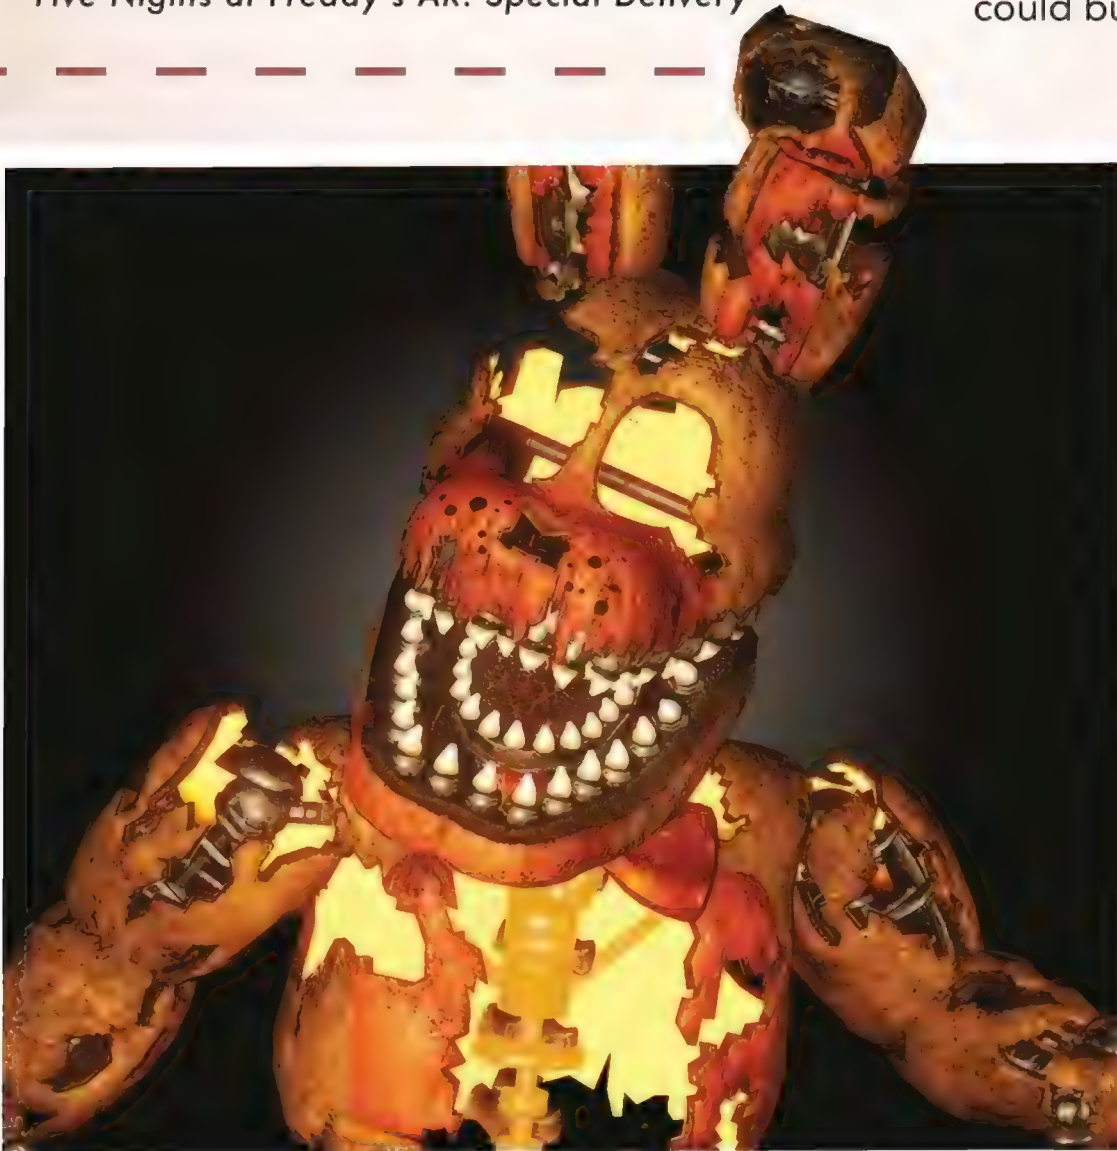

Data File

Name: Jack-O-Bonnie

Type: Animatronic Rabbit

Game appearances: *Five Nights at Freddy's 4*,
Five Nights at Freddy's: Help Wanted,
Five Nights at Freddy's AR: Special Delivery

A Halloween-themed update for *Five Nights at Freddy's 4* includes this reskinned version of Nightmare Bonnie, colored orange and with a glow coming from somewhere inside him. Is there a candle in there somewhere? Careful with that, you could burn the house down.

SMOKE SCREEN

The differences between Jack-O-Bonnie and Nightmare Bonnie are visual—he behaves in the exact same way. But instead of generating static, he generates smoke. He is also completely silent, which is very rare for a *Five Nights at Freddy's* character.

ROCKSTAR BONNIE

The smoothest killer in the pizzeria.

Data File

Name: Rockstar Bonnie

Type: Animatronic Rabbit

Game appearances: *Freddy Fazbear's Pizzeria Simulator*, *Ultimate Custom Night*

Another of the animatronics built for Freddy Fazbear's Pizza Place, Rockstar Bonnie is a guitarist, just like the original Bonnie. He has star-shaped buttons on his chest, and his Flying V guitar is brighter and shinier than Bonnie's.

SING IT OUT

Rockstar Bonnie has a very different voice from regular Bonnie. He's more of a polished entertainer with a crooner-style delivery—a bit like a murderous lounge singer. He's less polished when it comes to keeping track of where his guitar is, however, and often loses it.

NEON BONNIE

Whoa, dude.

Data File

Name: Neon Bonnie

Type: Animatronic Rabbit

Game appearances: *Five Nights at Freddy's: Help Wanted*

Another variant from the Blacklight mode in *Help Wanted*, Neon Bonnie appears in psychedelic neon colors. You can see him if you unlock Blacklight mode in the Parts and Service level, and he also appears—very, very rarely—in the Dark Rooms segment, if Bonnie's endoskeleton spawns and you approach it.

NEON NIGHTS

Another appearance of Neon Bonnie can be found in the final Pizza Party level, which can be unlocked by winning all mini games on both difficulties. If original Bonnie approaches you, then Neon Bonnie will appear and jump scare you.

CHOCOLATE BONNIE

Too much of him will make you sick.

Data File

Name: Chocolate Bonnie

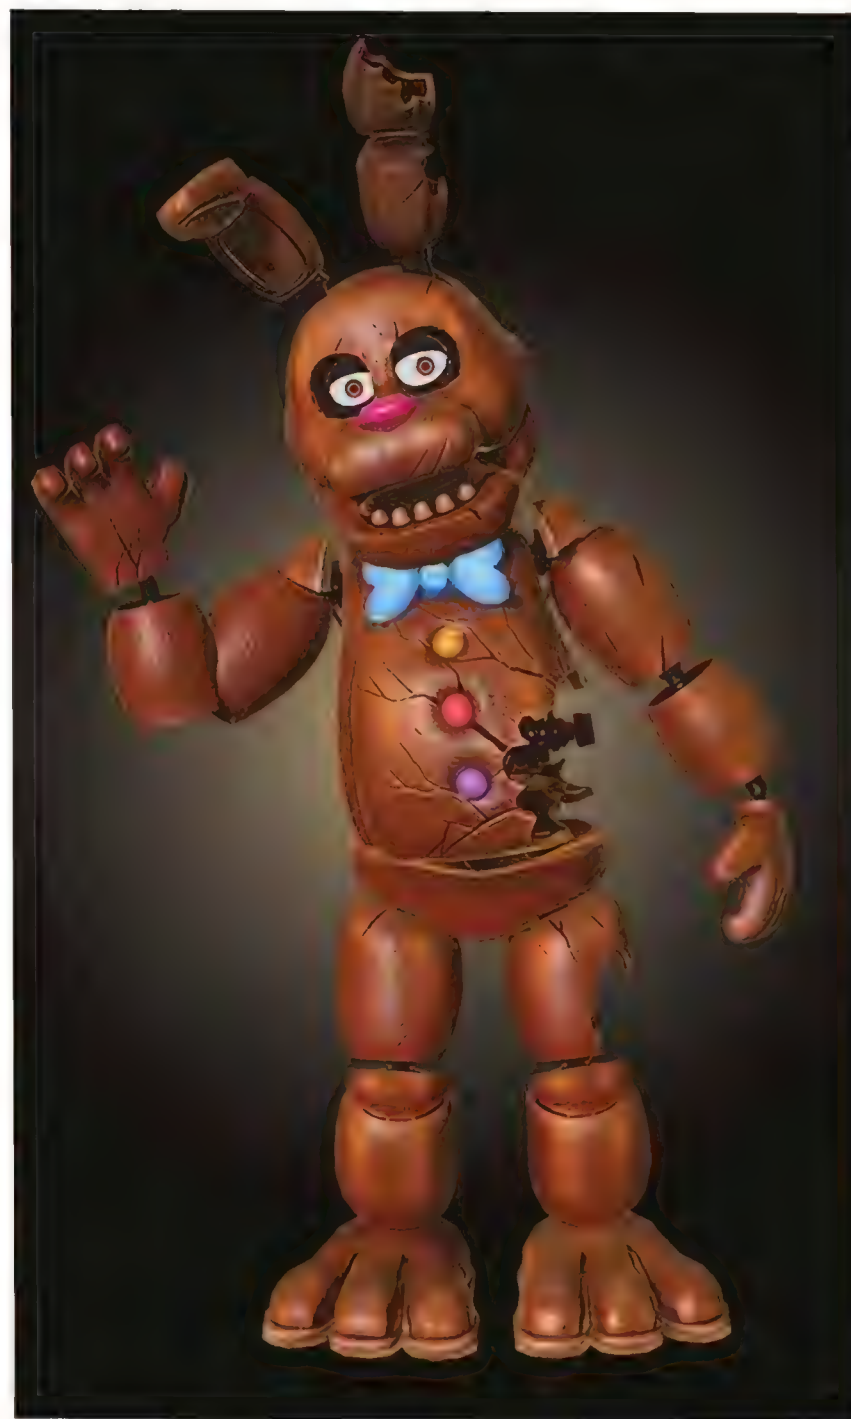

Type: Animatronic Rabbit

Game appearances: *Five Nights at Freddy's AR: Special Delivery*

Inevitably, the resident bunny at Freddy Fazbear's Pizza has received several Easter variants in *Special Delivery*—the first being this chocolate edition. Someone's already had a nibble at his delicious torso, revealing the workings underneath. It does look tempting . . .

CAN'T TAKE THE HEAT

There's a further variant of Chocolate Bonnie—the Melted version, released for Easter 2021. This is exactly like it sounds! His chocolate body has melted slightly, causing him to lose one of his eyes.

SYSTEM ERROR TOY BONNIE

Have you tried switching it off and on again?

Data File

Name: System Error Toy Bonnie

Type: Animatronic Rabbit

Game appearances: *Five Nights at Freddy's AR: Special Delivery*

System Error Toy Bonnie was released as part of the Arcade Animatronics set in May 2020 and was the first Toy Bonnie skin to be released. He's based on Toy Bonnie but in glowing orangey-pink, with SYSTEM ERROR on his torso.

TRAFFIC LIGHT EYES

Unlike the other Arcade Animatronics, System Error Toy Bonnie doesn't have an attack mode—but he does have three different eye colors. Normally they're orangey yellow, but they change to green or red in haywire states.

EASTER BONNIE

He's a bad egg.

Data File

Name: Easter Bonnie

Type: Animatronic Rabbit

Game appearances: *Five Nights at Freddy's*
AR: Special Delivery

This next Easter variant of Bonnie was added at Easter 2020. Sadly, this one isn't even nice to eat—he looks a bit like a poseable wooden figure that artists use. He has an Easter egg design on his chest and a HAPPY EASTER tag on his ear.

WINDOW SHOPPING

The reveal image for Easter Bonnie saw him and Chocolate Bonnie standing in the windows of a Candy & Sweets Shop. Is this shop part of the Freddy Fazbear's Pizza empire? Or are the animatronics being hired out to other businesses by Circus Baby's Entertainment & Rental?

BOULDER TOY BONNIE

He's literally a rock star.

Data File

Name: Boulder Toy Bonnie

Type: Animatronic Rabbit

Game appearances: *Five Nights at Freddy's AR: Special Delivery*

Part of the Forest Animatronics set released for the Haunted Forest event in November 2020, Boulder Toy Bonnie looks like a pile of haunted rocks that have formed themselves into the shape of a rabbit, rather than an actual robot.

SOCKET TO ME

The worst thing about Boulder Toy Bonnie is that he doesn't have any eyes—just two great big hollows (that glow green sometimes) where his eyes should be. But where's his guitar? All those rock music puns are begging to be made!

BLACK HEART BONNIE

Doesn't miss a beat.

Data File

Name: Black Heart Bonnie

Type: Animatronic Rabbit

Game appearances: *Five Nights at Freddy's AR: Special Delivery*

Black Heart Bonnie was introduced for Valentine's Day 2021, and what a delightfully romantic fellow he is. His exterior seems to be made of dark tinted glass with a pixelated heart at the center. It's the first animatronic to be made of glass—this one certainly doesn't look safe for children.

CRACKING UP

Black Heart Bonnie also has a hole in his torso surrounded by cracks that form the shape of a heart pierced by Cupid's arrow. Look out—his eyes don't change in haywire state, so you don't get any warnings about his attacks!

SUNKEN TOY BONNIE

He's got hidden depths. Unfortunately.

Data File

Name: Sunken Toy Bonnie

Type: Animatronic Rabbit

Game appearances: *Five Nights at Freddy's AR: Special Delivery*

This is one of the Wicked Tides Animatronics released into *Special Delivery* in May 2021. Unlike the others (Dark Water Endo and Piranha Plushtap), Sunken Toy Bonnie isn't based on a fish. Instead, he's designed to look like he's been underwater for a long time, and is covered in coral and algae.

A SHORE THING

Parts of Sunken Toy Bonnie are things you'd find on the seabed—his eyes are pearls and his bow tie is made of seashells. The moral of all this? Don't throw old junk in the sea, or it might come back to haunt you.

SEA BONNIE

Not suitable for drinking.

Data File

Name: Sea Bonnie

Type: Genetically Modified Creature

Short story collection appearances:
"Sea Bonnies"

The smallest characters in this entire book, the Sea Bonnies appeared in the Fazbear Frights #10 story "Sea Bonnies." They're genetically modified creatures created by Fazbear Entertainment. They are like sea monkeys, but they look like Bonnie.

IN TOO DEEP

In the story, a boy named Rory buys Sea Bonnie eggs as part of a plan to take revenge on his mean brother, Mott. When the eggs hatch, Mott hears the Sea Bonnies taunting him. He's alarmed when they invade the body of his pet goldfish, converting its flesh into more Sea Bonnies. Mott tries to flush them all away, but in the process he accidentally swallows one, sealing his terrible fate.

TWISTED BONNIE

The rabid rabbit.

Data File

Name: Twisted Bonnie
Type: Animatronic Rabbit
Novel appearances:
The Twisted Ones

Twisted Bonnie was another of the Twisted Animatronics created by William Afton to kill Charlotte Emily. Though he is a robot, the illusion discs made by Afton create the impression he's organic. This makes him seem more frightening and, more importantly, not man-made.

Twisted Bonnie doesn't appear in any of the games—he was created for *The Twisted Ones*, which is the second novel in the original trilogy of Five Nights at Freddy's books.

WHAT'S THE DAMAGE?

Like other versions of Bonnie, the Twisted version features some especially severe damage—in this case, half his torso is missing to reveal the endoskeleton underneath. The most alarming thing about Twisted Bonnie is his second jaw, which is lined with sharp teeth and split in two.

No one can deny he's got some backbone.

Row upon row of fierce fangs.

SPRING BONNIE

Anyone in there?

Data File

Name: Spring Bonnie

Type: Rabbit Springlock Suit

Game appearances: *Five Nights at Freddy's 3*, *Five Nights at Freddy's 4*, *Freddy Fazbear's Pizzeria Simulator*, *Ultimate Custom Night*, *Five Nights at Freddy's: Help Wanted*, *Five Nights at Freddy's: Security Breach*

Novel appearances: *The Silver Eyes*

Short story collection appearances: "Into the Pit"

Spring Bonnie looks similar to Bonnie, but is one of a small number of Springlock Suits. These are mascots that can either be worn as a suit by an employee of the pizzeria, or operated separately as an animatronic. The other notable Springlock Suit is Fredbear. This means it's not always clear whether a Springlock Suit has anyone inside it or not . . .

Spring Bonnie's appearance in *Five Nights at Freddy's 3* comes in one of the end-of-night mini games. In the one on Night 5, a man is chased into the suit by restless spirits. However, as the phone message has already explained, the suits are prone to springlock malfunctions, where the animatronic elements snap back into place, and are unsafe to use (mentioning the Spring Bonnie suit specifically). And we see such a malfunction occur.

SPRINGING INTO ACTION

Spring Bonnie has made further appearances, including as part of the mini games between nights in *Five Nights at Freddy's 4*, where he's seen in his role at Fredbear's Family Diner, and again at the end of the *Fruity Maze Arcade* mini game in *Freddy Fazbear's Pizzeria Simulator*.

It's springtime . . . and we wish it wasn't.

Spring Bonnie springing into action!

CHICA

Out for more than just chicken feed.

Data File

Name: Chica

Type: Animatronic Chicken

Game appearances: *Five Nights at Freddy's*,
Five Nights at Freddy's 2, *Five Nights at
Freddy's 3*, *Five Nights at Freddy's 4*,
Ultimate Custom Night, *Five Nights at Freddy's:
Help Wanted*, *Five Nights at Freddy's AR:

Novel appearances:

The Silver Eyes, *The Twisted Ones*,
The Fourth Closet

Short story collection

appearances: "Coming

Home," "The New Kid,"

"What We Found,"

"Pizza Kit," "Sea Bonnies,"

"Find Player Two!"

Chica just loves to eat!
Well, that's her personality
according to the Freddy
Fazbear's Pizza theme song,
where she sings, "Keep an eye on
your pizza, 'cause I'm a bird who likes
to eat!" She also has LET'S EAT!!! on her
bib to make it extra clear. But she's an
animatronic chicken, so how can she?

Chica doesn't let that stop her and will go in search of food, which sometimes distracts her while she's stalking the pizzeria at night. But here's the most disturbing thing about Chica—she has teeth. On her beak. Who knew a bird with a toothy grin could be so terrifying?

PLAYING CHICKEN

In the original game, Chica will move early but is more persistent than Bonnie. She'll hang around outside the door for quite some time. She also carries Mr. Cupcake on a tray. Honestly, it's surprising she hasn't eaten him already.

Always sticking her beak in where it's not wanted.

You know what, suddenly we're not hungry.

TOY CHICA

Ruffling feathers and destroying lives.

Data File

Name: Toy Chica

Type: Animatronic Chicken

Game appearances:

Five Nights at Freddy's 2,

Five Nights at Freddy's 3,

Five Nights at Freddy's 4,

Ultimate Custom Night,

Five Nights at Freddy's:

Help Wanted, Five Nights

at Freddy's AR: Special

Delivery, Five Nights at

Freddy's: Security Breach

Like the other Toy Animatronics, Toy Chica first appeared in *Five Nights at Freddy's 2*. She's a brighter, glossier version of Chica. In a slight personality shift, her bib now reads LET'S PARTY! and just has the one exclamation mark. She carries a toy version of Mr. Cupcake, too.

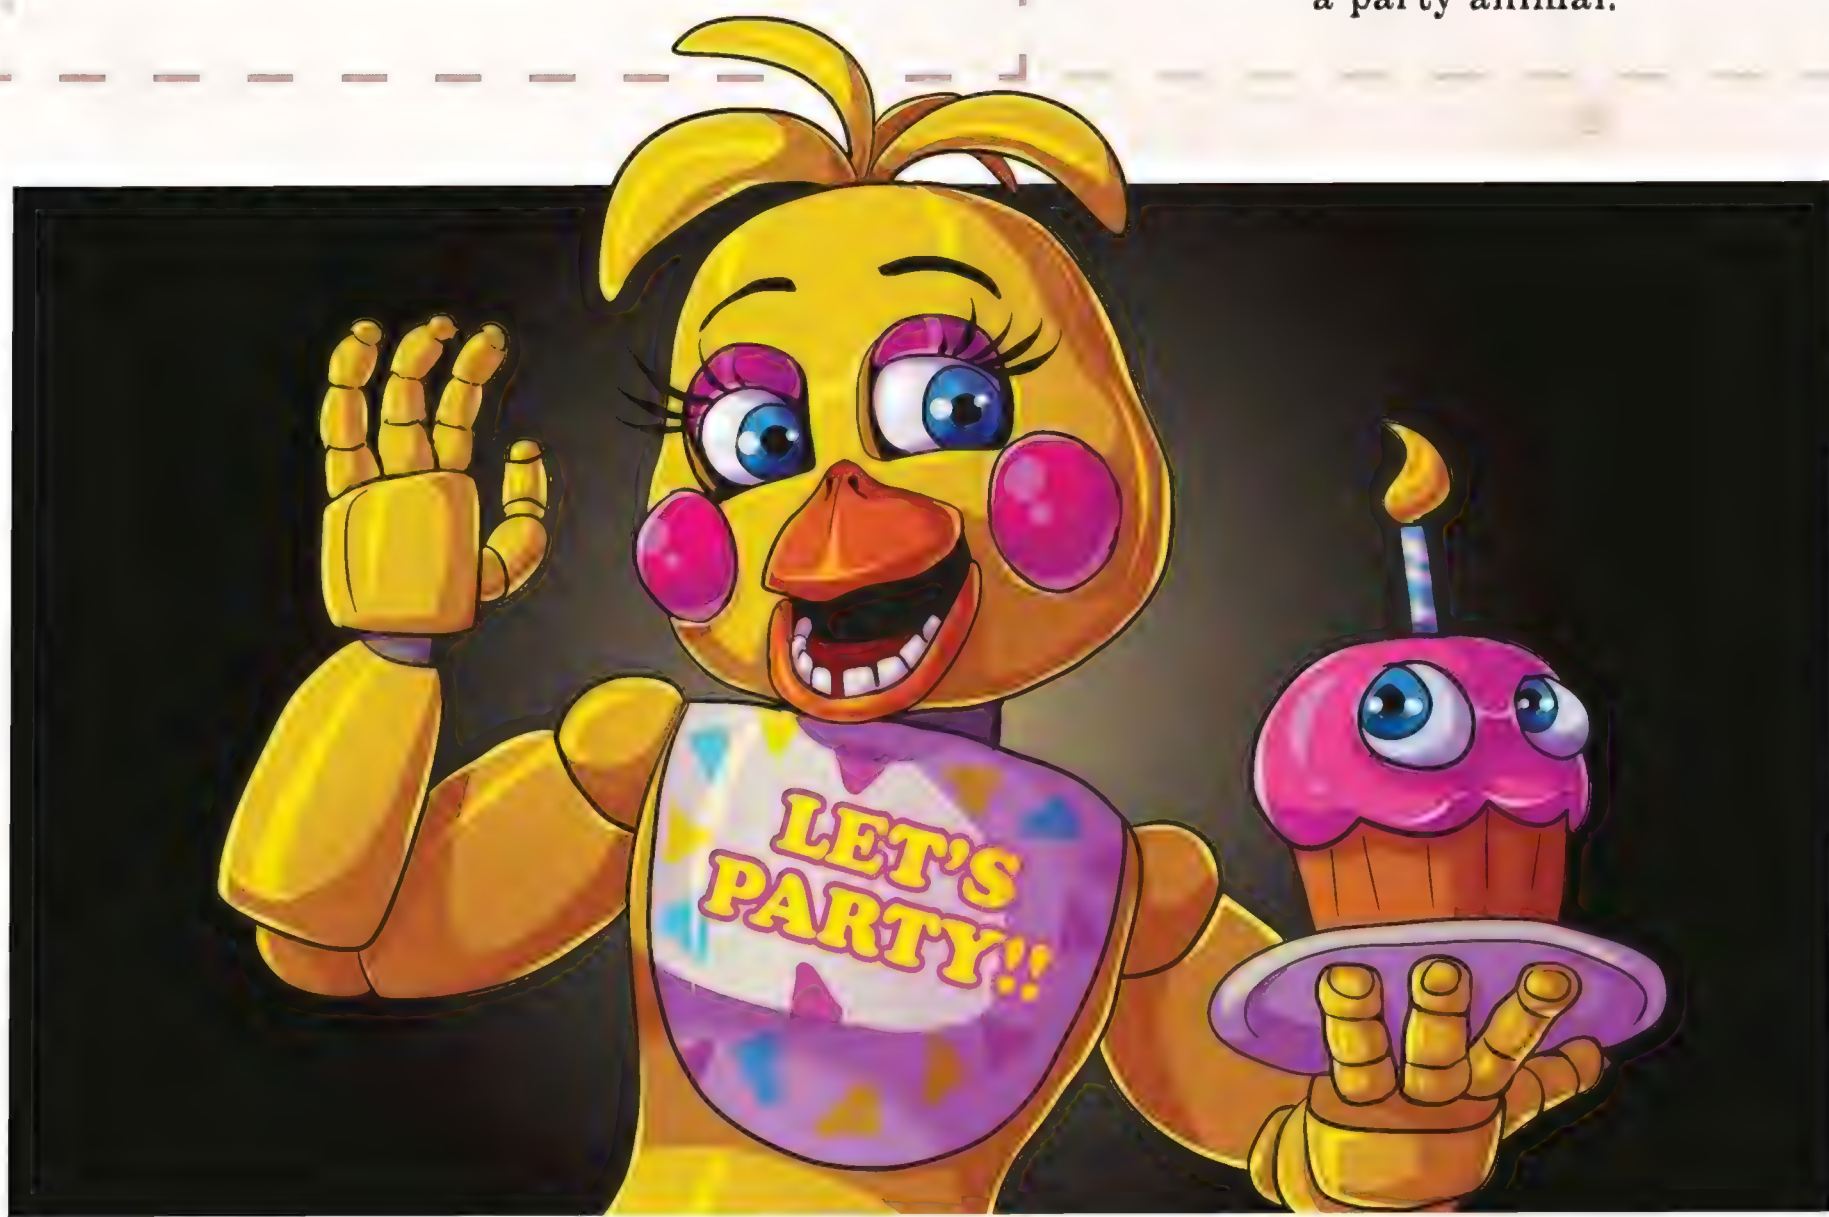

Toy Chica still has teeth in her beak (is she secretly a dinosaur or something?), but that's not the really creepy part. When she steps off the Show Stage, her beak disappears, and so do her eyes . . . leaving two shiny black orbs. And her teeth are still there, too. Ugh.

HITTING YOUR BEAK

Toy Chica is cruel and bloodthirsty, and can also be weird. In *Ultimate Custom Night*, she says, "Where's my beak? Lodged in your forehead, of course." In *Five Nights at Freddy's 2*, she is very active on the first two nights, when she'll head for the left air vent. She's less present on the third and fourth nights because she's blocked by Withered Foxy—but she comes back on night five.

She is, quite literally,
a party animal.

Don't stick your beak where it's not wanted.

WITHERED CHICA

A smile that lights up the room.

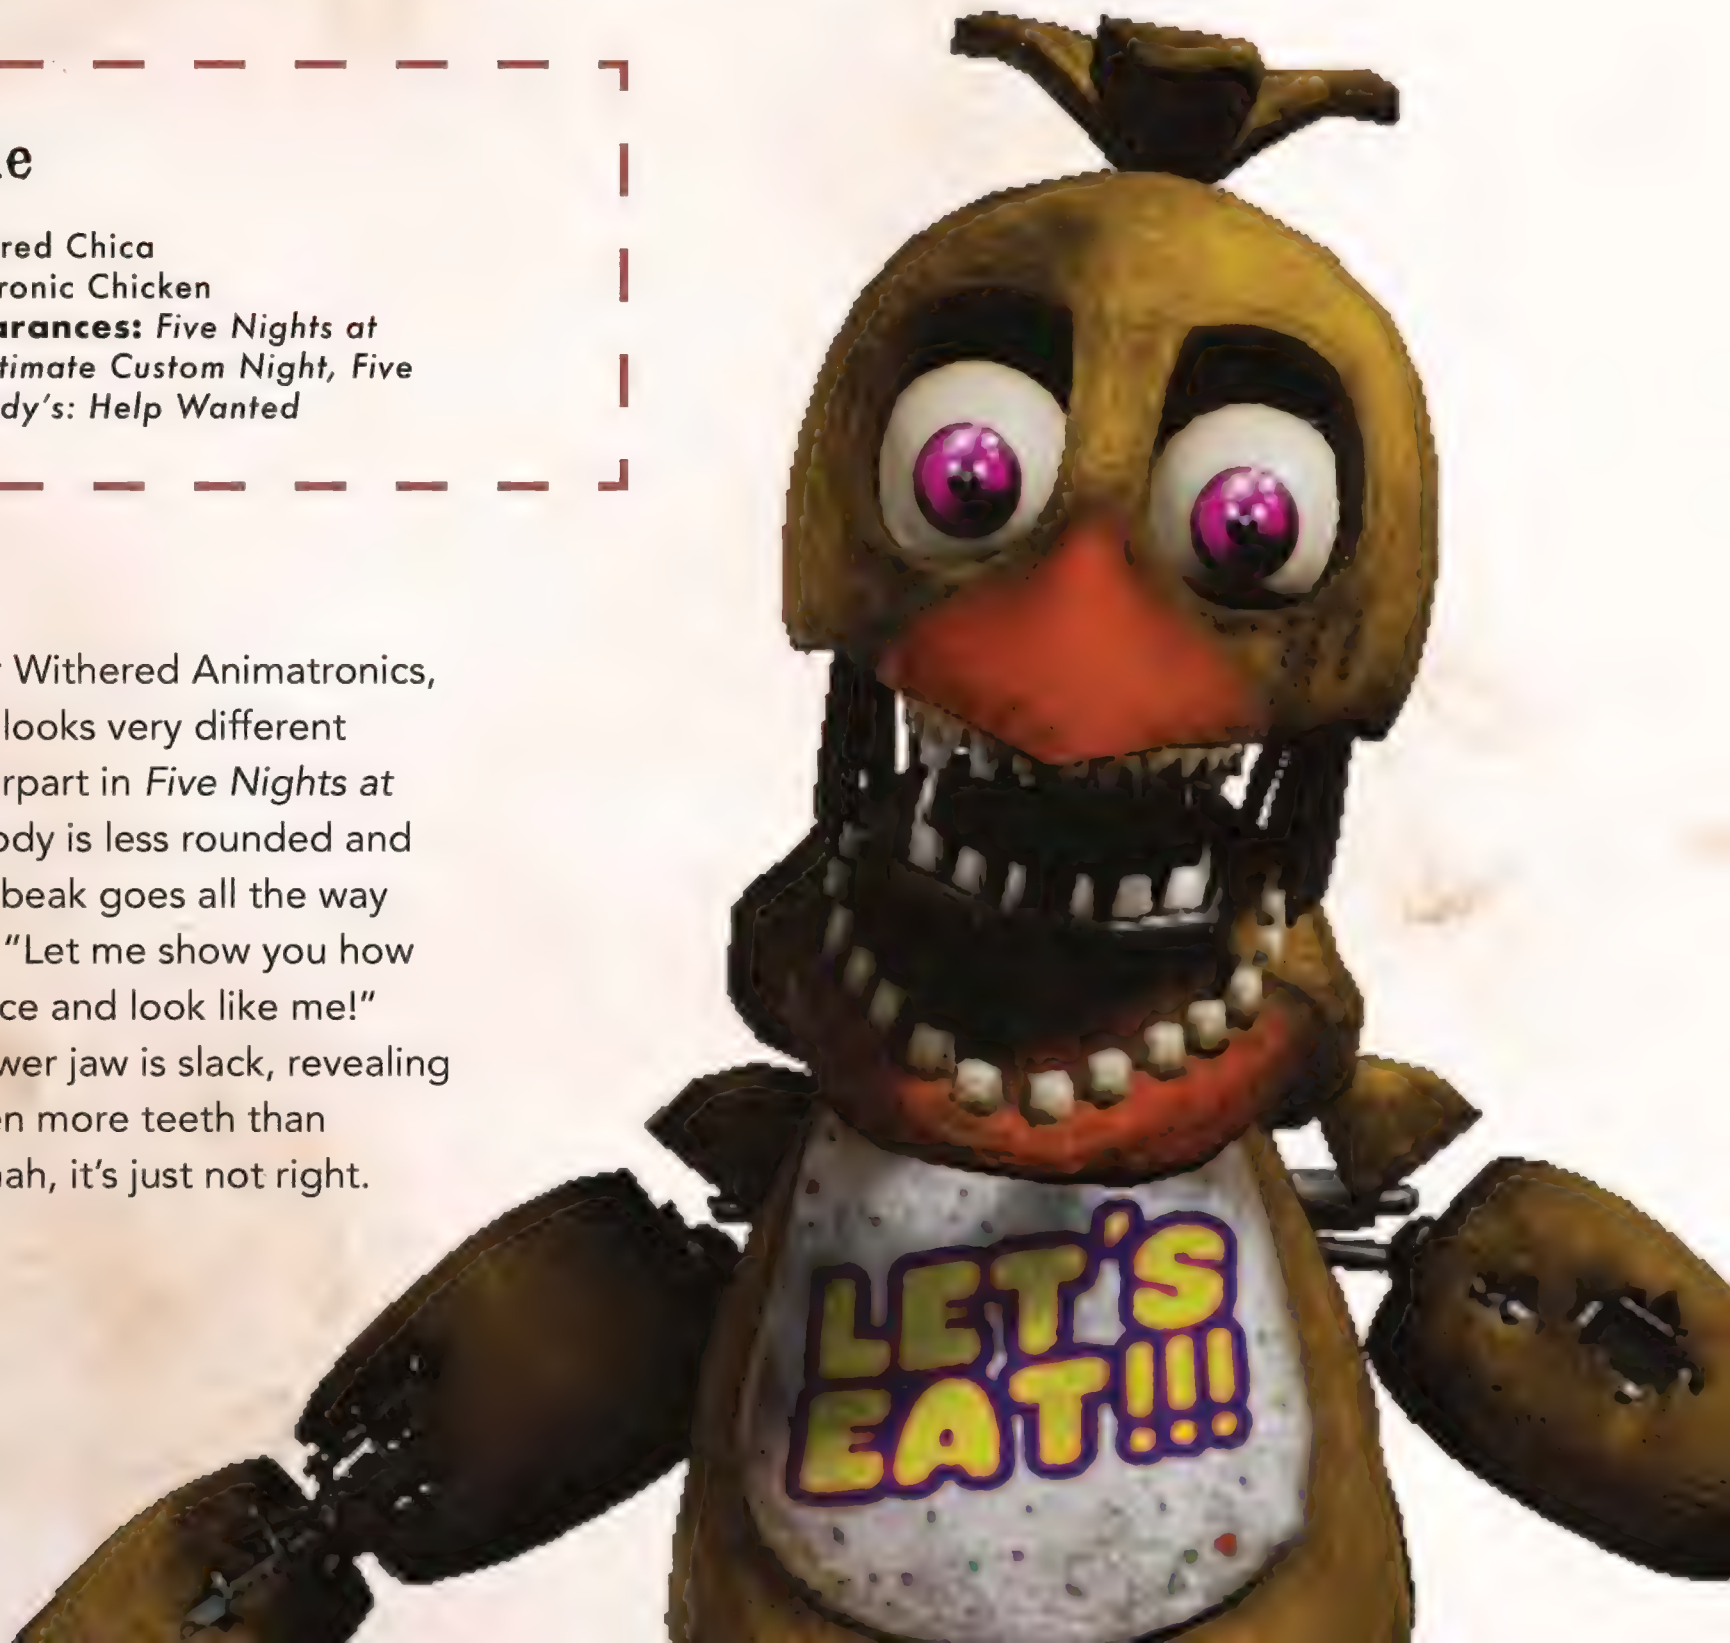

Data File

Name: Withered Chica

Type: Animatronic Chicken

Game appearances: *Five Nights at Freddy's 2*, *Ultimate Custom Night*, *Five Nights at Freddy's: Help Wanted*

Unlike the other Withered Animatronics, Withered Chica looks very different from her counterpart in *Five Nights at Freddy's*. Her body is less rounded and cuddly, and her beak goes all the way across her face. "Let me show you how to break your face and look like me!" she says. Her lower jaw is slack, revealing that she has even more teeth than regular Chica. Gah, it's just not right.

Withered Chica also has no hands (much like real chickens, we suppose) and doesn't hold Mr. Cupcake (real chickens also cannot hold Mr. Cupcake), and her arms seem to be stuck in a T shape. Maybe she's trying to fly. In *Ultimate Custom Night*, she is heard saying, "I was the first. I have seen everything . . ."

ORIGIN STORY

Withered Chica first becomes active on the third night in *Five Nights at Freddy's 2*, and when she does, she follows a set pattern: from Party Room 2 to Party Room 4, then into the Right Air Vent and the office. The Freddy Fazbear head must be worn to avoid her jump scare—she'll go back to Party Room 4 and start again.

Open wide! Actually no, close it again. Please.

This is one chicken that shouldn't be free range.

PHANTOM CHICA

That's a sick burn.

Data File

Name: Phantom Chica

Type: Animatronic Chicken

Game appearances: *Five Nights at Freddy's 3*, *Ultimate Custom Night*

Unlike the other Phantom Animatronics, Phantom Chica is based on the original from the first game. She's an apparition of a burned version of Chica—we could make a “flame-grilled chicken” joke here, but it would be tasteless, so we won't. Like the other Phantom Animatronics, however, she doesn't have a movement pattern.

Phantom Chica's appearance in *Five Nights at Freddy's 3* comes via the arcade machine on Cam 07. Her face randomly comes up on-screen, and is more likely to appear as the week goes on—if you see her, the next time you lower the monitor Phantom Chica will appear in the office and jump scare you. She'll also jump scare you if you look at her on the monitor for too long.

SHARP EYES

Fortunately, Phantom Chica doesn't result in a game over if she jump scares you. However, it does cause a ventilation error—so it's good to be prepared for her appearance. That way your game is less likely to be disrupted. (She appears in a similar way in *Ultimate Custom Night* but doesn't jump scare and it doesn't affect the game.) She can easily be avoided by not looking at Cam 07.

If you try to hide,
she'll smoke you out.

Sorry to hear you got fired—or is that fried?

NIGHTMARE CHICA

Don't eat before bedtime.

Data File

Name: Nightmare Chica

Type: Animatronic Chicken

Game appearances: *Five Nights at Freddy's 4*,
Ultimate Custom Night, *Five Nights at Freddy's:*
Help Wanted, *Five Nights at Freddy's AR:*
Special Delivery

The Nightmare variant of Chica from *Five Nights at Freddy's 4* is based on the original. But like all the Nightmare Animatronics, she's severely damaged and has enormously sharp teeth. Looking at Nightmare Chica as her head opens up, it's all teeth in there.

One of Nightmare Chica's eyes seems to be broken—it doesn't have an iris or a pupil, and it looks misted over. She now has her own Nightmare Cupcake on a tray. Her LET'S EAT!!! bib is tattered, and we have a nasty feeling we know what she's planning on eating!

CHICKEN OUT

Nightmare Chica appears in the right hall in *Five Nights at Freddy's 4*, and you'll be able to hear her breathing. You need to close the door and use the flashlight to avoid a game-ending jump scare. However, you also need to watch out for Nightmare Cupcake . . .

I think this leftover chicken went bad.

We don't want the cake. You can have the cake.

JACK-O-CHICA

Chicken and pumpkin, together at last.

Data File

Name: Jack-O-Chica

Type: Animatronic Chicken

Game appearances: *Five Nights at Freddy's 4*, *Ultimate Custom Night*, *Five Nights at Freddy's: Help Wanted*, *Five Nights at Freddy's AR: Special Delivery*

This Halloween variant of Nightmare Chica has an orange color scheme and an internal glow. Nightmare Cupcake has been replaced by a jack-o'-lantern—he's not officially called Mr. Pumpkin, but we like to call him that.

CHICA SPEAKS

A big difference between Jack-O-Chica and Nightmare Chica is that the Halloween version has a voice! You can hear plenty of it in *Ultimate Custom Night*, and she likes referring to Halloween stuff ("Guess you got squashed—into pumpkin pie") and making fire-themed puns ("I'm all fired up!").

ROCKSTAR CHICA

She'll shake you up.

Data File

Name: Rockstar Chica

Type: Animatronic Chicken

Game appearances: *Freddy Fazbear's Pizzeria Simulator*, *Ultimate Custom Night*

Other versions of Chica are the backing singer in Freddy Fazbear's band, but Rockstar Chica has been given an instrument—she plays the maracas. This means that she has no free hand for Mr. Cupcake. She's the most aggressive of the Rockstar Animatronics and will get in your face much more than the others.

SEE YOU IN THE FALL

The key to neutralizing Chica is her fear of falling. If you place a "wet floor" sign in front of the door she's at, she won't enter in case she slips.

FUNTIME CHICA

Does she have your attention?

Data File

Name: Funtime Chica

Type: Animatronic Chicken

Game appearances: *Freddy Fazbear's Pizzeria Simulator*,
Ultimate Custom Night

Surprisingly, Funtime Chica isn't one of the Funtime Animatronics from *Sister Location*. She actually appears in *Freddy Fazbear's Pizzeria Simulator*, where she's a buyable item. If you purchase her, along with Music Man and El Chip, you can unlock the Posh Pizzeria achievement.

STRIKE A POSE

Funtime Chica won't jump scare you, but she is very attention-seeking and will try to distract you by posing and saying things like "Today is all about me, me, me!" while camera flashes go off. Try to ignore her.

NEON CHICA

Black light, white meat.

Data File

Name: Neon Chica

Type: Animatronic Chicken

Game appearances: *Five Nights at Freddy's: Help Wanted*

Another variant from *Help Wanted's* Blacklight mode, Neon Chica is very similar to Neon Bonnie in her design and function. Like Neon Bonnie, she appears in the Parts and Service mode, replacing Chica in that level.

LIGHT SNACK

Neon Chica also has a neon version of Mr. Cupcake, who's actually brighter and more visible than Neon Chica, on account of his candle. In fact, he has a Mexican Day of the Dead look to him! But check out Catrina Toy Chica . . .

GLAMROCK CHICA

For those about to rock!

Data File

Name: Glamrock Chica

Type: Animatronic Chicken

Game appearances: *Five Nights at Freddy's: Security Breach*

Glamrock Chica is the only Glamrock Animatronic (other than Freddy) to be based on one of the originals from Freddy Fazbear's Pizza. She plays a star-shaped guitar and has a more glamorous and feminine design than previous versions of Chica.

Chica's area of the Pizzaplex is Mazercise. It's an ironic location where customers are encouraged to "Work off the calories while you eat . . . Super-cool perks include discounts on pizza, nachos, fries, and cookies." So it's the healthy way to eat junk food? Okay.

As with the original Chica, the Glamrock version has a preoccupation with food. Despite being an animatronic, food can be used to distract her, and she can be found “eating” out of garbage cans.

TAKING CARE OF THE BILL

When Chica is hacked and corrupted by Vanny, she uses manipulative tactics against Gregory, trying to get him out of hiding by promising to take him to his parents. After she is defeated, her voice box can be removed and installed into Freddy, giving him sonic abilities. However, Chica comes back to fight again after pulling Gregory down into the sewers—with her beak missing.

Forming a “Y” for “Yes,
I’m going to kill you.”

Glamrock Chica—a star on the guitar.

HIGHSCORE TOY CHICA

No, you don't get an extra life.

Data File

Name: Highscore Toy Chica

Type: Animatronic Chicken

Game appearances: *Five Nights at Freddy's AR: Special Delivery*

The Arcade Animatronic version of Chica was introduced for the Arcade Mayhem event in May 2020. She has the same outline as Toy Chica but in blue, while the rest of her is black, and the message on her bib is replaced with HIGH SCORE! She also has a pixelated cupcake which is, for once, genuinely cute rather than scary-cute.

RAGE QUIT

Highscore Toy Chica changes to Game-Over Toy Chica for her attack mode, which seems pretty appropriate—the text on her bib changes and she turns purplish. And then ends your game . . .

LIBERTY CHICA

Give me your huddled masses so I may jump scare them.

Data File

Name: Liberty Chica

Type: Animatronic Chicken

Game appearances: *Five Nights at Freddy's AR: Special Delivery*

Released for Independence Day in July 2020, Liberty Chica is plainly based on the Statue of Liberty and mimics the color of the statue itself. She doesn't have a bib with the Declaration of Independence on it, though.

LIGHT OF THE CUPCAKE

Our favorite thing about Liberty Chica is that instead of the familiar torch held by the real Lady Liberty, she holds . . . Mr. Cupcake. Who glows like a torch.

SCORCHING CHICA

Chica, but on fire.

Data File

Name: Scorching Chica

Type: Animatronic Chicken

Game appearances: *Five Nights at Freddy's AR: Special Delivery*

The Heatwave Animatronics were released in July 2020 for the Sizzling Summer event. Chica was the only one of the core characters from the original game to get a new skin as part of this set.

OVERBAKED

Scorching Chica appears to be made of volcanic rock, and through the cracks in her surface you can see what looks a lot like lava underneath. And she has her own Mr. Cupcake, of course. But he looks a little burnt. And his eyes are missing.

CATRINA TOY CHICA

Happy Deadday!

Data File

Name: Catrina Toy Chica

Type: Animatronic Chicken

Game appearances: *Five Nights at Freddy's AR: Special Delivery*

This skin, released for Halloween in 2020, has a Mexican Day of the Dead theme. La Catrina is a traditional figure from Day of the Dead celebrations and takes the form of a female skeleton wearing an elaborate feathered hat.

SPIRIT GUIDE

The message on Chica's bib, ESTAMOS AQUI, is Spanish for "We are here." It's a message from the spirits to say they walk among the living. Mr. Cupcake is a sugar skull in this version.

TWISTED CHICA

Too twisted to even exist?

Data File

Name: Twisted Chica

Type: Animatronic Chicken

Appearances: None

Although there's official artwork of Twisted Chica, she doesn't actually appear in the novel *The Twisted Ones* alongside Twisted Freddy and Twisted Bonnie. At one point, Charlotte Emily speculates that "a chicken clutching a cupcake to its grotesque chest" might be hidden in the same place as the others.

In fact, from the artwork you can see Twisted Chica isn't clutching a cupcake at all—instead, Mr. Cupcake appears to be growing out of the side of her head! There's another one on her side, too. Like the other Twisted Animatronics, she has a more organic look than normal animatronics with a second mouth in her

midriff. Her bib still has the LET'S EAT!!! slogan, obviously.

TWISTED TOYS

Despite not appearing in any *Five Nights at Freddy's* game or book, Twisted Chica has been made into several toys.

Is this what they call fusion cuisine?

FOXY

Avast, ye swabs! And other such pirate talk.

Data File

Name: Foxy

Type: Animatronic Fox

Game appearances: *Five Nights at Freddy's*, *Five Nights at Freddy's 2*, *Five Nights at Freddy's 3*, *Five Nights at Freddy's 4*, *Freddy Fazbear's Pizzeria Simulator*, *Ultimate Custom Night*, *Five Nights at Freddy's: Help Wanted*, *Five Nights at Freddy's AR: Special Delivery*, *Five Nights at Freddy's: Security Breach*

Novel appearances: *The Silver Eyes*, *The Twisted Ones*, *The Fourth Closet*

Short story collection

appearances: "Lonely Freddy," "Step Closer," "The New Kid," "What We Found," "Sea Bonnies," "Stitchwraith Stingers"

Although Foxy has appeared in all the games so far, he's a little different from the other core animatronics because he has his own stage—the Pirate Cove—and he looks and talks like a pirate. He's also out of order, with visible damage to his body, and his jaw (with its rows of sharp teeth) hangs loose. He doesn't join in on the Freddy Fazbear's Pizza theme song, and Freddy sings the lines introducing Foxy.

The *Cap'n Foxy's Pirate Adventure* mini game from *Help Wanted's Curse of Dreadbear* DLC features a version of Foxy who seems to be in better repair. He has an impressive coat and hat and just generally looks more like a pirate than Foxy usually does.

DON'T LOOK AWAY

Foxy seems to be shyer than the other animatronics, and his movement in the first game depends on how often you check on Pirate Cove. The more often you check the camera, the less quickly Foxy will move out. This shyness doesn't stop him attacking you when he reaches the office, unfortunately.

He's got his eye on you.
The other one is resting.

If he wrote a song, it'd have a really strong hook.

WITHERED FOXY

He's back, and he's slightly more broken.

Data File

Name: Withered Foxy

Type: Animatronic Fox

Game appearances:

Five Nights at Freddy's 2,

Five Nights at Freddy's 3,

Five Nights at Freddy's:

Help Wanted

Foxy is on the sidelines for *Five Nights at Freddy's 2*. As the voice on the phone explains, they tried to remake him as they did with the other animatronics, which ended up being Mangle. Poor Withered Foxy was left to rust.

Since the original Foxy was in pretty bad shape anyway, his Withered form isn't actually that different. Where other animatronics have major pieces of themselves missing, Foxy just has a few more tears to his skin.

However, he does act quite differently—he is more aggressive than the original and keeps coming back to attack.

A LITTLE LIGHT RELIEF

Withered Foxy can be sent back to the Parts and Service Room in *Five Nights at Freddy's 2* by shining the flashlight at him a few times when he's standing in the hallway outside the office. The Freddy Fazbear mask won't work on him like it does with the other Withered Animatronics. The problem comes if Balloon Boy happens to be in the office at the time—if he is, the flashlight won't be effective.

His timbers look thoroughly shivered.

He was withered before it was even a thing.

PHANTOM FOXY

He's off the hook. Or rather, the hook's off him.

Data File

Name: Phantom Foxy

Type: Animatronic Fox

Game appearances: *Five Nights at Freddy's 3*, *Five Nights at Freddy's: Help Wanted*

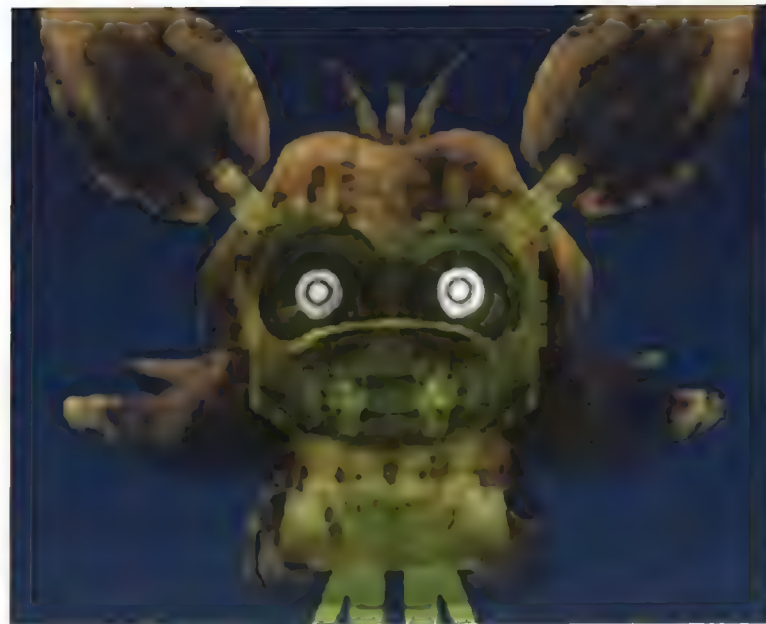

Like the other Phantom Animatronics, Phantom Foxy shows signs of fire damage, with most of his fur missing! He's in a worse state than Withered Foxy, as his hook hand has gone astray . . . and in *FNaF3* his hook hand has gone astray.

Unlike the other Phantoms, Phantom Foxy's appearance in *Five Nights at Freddy's 3* is not foreshadowed by an apparition in some other part of the building. He appears in the office in front of the box of parts—so the hook hand is kind of a tip-off, but it doesn't give any clues about when he'll turn up.

VENT YOUR ANGER

Phantom Foxy's jump scare won't result in a game over, but it will disable the ventilation system—an ability shared by all the Phantom Animatronics. It'll need to be rebooted from the error menu.

Now, there's a fox who's seen things.
Bad things.

Silently judging you for not keeping your office cleaner.

NIGHTMARE FOXY

He'll toy with you before he strikes.

Data File

Name: Nightmare Foxy

Type: Animatronic Fox

Game appearances: *Five Nights at Freddy's 4*, *Ultimate Custom Night*, *Five Nights at Freddy's: Help Wanted*, *Five Nights at Freddy's AR: Special Delivery*

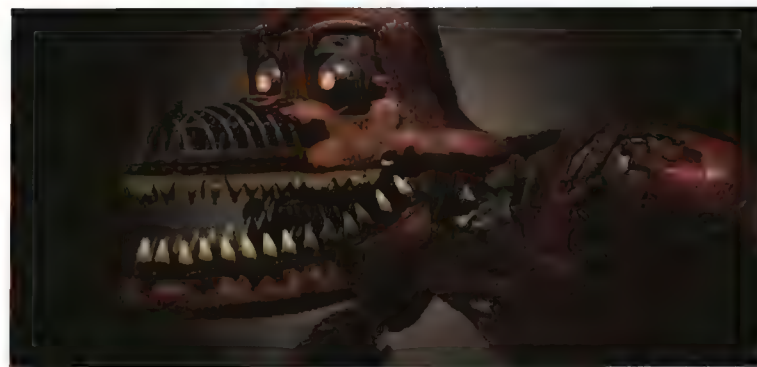

The Nightmare form of Foxy, like the other Nightmare forms, is larger and more tattered than the regular version, with huge sharp teeth and spikes on the end of his fingers. He also doesn't have an eye patch, leaving the hook as the only hint of his pirate origins.

In *Five Nights at Freddy's 4*, Nightmare Foxy approaches the room from the East or West Hall on Night 2. You have to look at him to make him go away, but if he enters your room, he'll go into the closet. And then he has a super-nasty trick . . .

IT'S ENOUGH TO MAKE YOU PLUSH

When in the closet, Nightmare Foxy turns into an innocent-looking plush toy that looks like it couldn't possibly hurt anyone. He'll then revert to his normal form, first standing up, then crouching, then peering out. You need to shut the closet door until he turns back into a plushie.

You should go back to wearing that eye patch. Maybe wear two?

Close enough to see the wires in his eyes.

FUNTIME FOXY

It's showtime!

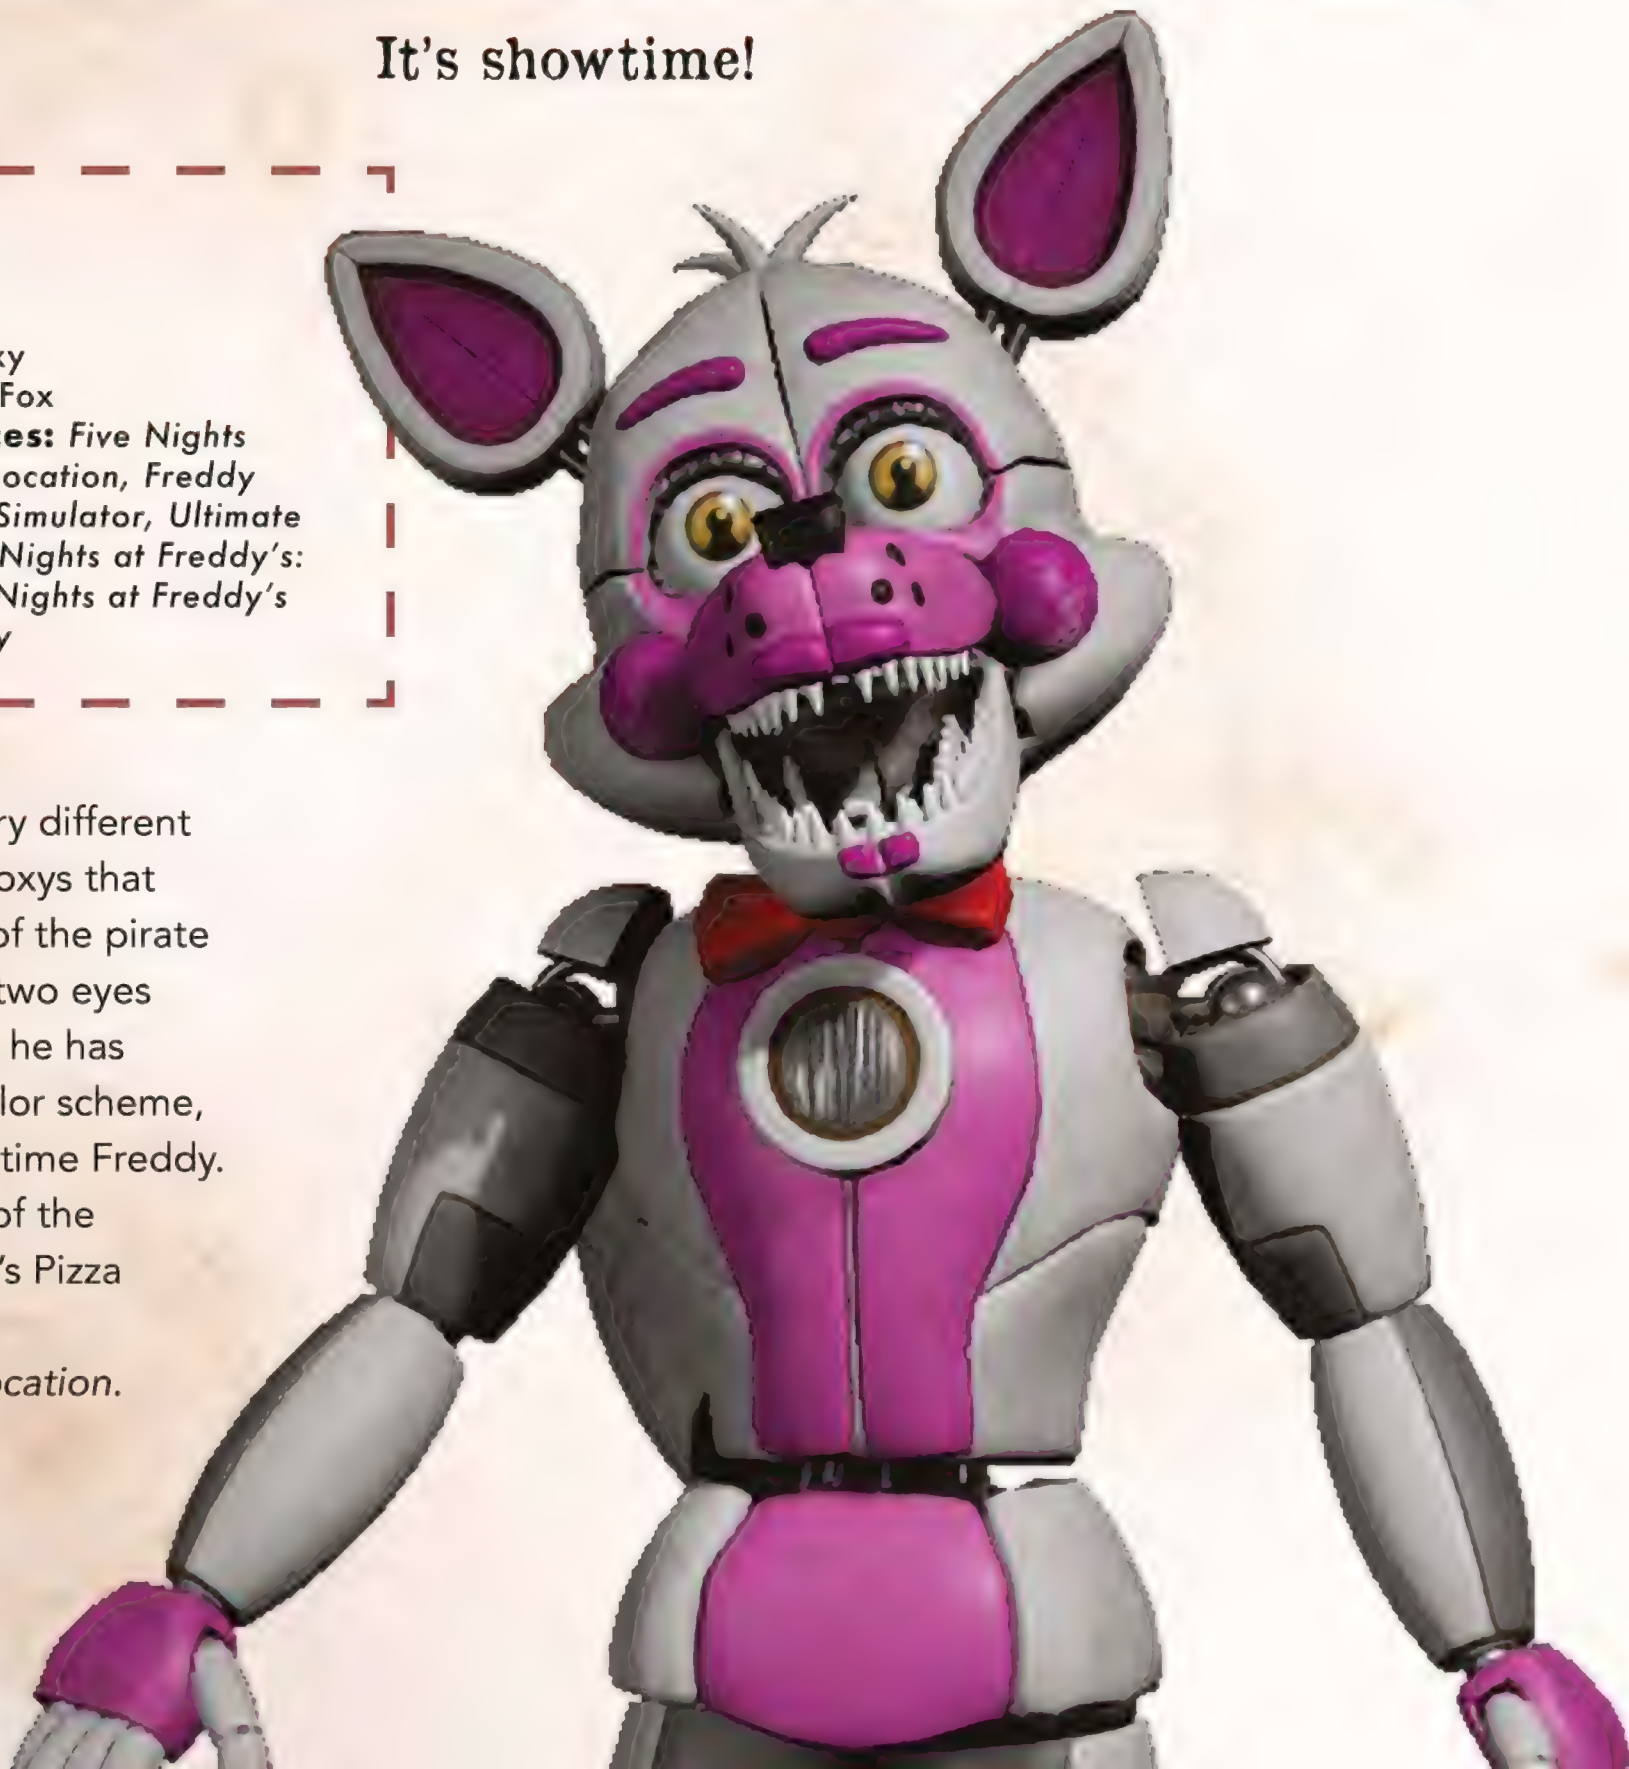

Data File

Name: Funtime Foxy

Type: Animatronic Fox

Game appearances: *Five Nights at Freddy's: Sister Location*, *Freddy Fazbear's Pizzeria Simulator*, *Ultimate Custom Night*, *Five Nights at Freddy's: Help Wanted*, *Five Nights at Freddy's AR: Special Delivery*

Funtime Foxy is a very different character from the Foxys that came before. None of the pirate stylings here—look, two eyes and two hands! Plus, he has a completely new color scheme, similar to that of Funtime Freddy. He's the ringmaster of the circus at Circus Baby's Pizza World in *Five Nights at Freddy's: Sister Location*.

To make the Funtime Animatronics extra fun, they have special skills to trap their victims. Funtime Foxy is equipped with a sensor that allows him to light up dark areas. He also has the ability to create different scents, play back parents' voices to lure unwary children—not to mention an anchor that stops victims from moving.

SPLIT PERSONALITY

Funtime Foxy seems to be different onstage and off. When performing as the ringmaster, he's an extrovert, making himself the center of attention. Offstage, he's more like the introverted Foxy we know from the earlier games, who prefers to be alone.

Actually, maybe fun is overrated.

You can't hide in the dark from this one—he'll light it up.

LOLBIT

PLEASE STAND BY . . .

Data File

Name: Lolbit

Type: Animatronic Fox

Game appearances: *Five Nights at Freddy's: Sister Location*, *Ultimate Custom Night*, *Five Nights at Freddy's: Help Wanted*, *Five Nights at Freddy's: Security Breach*

Lolbit is a recolored version of Funtime Foxy, who initially appeared as a disembodied head but later became a full character. The main difference is that the orange coloring of the original Foxy has been restored to some extent, making him look more obviously fox-like.

SCREEN SAVER

Lolbit first appears in *Sister Location* as an Easter egg, in the form of a mask that randomly spawns in place of the Ennard mask inside the Primary Control Module. He also turns up in that game's Custom Night, appearing on computer screens. You can get rid of him by typing "LOL." He makes a full appearance in *Help Wanted*, replacing Funtime Foxy in Dark Rooms.

ROCKSTAR FOXY

Yo ho ho!

Data File

Name: Rockstar Foxy

Type: Animatronic Fox

Game appearances: *Freddy Fazbear's Pizzeria Simulator*, *Ultimate Custom Night*

The Rockstar Animatronics version of Foxy drafts him into the band at last. Here, he plays the accordion and has a peg leg and a parrot on his shoulder to go with his eye patch and hook hand. That's what we like to see, full-on pirate gear. Even the parrot has an eye patch. And for once, Foxy isn't broken, either.

SOMETIMES NICE, SOMETIMES NOT

The parrot will occasionally fly across the office, and if you manage to click on it, you can summon Rockstar Foxy. Whether you want to take the risk of doing that is up to you—he will often give you handy extras, but sometimes he'll be in a bad mood and just jump scare you instead.

BURNT FOXY

Should've jumped in the water.

Data File

Name: Burnt Foxy

Type: Animatronic Fox

Game appearances: *Five Nights at Freddy's: Help Wanted*

This version of Foxy only appears in the blacklight mode of *Help Wanted*, and only on Foxy's level of the Parts and Service mode. But unlike the other Blacklight Animatronics, he doesn't appear in Pizza Party because there's no Foxy in that level.

CATCHING FIRE

Burnt Foxy is based on the original Foxy, just with charring to his suit and no pupils in his glowing orange eyes. The charring seems to reveal even more of his inner workings. Yikes!

DARK FOXY

He has a black heart, and everything else for that matter.

Data File

Name: Dark Foxy

Type: Animatronic Fox

Game appearances: *Five Nights at Freddy's: Help Wanted*

Another blacklight-mode variant of Foxy from *Help Wanted*, who appears in the mini game based on the original *Five Nights at Freddy's*. He's like a black-and-white-movie version of Foxy, with a glowing white eye in the style of Blacklight Freddy.

GAME COVE-R

As in the original game, Dark Foxy starts off in Pirate Cove and will leave when not being watched. Once he has left the cove, you must shut the left door before he reaches the office.

BLACKLIGHT FOXY

Bringing a little color into your life.

Data File

Name: Blacklight Foxy
Type: Animatronic Fox
Appearances: None

A set of Blacklight Animatronics were developed for *Five Nights at Freddy's: Help Wanted*. These included variants of Freddy, Bonnie, Chica, and Foxy, but they didn't appear in the finished game. However, they have appeared in merchandise, such as figurines, Mystery Minis, and Funko Pop! Collectibles.

FACTS AND FIGURINES

There are three Blacklight Foxy variants—most are green, but the Mystery Mini version is purple. There are also two different Blacklight figurine sets—one with a green Blacklight Foxy and one with a pink one. Interestingly, Foxy is the only figurine to appear in both sets, and seems like a replacement for Bonnie, who doesn't appear at all.

GRIMM FOXY

Ready to bring you a fairy-tale ending.

Data File

Name: Grimm Foxy

Type: Animatronic Fox

Game appearances: *Five Nights at Freddy's: Help Wanted*, *Five Nights at Freddy's: Security Breach*

Grimm Foxy appears in the *Curse of Dreadbear* DLC for *Help Wanted* and is a version of Nightmare Foxy. However, his design also has something in common with the jack-o'-lantern variants of other characters, as he has an internal orange glow that makes it look like he's on fire.

A FEELING OF DREAD

There are two modes in *Curse of Dreadbear* that feature Grimm Foxy. He's in *Danger! Keep Out!*, where he acts much like Foxy in the original game. He likewise features in the Corn Maze in *Afraid of the Dark*, where he walks through the maze, speeding up as you collect more keys. He chases you if he sees you, so you must hide between the cutouts to avoid him.

RADIOACTIVE FOXY

Welcome to the nuclear family.

Data File

Name: Radioactive Foxy

Type: Animatronic Fox

Game appearances: *Five Nights at Freddy's: Special Delivery*

If you come into contact with nuclear waste, we all know what happens, don't we? You glow bright green, and your bones become visible.

Radioactive Foxy was introduced to *Special Delivery* for the Wasteland event in June 2020. It's one of only two skins in this set—the other being Toxic Springtrap.

HOOKING YOU IN

Aside from being green and having transparent skin, Radioactive Foxy looks more or less like the original. However, he has no eye patch, just an empty socket! He also seems to have acquired a mutation, as his right hand has two hooks on it instead of one!

RINGMASTER FOXY

Roll up, roll up. It's easier to stuff you into a suit that way.

Data File

Name: Ringmaster Foxy

Type: Animatronic Fox

Game appearances: *Five Nights at Freddy's: Special Delivery*

This skin comes from the Dark Circus event and was released in September 2020. At first, it seems like Ringmaster Foxy might have something in common with Funtime Foxy, who's also a ringmaster—but they're very different characters! Ringmaster Foxy's costume is awesome, too.

WHIP SMART

This is a non-pirate-themed Foxy! He has a whip hand instead of a hook hand, and a missing eye instead of an eye patch. His hat has little skull decorations and is especially smart. There's also a DLC expansion pack, *Dark Circus: Encore!*, which creates a new game mode for the Dark Circus.

BIG BAD FOXY

Who's afraid of the Big Bad Foxy?

Data File

Name: Big Bad Foxy

Type: Animatronic Fox

Game appearances: *Five Nights at Freddy's: Special Delivery*

Introduced for the Scary Tales event in

April 2021, Big Bad Foxy is a counterpart to Little Red Chica (based on the tale of Little Red Riding Hood). Of course, in the original story it was a wolf, and so Foxy has been wolfed up with gray fur—though he also has bald patches where you can see the red metal underneath.

GRANDMA, WHAT SHARP TEETH YOU HAVE

The really unusual thing about Big Bad Foxy is that he comes in two forms. Just like in the fairy tale, he disguises himself as "Grandma," with a nightgown, cap, and glasses. Big Bad Foxy takes on this form during encounters, but don't be fooled—that's definitely not Grandma.

YARG FOXY

Eyes on the prize.

Data File

Name: Yarg Foxy

Type: Animatronic Fox

Short story collection appearances:
"Lonely Freddy"

Yarg Foxy makes an appearance in "Lonely Freddy," the second story in Fazbear Frights #2. He's a plush toy and the rarest item on the prize counter at Freddy Fazbear's Pizza. He can only be won by finding a Yarg Foxy ticket in the wind tunnel.

WINNER TAKES ALL

The main character in "Lonely Freddy," Alec, wants the Yarg Foxy plush and tries to stop his sister from winning it. He fails and even manages to damage it when his sister offers it to him as a gift. He storms off to be alone, and finds Lonely Freddy, where he'll get his comeuppance . . .

TWISTED FOXY

Crazy like a fox.

Data File

Name: Twisted Foxy

Type: Animatronic Fox

Novel appearances:

The Twisted Ones

The Twisted Animatronics version of Foxy (like all the others) was created specifically to track down and kill Charlotte Emily. He was equipped with an illusion disc to make him appear more organic and, well, twisted. The most weirdly organic part of him is his right arm—the one with the hook! Instead of being screwed on, the hook hand seems to be rooted in some fungus-like substance.

He has some similarities with Nightmare Foxy, in as much as he has sharp claws on his left hand. But he originates in the novel *The Twisted Ones*.

DON'T LOSE YOUR HEAD

Twisted Foxy is found in Charlie's tornado-wrecked former childhood home, half buried in a hidden room. He seems to be deactivated . . . but when Charlie examines him, he activates and tries to kill her. John (Charlie's childhood friend who is exploring the house with her) beheads him.

Don't forget to visit your dentist.

The twist is . . . he doesn't want to kill you. Only kidding, of course he does.

THE PUPPET

Is it stringing you along?

Data File

Name: The Puppet

Type: Marionette

Game appearances: *Five Nights at Freddy's 2*, *Five Nights at Freddy's 3*, *Freddy Fazbear's Pizzeria Simulator*, *Ultimate Custom Night*, *Five Nights at Freddy's: Help Wanted*, *Five Nights at Freddy's: Security Breach*

Short story collection appearances: "You're the Band"

The Puppet is a marionette, which is a puppet operated by strings. In fact, it's sometimes known as "The Marionette." It's a spindly thing with a masklike face and a narrow body (very different from the animatronics that operate around the pizzeria). Instead, it's one of the items in the Prize Corner at the relaunched Freddy Fazbear's Pizza, and it attacks if the music box is not wound up.

The Puppet is very tricky to deal with—if its attack begins, even if you prevent a jump scare at that point, it will head toward the office and can't be seen on the cameras. Winding up the music box won't help you now—you just have to make it through to 6 a.m.

IN TOUCH WITH YOUR INNER CHILD

In the *Happiest Day* mini game in *Five Nights at Freddy's 3*, you actually get to play as The Puppet—which happens again in *Freddy Fazbear's Pizzeria Simulator*. Some clues about what The Puppet really is can be found in these mini games.

Slim, isn't it? You might almost say *slender* . . .

So . . . who's pulling the strings?

PHANTOM PUPPET

Here's your prize! Sorry, it's a little burnt.

Data File

Name: Phantom Puppet

Type: Marionette

Game appearances: *Five Nights at Freddy's 3*

Meet another of the Phantom characters from *Five Nights at Freddy's 3*—the Phantom Puppet! It's similar to the others in as much as it can't harm you with its jump scare, but it can create a distraction. It looks burnt, and the top of its head looks decayed, too.

IN YOUR FACE

The sign that the Phantom Puppet is about to appear can be seen on Cam 08. But it takes the form of an apparition of the normal Puppet. This only happens rarely! But when it does, the Phantom Puppet will appear in the office, right in your face, blocking your view.

SHADOW PUPPET

Cheer up, it might never happen.

Data File

Name: Shadow Puppet

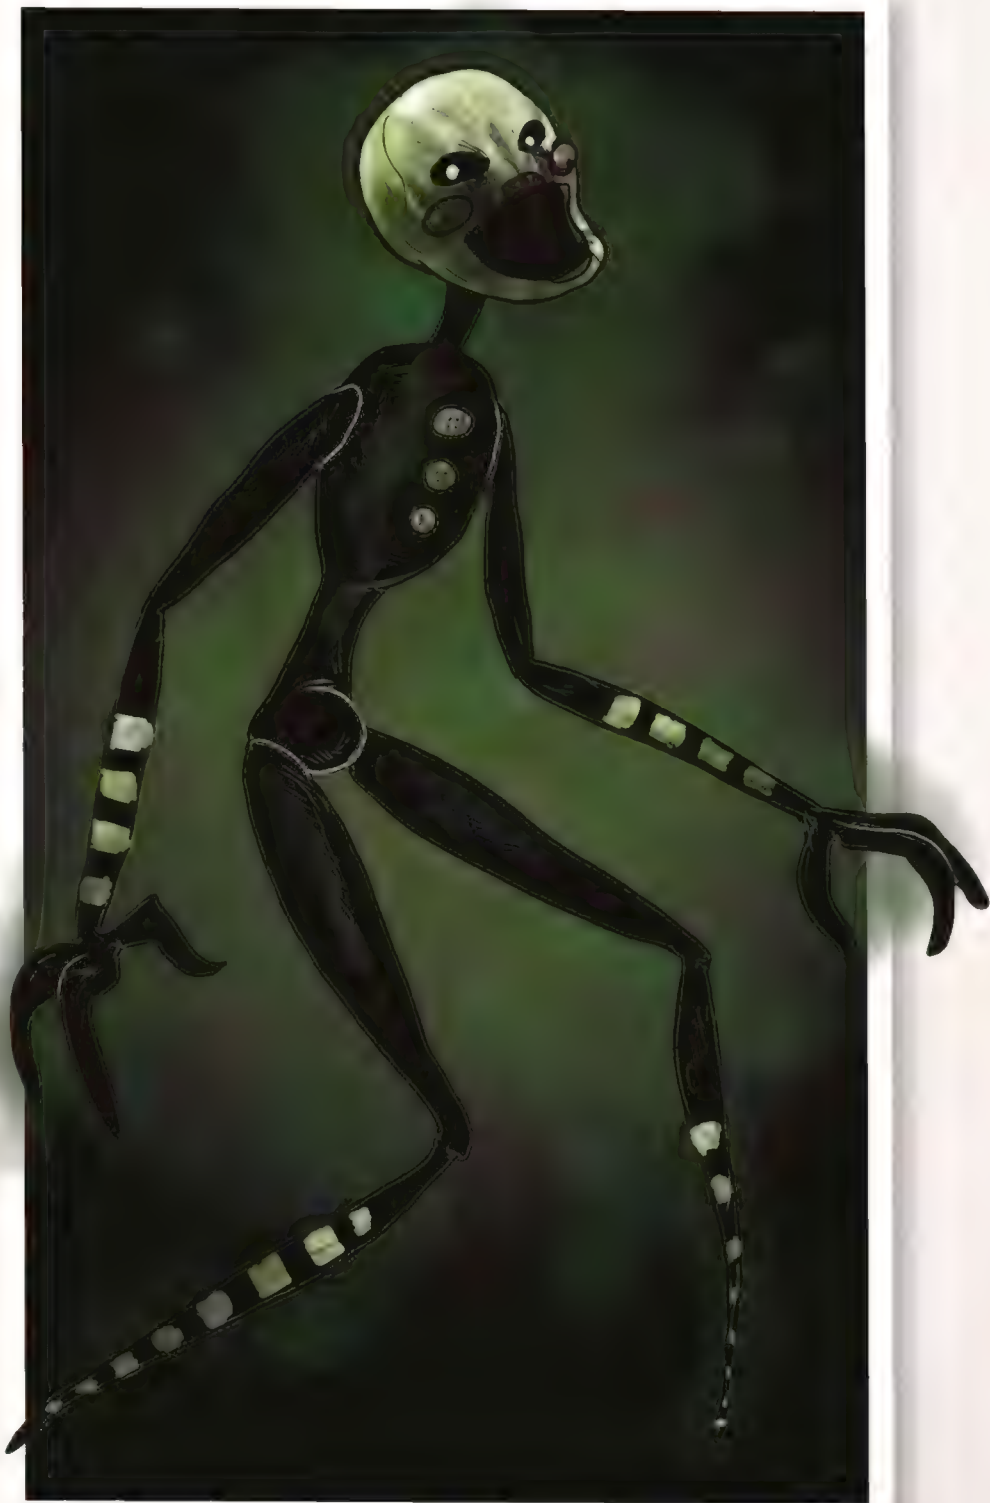

Type: Marionette

Game appearances: *Five Nights at Freddy's 3*

Another Puppet variant to be found in *Five Nights at Freddy's 3*, the Shadow Puppet only appears in the *Mangle's Quest* mini game. This game is in a retro 8-bit style, and the Shadow Puppet matches this style—it weeps gray tears, which cascade down to the floor.

TAKING A FALL

In this game, you take control of Mangle, and the Shadow Puppet only appears if you use the invisible exit in the top right of the inner room. Mangle then falls and encounters the Shadow Puppet. (This only works if you've already obtained the third ending in BB's Air Adventure.)

NIGHTMARIONNE

Have you lost weight? You look . . . terrifying.

Data File

Name: Nightmarionne

Type: Marionette

Game appearances: *Five Nights at Freddy's 4*, *Ultimate Custom Night*, *Five Nights at Freddy's: Help Wanted*, *Five Nights at Freddy's AR: Special Delivery*

Nightmarionne is the *Five Nights at Freddy's 4* version of The Puppet released in the Halloween update. It has a skeletal look, with longer fingers and sharp teeth. But at least it has only one set of teeth—unlike the other Nightmare Animatronics.

NEW NIGHTMARES

Nightmarionne replaces Nightmare in *Five Nights at Freddy's 4*, so it plays the same role—only appearing in the Nightmare phase of the game. It also appears in *Ultimate Custom Night*—if your cursor stays on it too long it will randomly move around your office in an attempt to end your run.

SECURITY PUPPET

Definitely gives a false sense of security.

Data File

Name: Security Puppet

Type: Marionette

Game appearances: *Freddy Fazbear's Pizzeria Simulator*, *Ultimate Custom Night*

This version of The Puppet is styled like a jack-in-the-box. It has a similar design to the original Puppet, but with bells attached to its head and a gift-like box for it to spring from. In *Ultimate Custom Night*, it appears in the Sister Location Office background.

SECURE THE AREA

The Security Puppet is an expensive item in *Freddy Fazbear's Pizzeria Simulator*, but buying it unlocks a mini game in which you have to find a child and keep them away from the exit. You need to play this mini game three times to unlock an ending that ties in with The Puppet's backstory.

BALLOON BOY

Data File

Name: Balloon Boy

Type: Animatronic Humanoid

Game appearances: *Five Nights at Freddy's 2*, *Five Nights at Freddy's 3*, *Freddy Fazbear's Pizzeria Simulator*, *Ultimate Custom Night*, *Five Nights at Freddy's: Help Wanted*, *Five Nights at Freddy's AR: Special Delivery*, *Five Nights at Freddy's: Security Breach*

Everyone loves balloons, don't they? A balloon can cheer up anyone's day. Balloon Boy, on the other hand, can completely ruin your day! He's an animatronic that first appears in *Five Nights at Freddy's 2* and is in the same style as the Toy Animatronics. In the pizzeria, his role is to give out balloons to the customers.

In *Five Nights at Freddy's 2*, Balloon Boy won't actually hurt you. However, on Night 2 he will start moving around. You can't see him on any of the cameras—he moves through the left air vent and comes to the office. Once there, he'll laugh endlessly and disable the lights (which you need to keep Foxy away), making the game more difficult. You can't get rid of him once he's there, so deflect him by putting on the Freddy mask when he's still in the air vent.

UP, UP, AND AWAY

Double-clicking on the Balloon Boy poster in Cam 08 in *Five Nights at Freddy's 3* will unlock the *BB's Air Adventure* mini game. This is where you must collect all the balloons on the map.

Balloons, signs—if it comes on a stick, Balloon Boy will hold it.

Look out for signs of danger. And signs of balloons.

JJ

Didn't see her? She saw you.

Data File

Name: JJ

Type: Animatronic Humanoid

Game appearances: *Five Nights at Freddy's 2*, *Freddy Fazbear's Pizzeria Simulator*, *Ultimate Custom Night*

JJ is a lot like Balloon Boy, but she's a girl—in fact, she's often referred to as Balloon Girl by players. She has a different color scheme from Balloon Boy, with blue and purple replacing the red—but that's if you get to see her at all, because she's a hidden animatronic.

HEAD DESK

JJ's first appearance was as an Easter egg in *Five Nights at Freddy's 2*. In the game, she can sometimes be seen hiding under the right-hand side of the desk in the office. She does not attack or jump scare you . . . just stares at you. She does have a bigger role in *Ultimate Custom Night*, however.

PHANTOM BALLOON BOY

Never burn a balloon.

Data File

Name: Phantom Balloon Boy

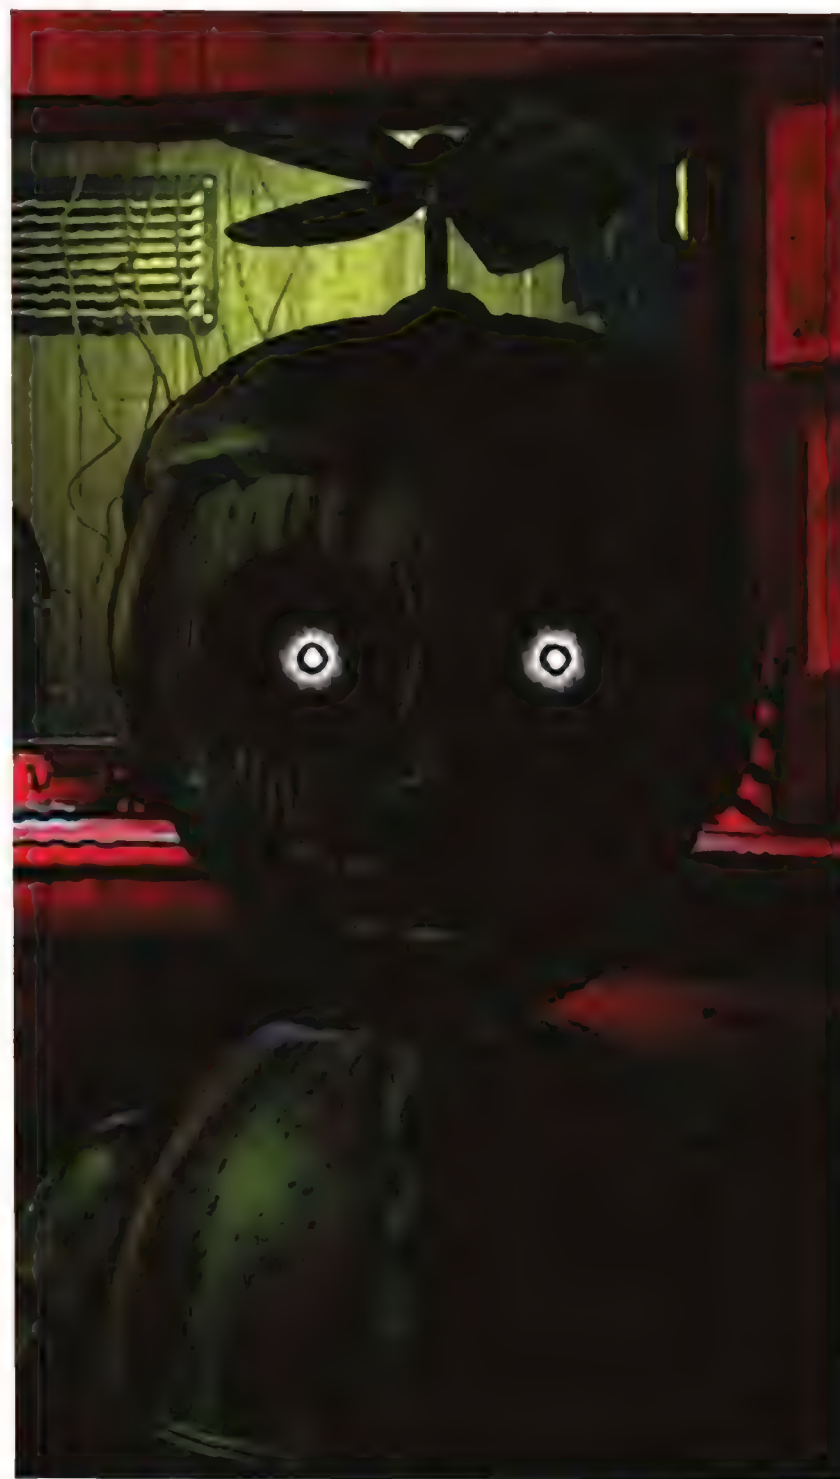

Type: Animatronic Humanoid

Game appearances: *Five Nights at Freddy's 3*, *Ultimate Custom Night*, *Five Nights at Freddy's: Help Wanted*

Another of the burnt hallucinations featured in *Five Nights at Freddy's 3*, Phantom Balloon Boy has lost his balloons—not surprising if they got caught in a fire. Most creepily of all, he's missing his eyes—only the lights behind them remain.

BLACKOUT BOY

Phantom Balloon Boy also appears in *Ultimate Custom Night*. There he randomly pops up on the monitor and you must quickly close it to avoid a jump scare and temporary blackout. Similarly, he's on the *Five Nights at Freddy's 3* levels of *Help Wanted*, where his jump scare causes a ventilation error.

SHADOW BALLOON BOY

Why are you crying, son? Lost your balloon?

Data File

Name: Shadow Balloon Boy

Type: Animatronic Humanoid

Game appearances: *Five Nights at Freddy's 3*, *Five Nights at Freddy's: Help Wanted*

Shadow Balloon Boy appears in the *BB's Air Adventure* mini game in *Five Nights at Freddy's 3*. If you skip the exit door that appears after collecting the first seven balloons and leave the game area in search of the eighth balloon, you'll fall into another room . . .

THE SUNKEN PLACE

This is where the Shadow Balloon Boys live—black silhouettes of BB with a stream of gray tears falling from their eyes. You don't have to avoid them—you can just walk straight past them on your way to the hidden game area where the eighth balloon is.

NIGHTMARE BALLOON BOY

Don't blow him up to be scarier than he really is.

Data File

Name: Nightmare Balloon Boy

Type: Animatronic Humanoid

Game appearances: *Five Nights at Freddy's 4*, *Ultimate Custom Night*, *Five Nights at Freddy's: Help Wanted*

Nightmare Balloon Boy is another of the distorted, sharp-toothed Nightmare Animatronics terrorizing the Crying Child in *Five Nights at Freddy's 4*. He has really disgusting hands, which is emphasized by the fact he doesn't hold any balloons or even a sign saying **BALLOONS!**—so his hands just hang there . . . horribly.

FLOATING AWAY

Nightmare Balloon Boy was introduced in the Halloween update and is featured in the mini game Fun with Balloon Boy. The object of this mini game is to use a flashlight to stop Nightmare Balloon Boy as he walks over an X on the floor. By doing this, you earn a head start on the next level.

DEE DEE

Please don't sing.

Data File

Name: Dee Dee

Type: Animatronic Humanoid

Game appearances: *FNaF World*,
Ultimate Custom Night

Dee Dee is another female variant of Balloon Boy. She has no balloons but does have a really enormous propeller on her hat—you'd believe she could take off with that thing! She first appeared as an NPC in *FNaF World*, an online RPG version of *Five Nights at Freddy's* that has since been taken offline.

SUMMONER'S SONG

Dee Dee also appears in *Ultimate Custom Night* as a secret character. When she enters the office, she sings a song, after which she sometimes randomly increases an animatronic's difficulty. She sometimes summons a customizable character (including six characters not on the main menu). Or sometimes she doesn't do anything except sing. Which is bad enough.

X.O.R. (SHADOW DEE DEE)

Making the impossible even more impossible.

Data File

Name: X.O.R.

Type: Animatronic Humanoid

Game appearances: *Ultimate Custom Night*

Often known as Shadow Dee Dee, this is a dark and ghostly version of Dee Dee. She replaces the usual Dee Dee in 50/20 mode of *Ultimate Custom Night*, where she can't be repelled. After she vanishes, all six of her extra animatronics appear in a fixed order.

MESSING WITH THE MATH

It's called 50/20 mode because all 50 animatronics are set to level 20. But in fact, because X.O.R. always appears and summons six extra animatronics, there are actually 56 animatronics to face. This mode is generally considered nearly impossible, but you can try to beat your best time—and other people's, too!

SWAMP BALLOON BOY

There's mud in your eye.

Data File

Name: Swamp Balloon Boy

Type: Animatronic Humanoid

Game appearances: *Five Nights at Freddy's AR: Special Delivery*

This was the first skin released for Balloon Boy, back in November 2020 as part of the Forest Animatronics set released for the Haunted Forest event. He's made of mud, and his balloons are also made of mud. Like Boulder Toy Bonnie, he has no eyes until a delivery encounter happens.

PROPER PROPELLER

The propeller on his hat looks like it's come off a boat—perhaps one that got stuck in the swamp? And His sign does still read BALLOONS!, so that's nice at the very least.

FROSTBITE BALLOON BOY

Ice ice baby.

Data File

Name: Frostbite Balloon Boy

Type: Animatronic Humanoid

Game appearances: *Five Nights at Freddy's AR: Special Delivery*

Unlike a lot of the *Special Delivery* skins, which keep the shape of a character but change colors, textures, and details, Frostbite Balloon Boy—added in December 2020 for the Winter Wonderland event—goes all out. This is a substantial remodeling of the character, with a very different, less rounded body shape.

SNOWED UNDER

This Balloon Boy's "balloon" is actually a mace. The icicles sticking out of it act as spikes, and his sign reads *AVALANCHE!*, which is not quite as tempting as *BALLOONS!*

JETPACK BALLOON BOY

He will rocket you.

Data File

Name: Jetpack Balloon Boy

Type: Animatronic Humanoid

Game appearances: *Five Nights at Freddy's AR: Special Delivery*

Released for the Screampunk event in July 2021, this cool steampunk-themed Balloon Boy skin sees him progress beyond mere balloons. He does still have a balloon, and it's made of metal and has steampunky gears!

FLY GUY

As you may expect from his name, Jetpack Balloon Boy wears a jetpack. It's powered by twin gas canisters, which he can use to fly a few feet into the air. His sign now says LET'S FLY! Can we not? It's just, we don't especially like heights . . .

LUCKY BOY

It's his lucky day. But is it yours?

Data File

Name: Lucky Boy

Type: Animatronic Humanoid

Short story collection appearances:
"Sergio's Lucky Day"

Lucky Boy appears in the story "Sergio's Lucky Day." He's a small doll version of Balloon Boy, with similar clothes, but his sign reads IT'S YOUR LUCKY DAY. The main character of the story, Sergio, finds Lucky Boy in a dumpster and decides to test out his luck by buying a lottery ticket.

LUCKING OUT

Sergio wins \$600,000 on the lottery and goes about changing his life—buying a new car, looking for a new home, finding a new girlfriend, and changing his job. Eventually, he becomes completely dependent on Lucky Boy and believes everything he says, which is a dangerous position to be in . . .

ENDO-01

Make sure it doesn't endo your life.

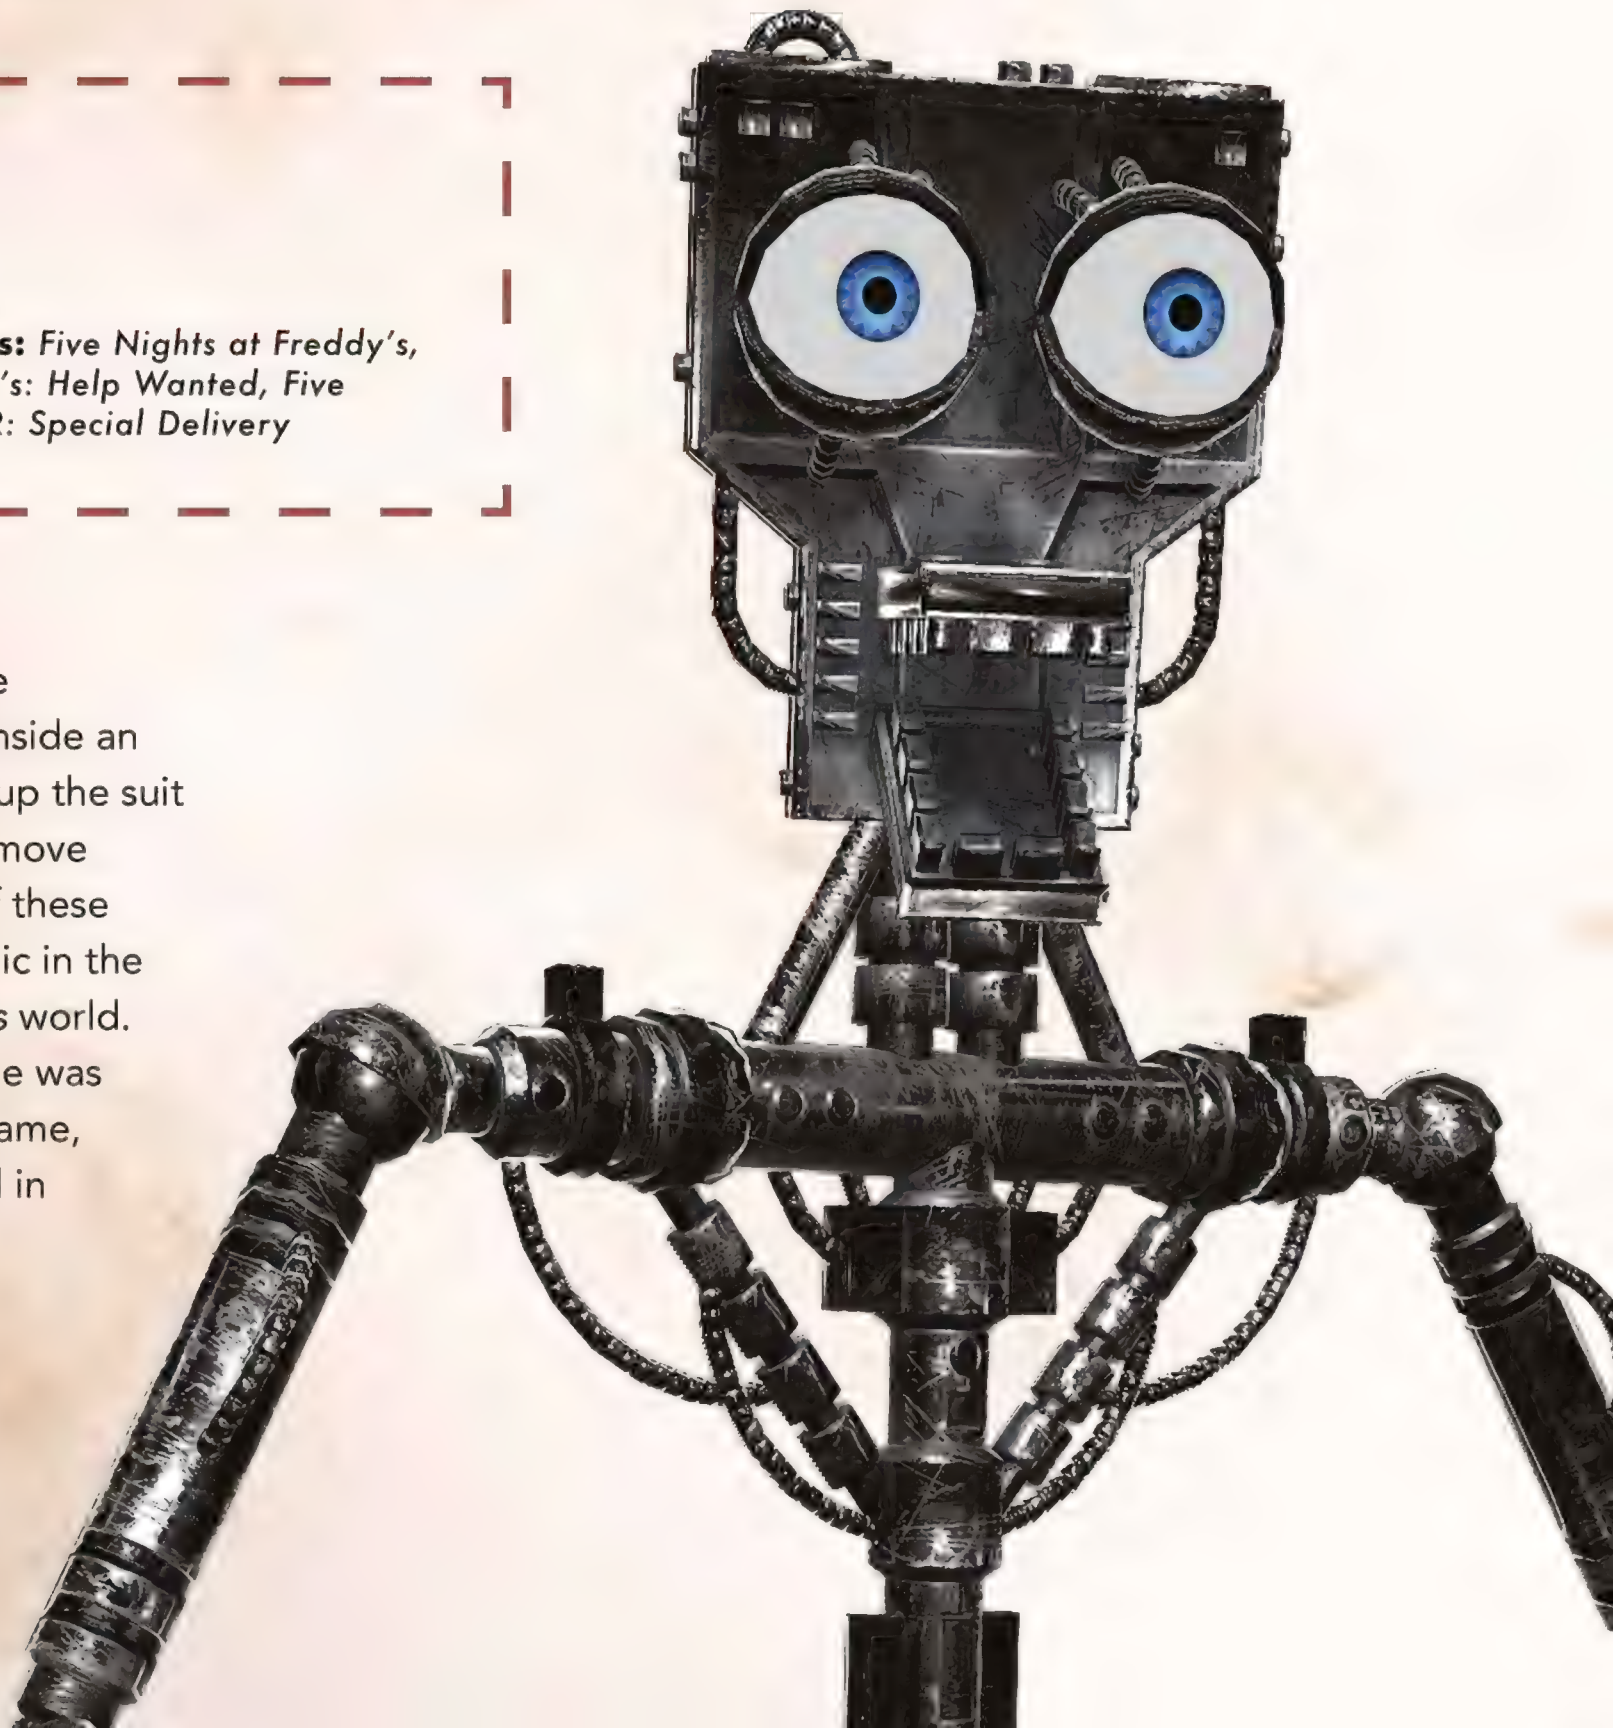

Data File

Name: Endo-01

Type: Endoskeleton

Game appearances: *Five Nights at Freddy's*,
Five Nights at Freddy's: Help Wanted, *Five
Nights at Freddy's AR: Special Delivery*

An endoskeleton is the framework that goes inside an animatronic—holding up the suit and allowing them to move around. There's one of these inside every animatronic in the *Five Nights at Freddy's* world. The first sighting of one was back in the very first game, as a background detail in the backstage area.

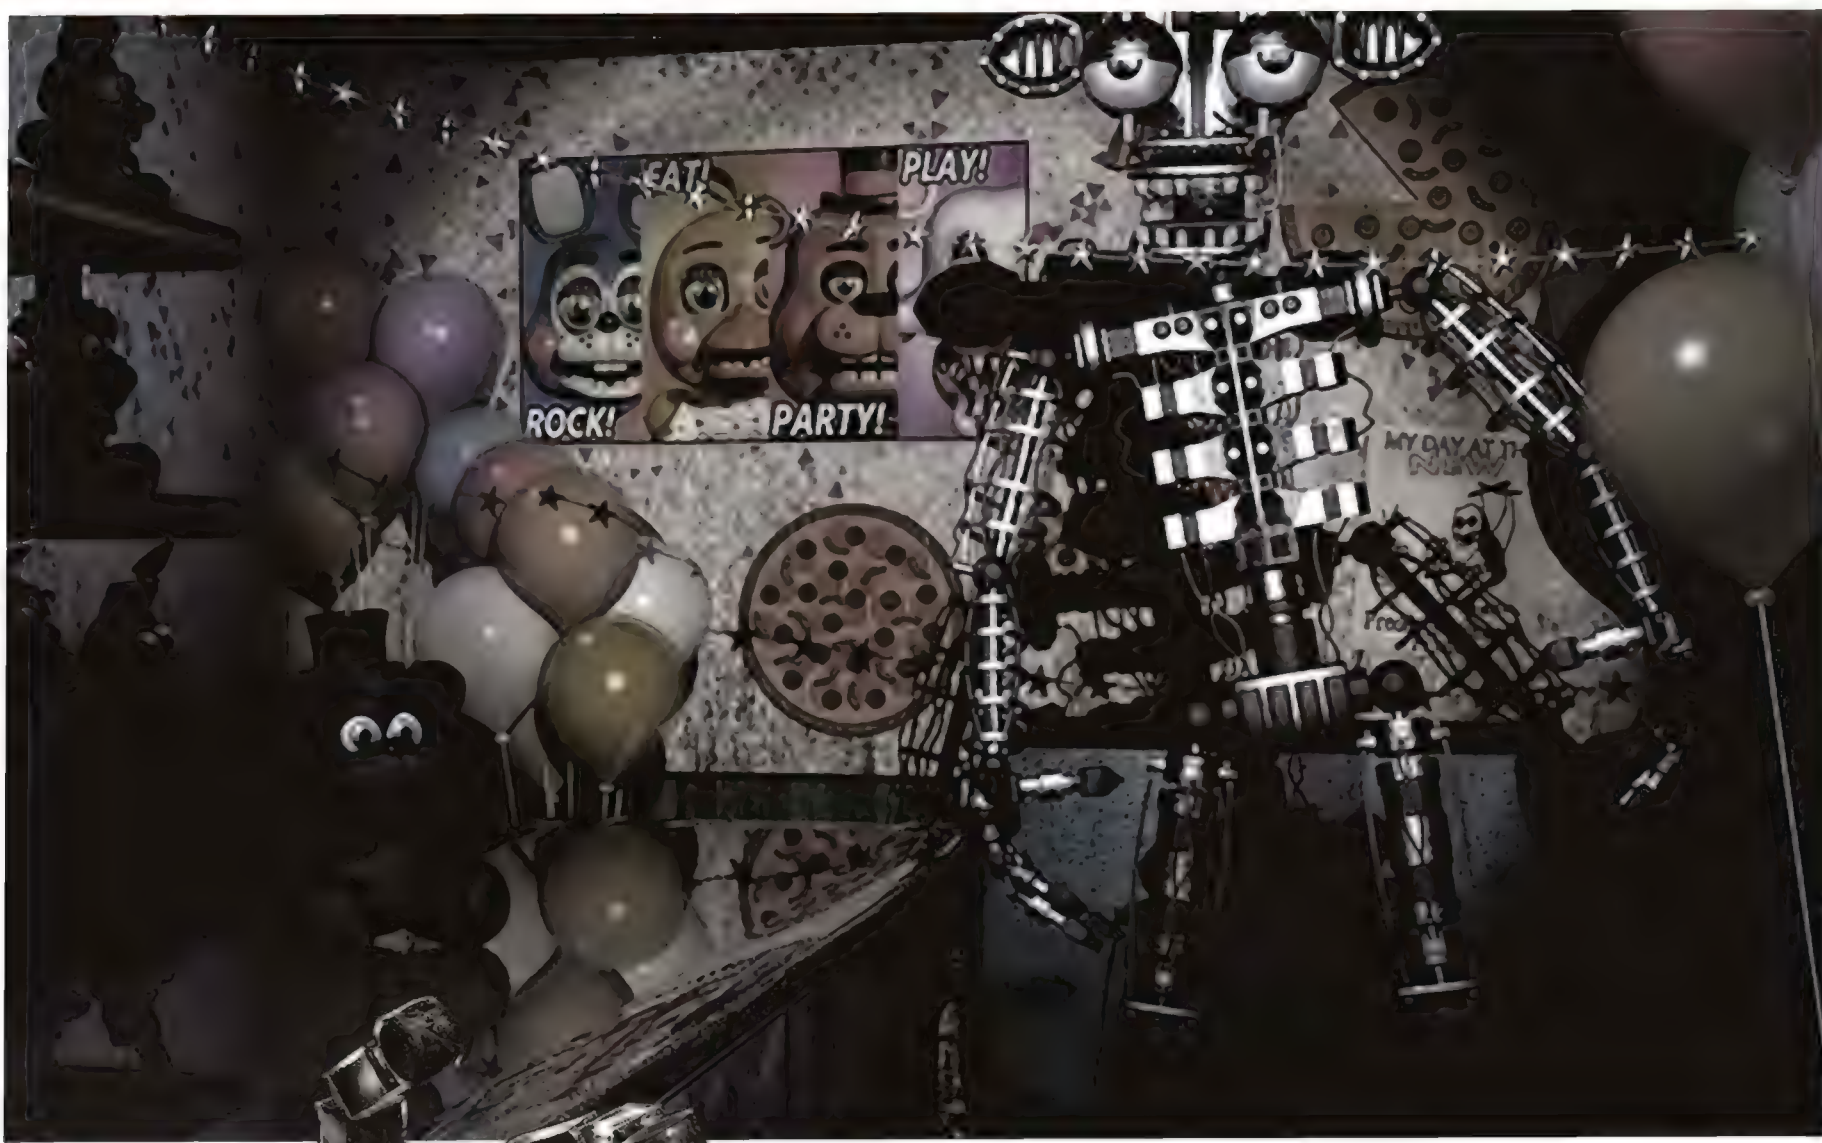

Endo-01 reappears in *Help Wanted* in much the same way it appears in the original game, but with *Special Delivery*, it gets more involved. In this game, it appears as an antagonist, but it can't speak and it doesn't have any noticeable personality, either.

REMAKE, REMODEL

You must track Endo-01 by the sound of its footsteps and dodge when it goes haywire, then shock it to defeat it. If you manage to collect it, you can put a plush suit on it (collected when you manage to fend off the other animatronics) and make it into a brand-new animatronic.

My Endo's got no nose.
How does it smell? It doesn't.

The pizzeria's running with a skeleton staff.

ENDO-02

Made of tougher stuff.

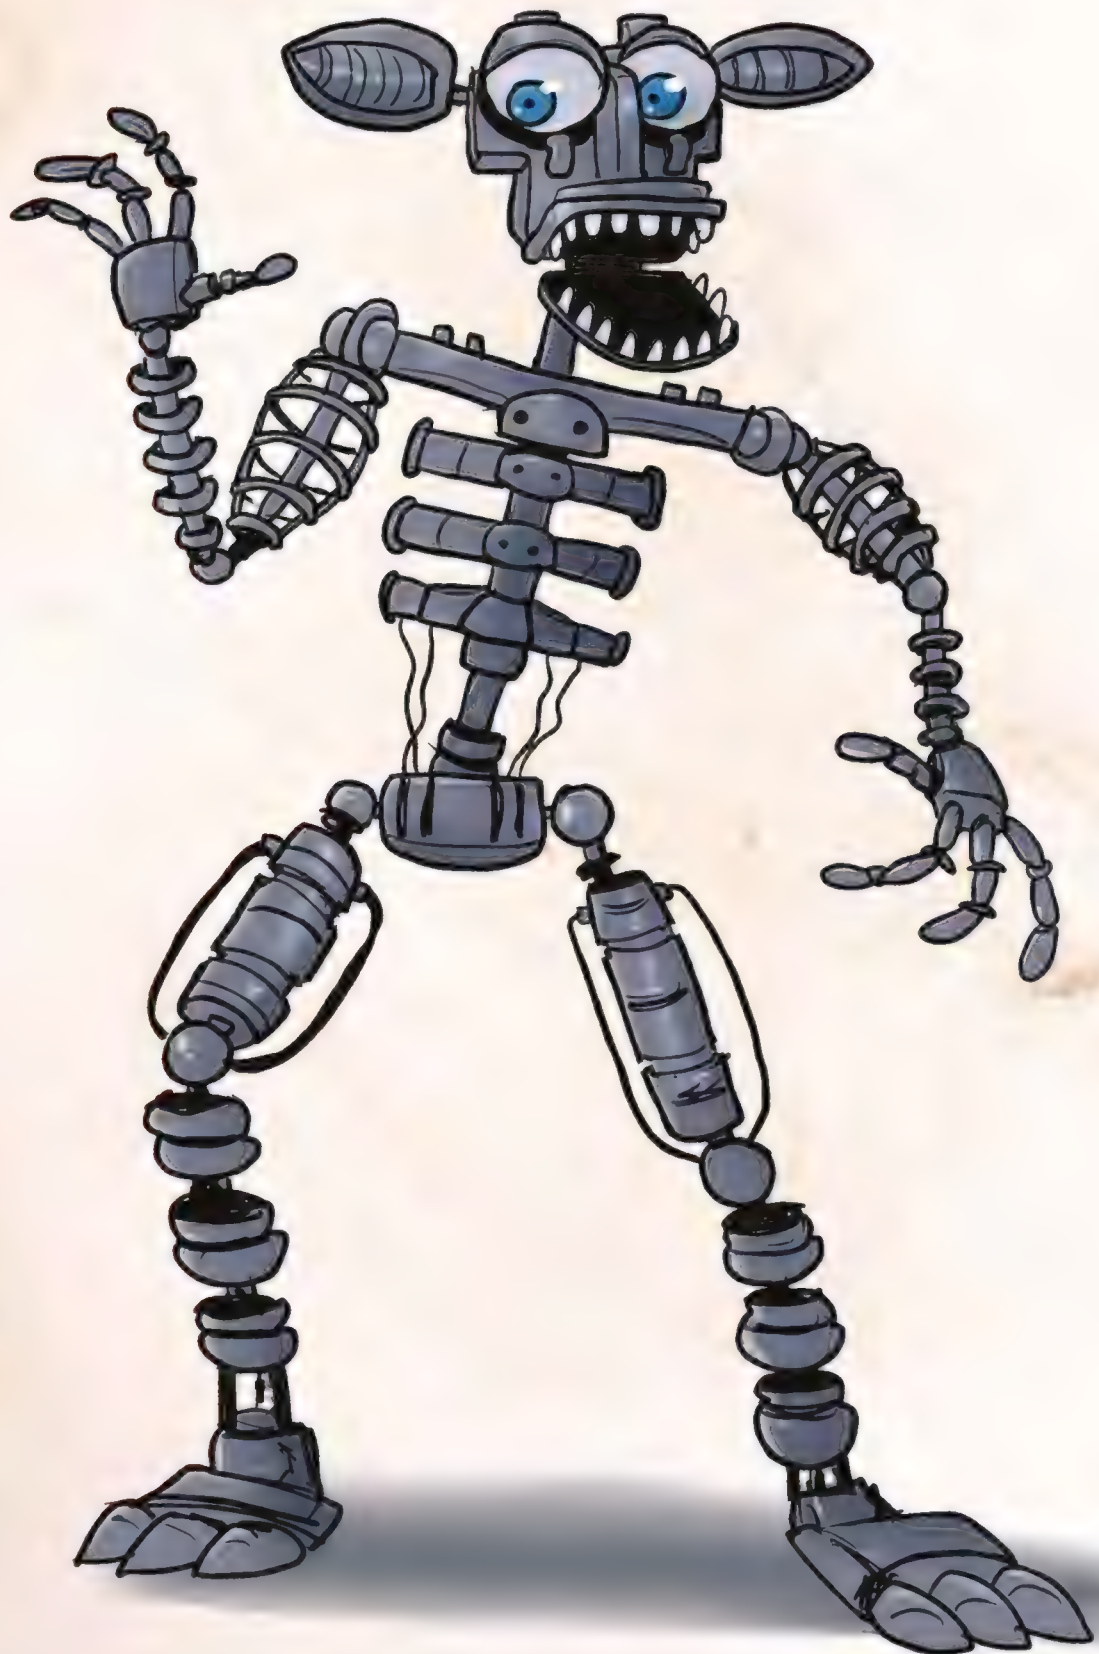

Data File

Name: Endo-02

Type: Endoskeleton

Game appearances:

Five Nights at Freddy's 2,
*Five Nights at Freddy's: Help
Wanted*, *Five Nights at
Freddy's AR: Special Delivery*,
*Five Nights at Freddy's:
Security Breach*

The more advanced animatronics seen in *Five Nights at Freddy's 2* needed a more advanced endoskeleton, and that's where Endo-02 comes in. It looks sturdier than the spindly Endo-01, with "ribs" and metal discs to help fill out the plush suit. Plus, it's got articulated joints.

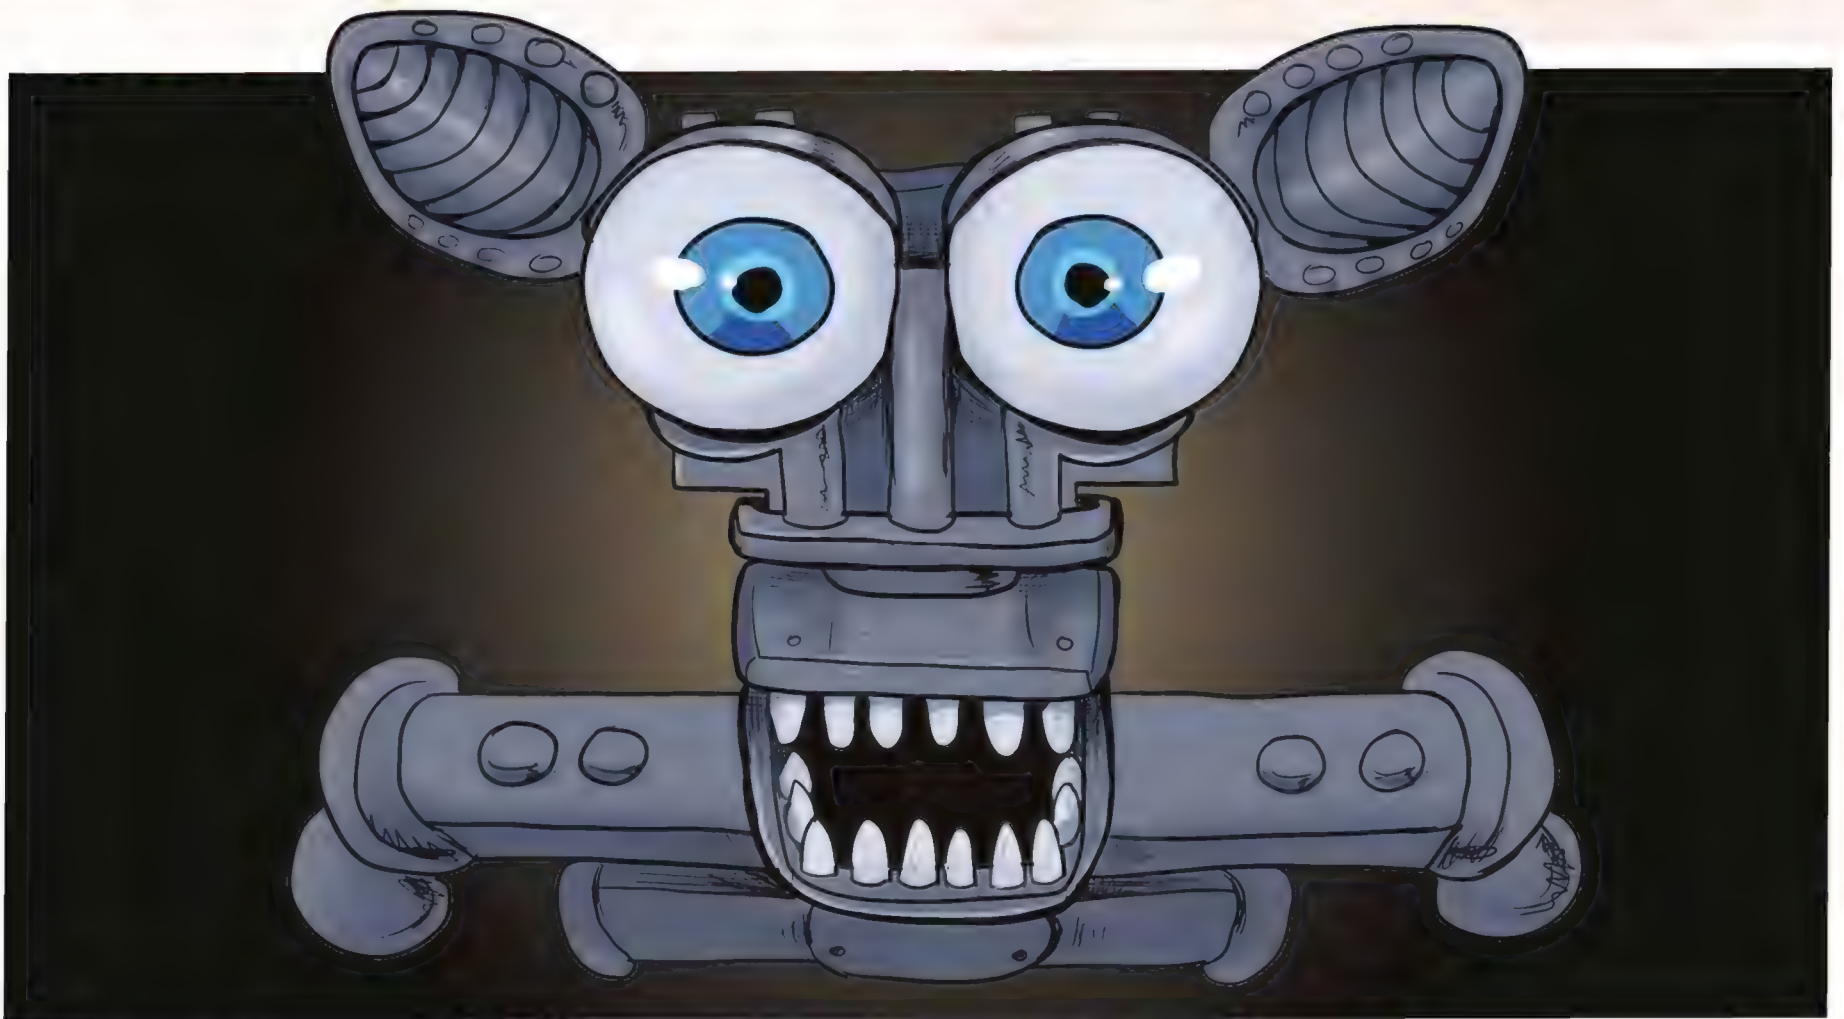

Unlike Endo-01 in the first game, Endo-02 takes a more active role in *Five Nights at Freddy's 2*. It sometimes appears in the Prize Corner in *Help Wanted* and, more rarely, in the left air vent, where it can block other animatronics from entering. It doesn't attack or jump scare, so it's nothing much to worry about.

HEAD GAMES

In *Help Wanted*, Endo-02 takes a role in the *FNaF2* levels—but it operates differently this time, with a chance of appearing in the office. Its head can also be seen in the *Curse of Dreadbear* add-on's "Build-a-Mangle" segment, and parts of it can be seen in the hideous Blob in *Security Breach*.

You must be cold, standing there with no skin on.

Don't get into a staring contest with this guy.

NIGHTMARE ENDO

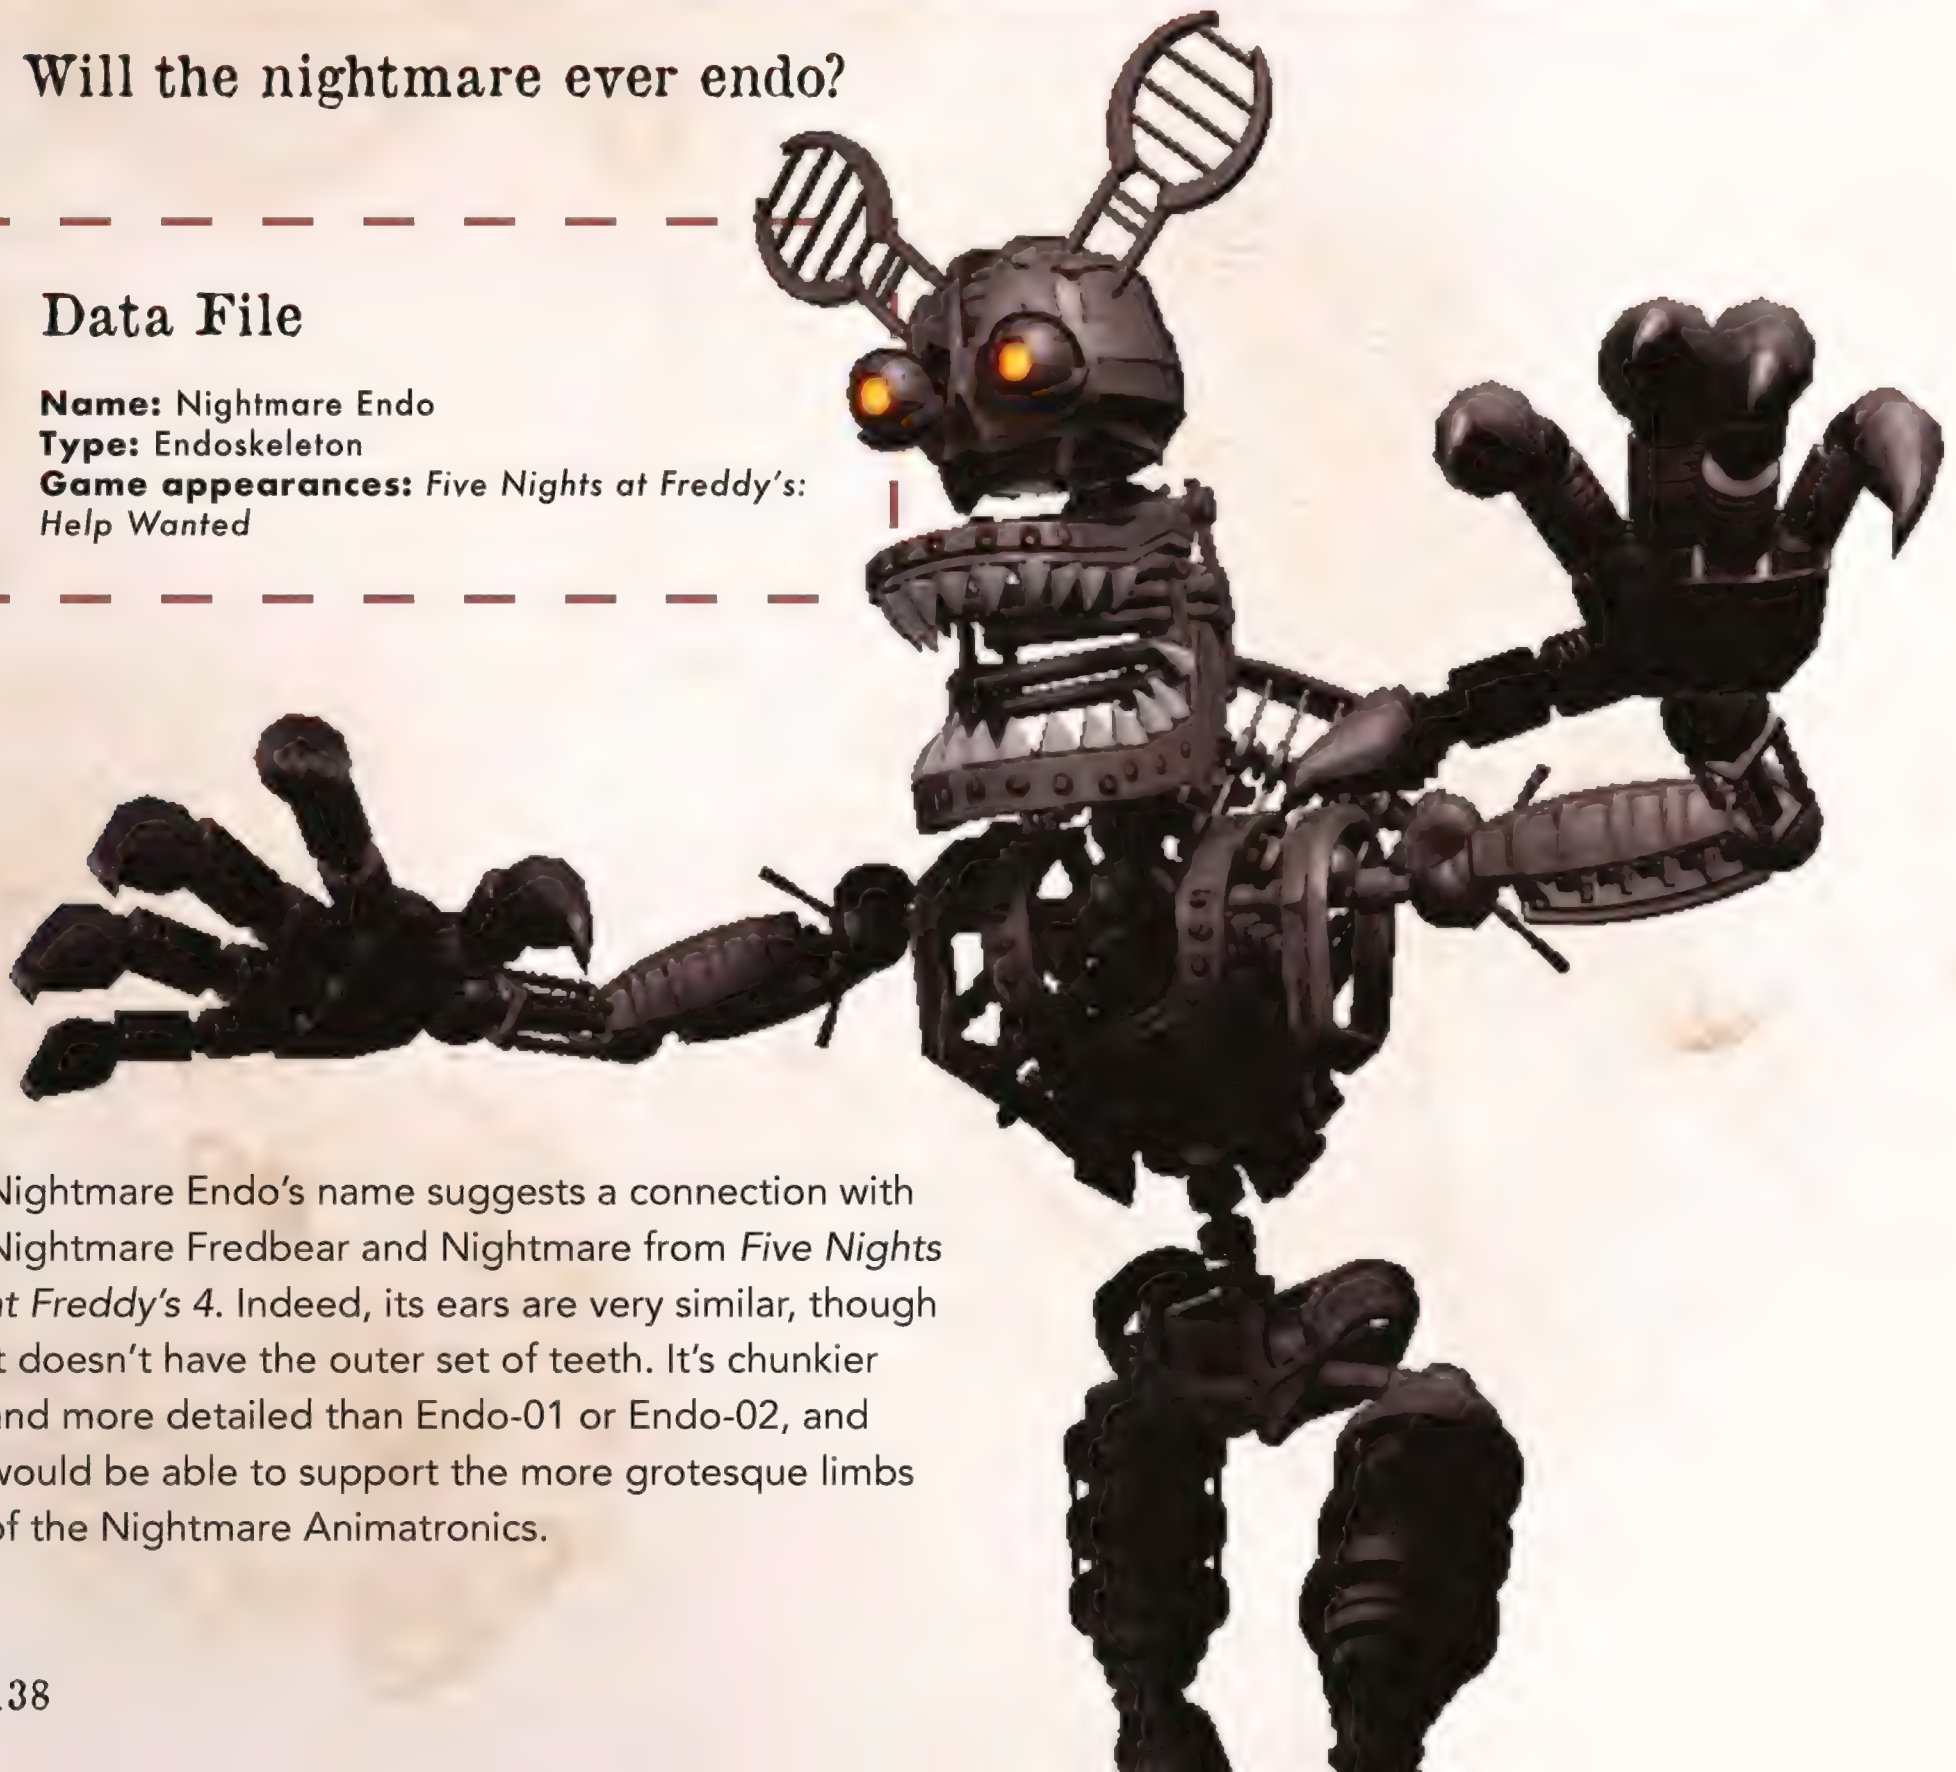

Will the nightmare ever endo?

Data File

Name: Nightmare Endo

Type: Endoskeleton

Game appearances: *Five Nights at Freddy's:*
Help Wanted

Nightmare Endo's name suggests a connection with Nightmare Fredbear and Nightmare from *Five Nights at Freddy's 4*. Indeed, its ears are very similar, though it doesn't have the outer set of teeth. It's chunkier and more detailed than Endo-01 or Endo-02, and would be able to support the more grotesque limbs of the Nightmare Animatronics.

However, Nightmare Endo doesn't actually appear in *FNaF4*. Instead, it turns up in the Vent Repair section of *Help Wanted*, in the Ennard level, which takes place at Circus Baby's Entertainment and Rental—even then, it's only briefly. You have to look under the grill in the spot where you're standing, but it'll disappear when the flashlight shines on it.

WAIT, I DIDN'T SEE IT!

If you didn't get a decent look at Nightmare Endo, unlock the Gallery by completing Pizza Party, the Blacklight Level. A button will appear that takes you to a page where all the characters in the game—including Nightmare Endo—can be viewed and made to appear on the stage.

Blink and you'll miss him!

Give him a big hand. Oh, wait, he's already got two.

ENNARD

A bit of this, a bit of that.

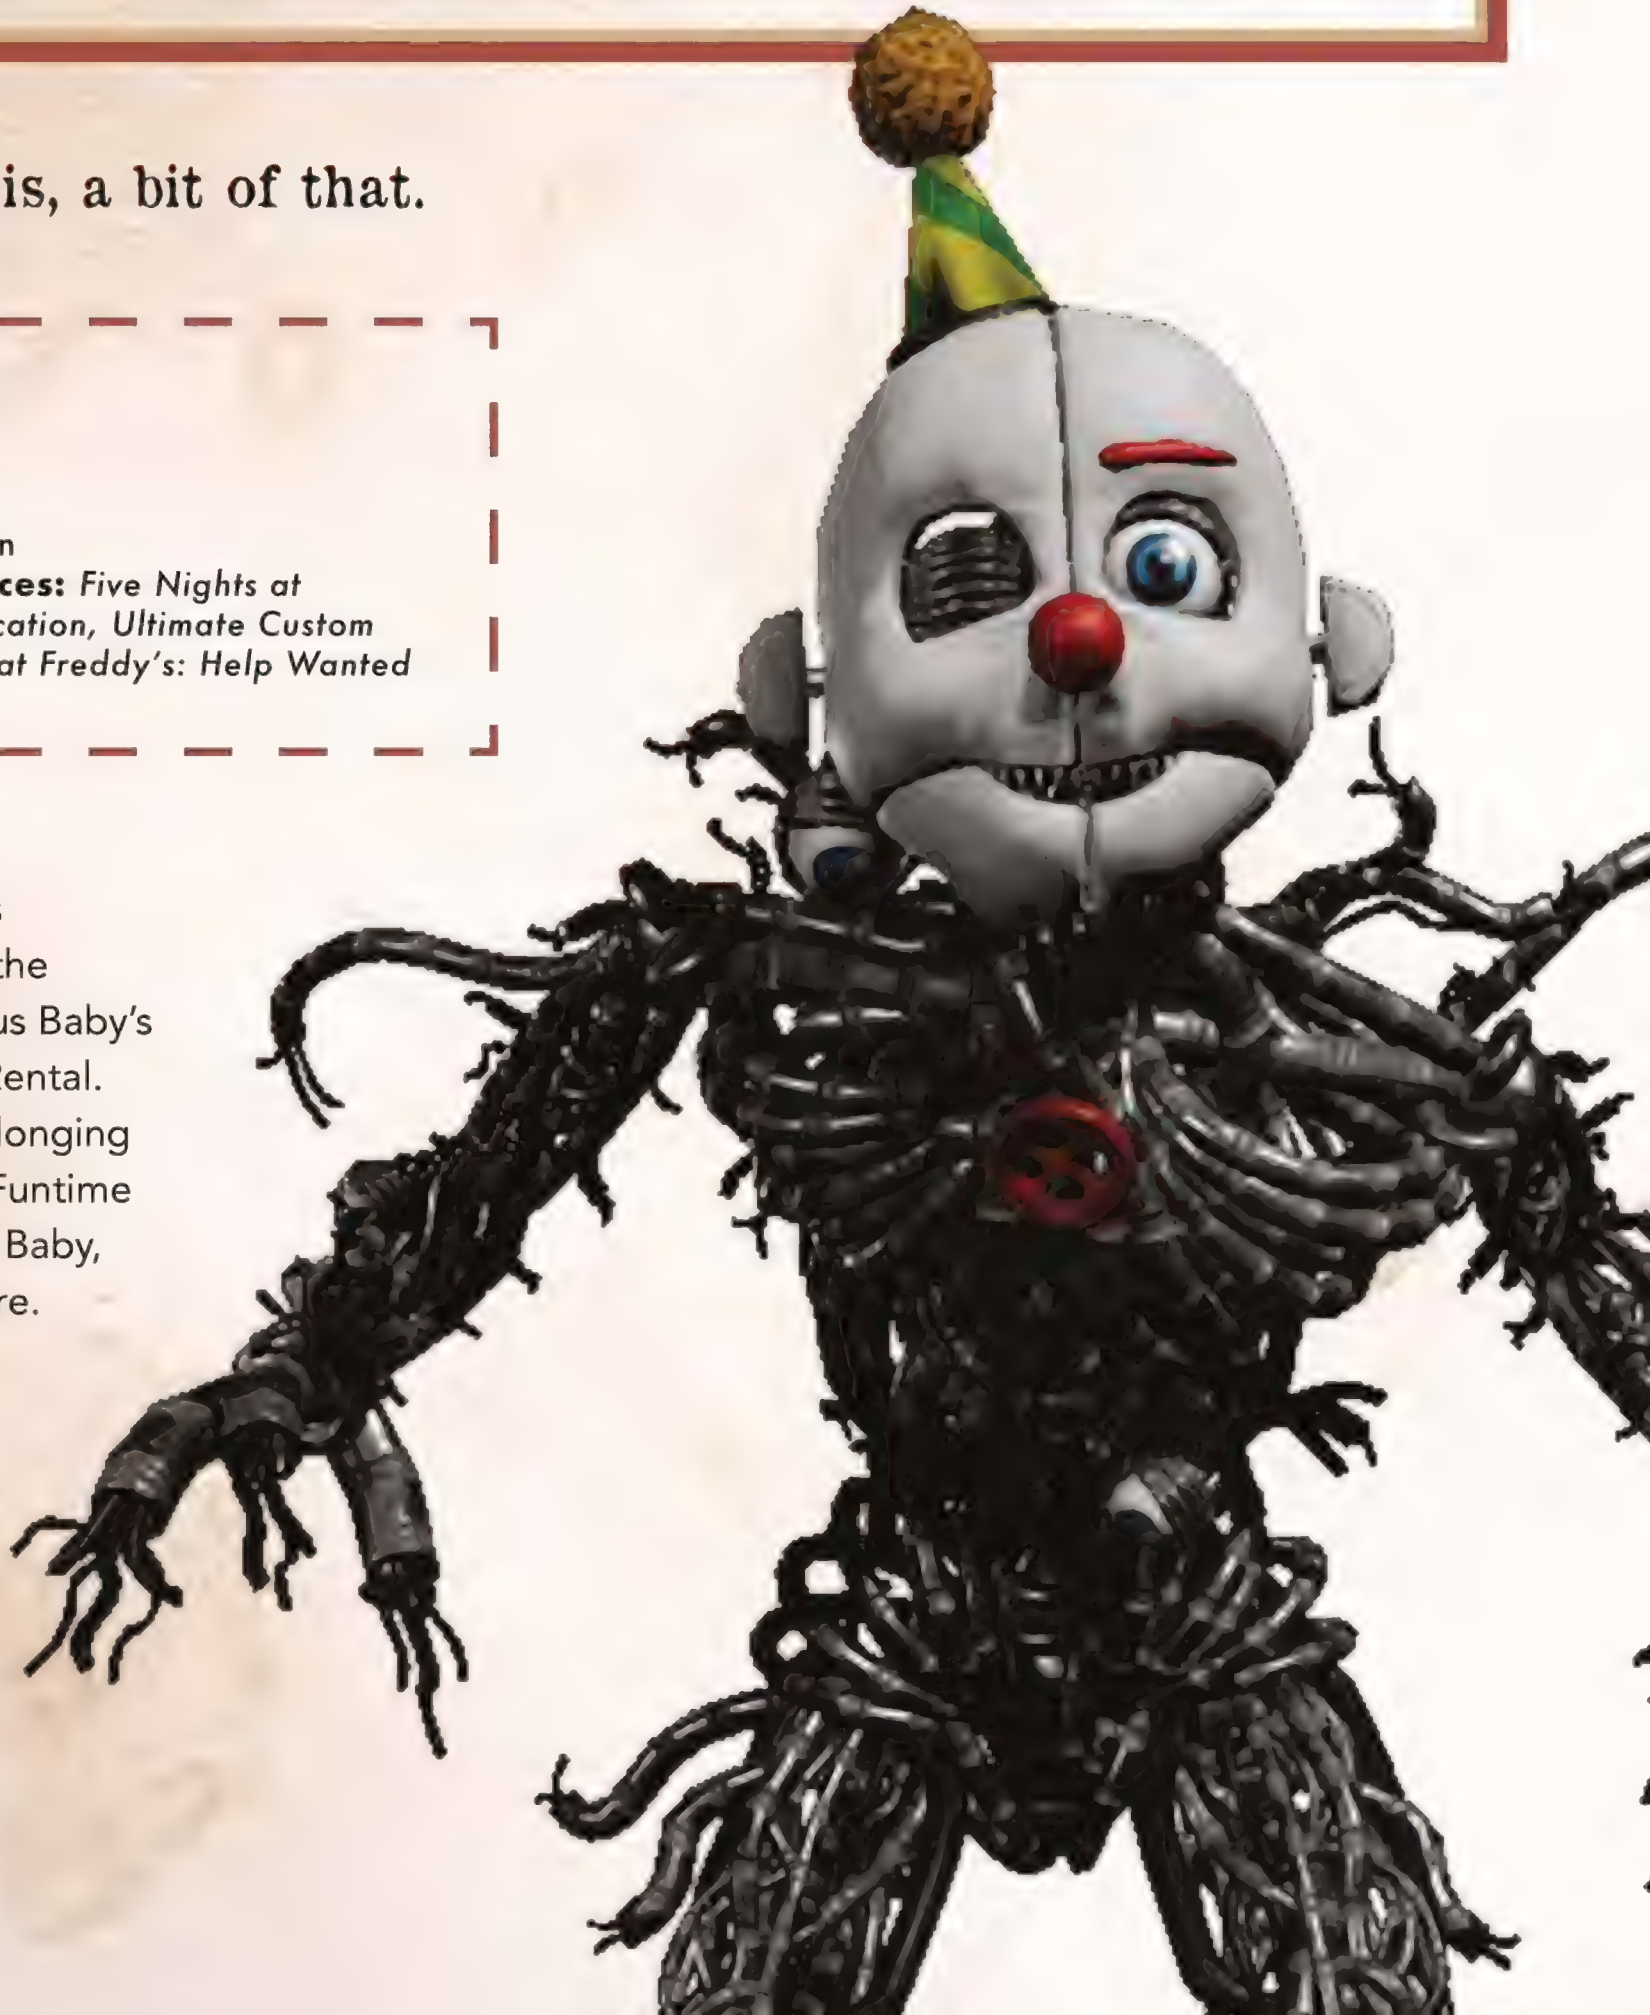

Data File

Name: Ennard

Type: Endoskeleton

Game appearances: *Five Nights at Freddy's: Sister Location*, *Ultimate Custom Night*, *Five Nights at Freddy's: Help Wanted*

Ennard is a mess. It's made from parts of the animatronics at Circus Baby's Entertainment and Rental. You can see eyes belonging to Funtime Freddy, Funtime Foxy, Ballora, Circus Baby, and Bon-Bon on there. It's controlled by Circus Baby, and (sometimes) wears a mask that covers its mismatched eyes and its mouth, which disturbingly looks like it's grinning.

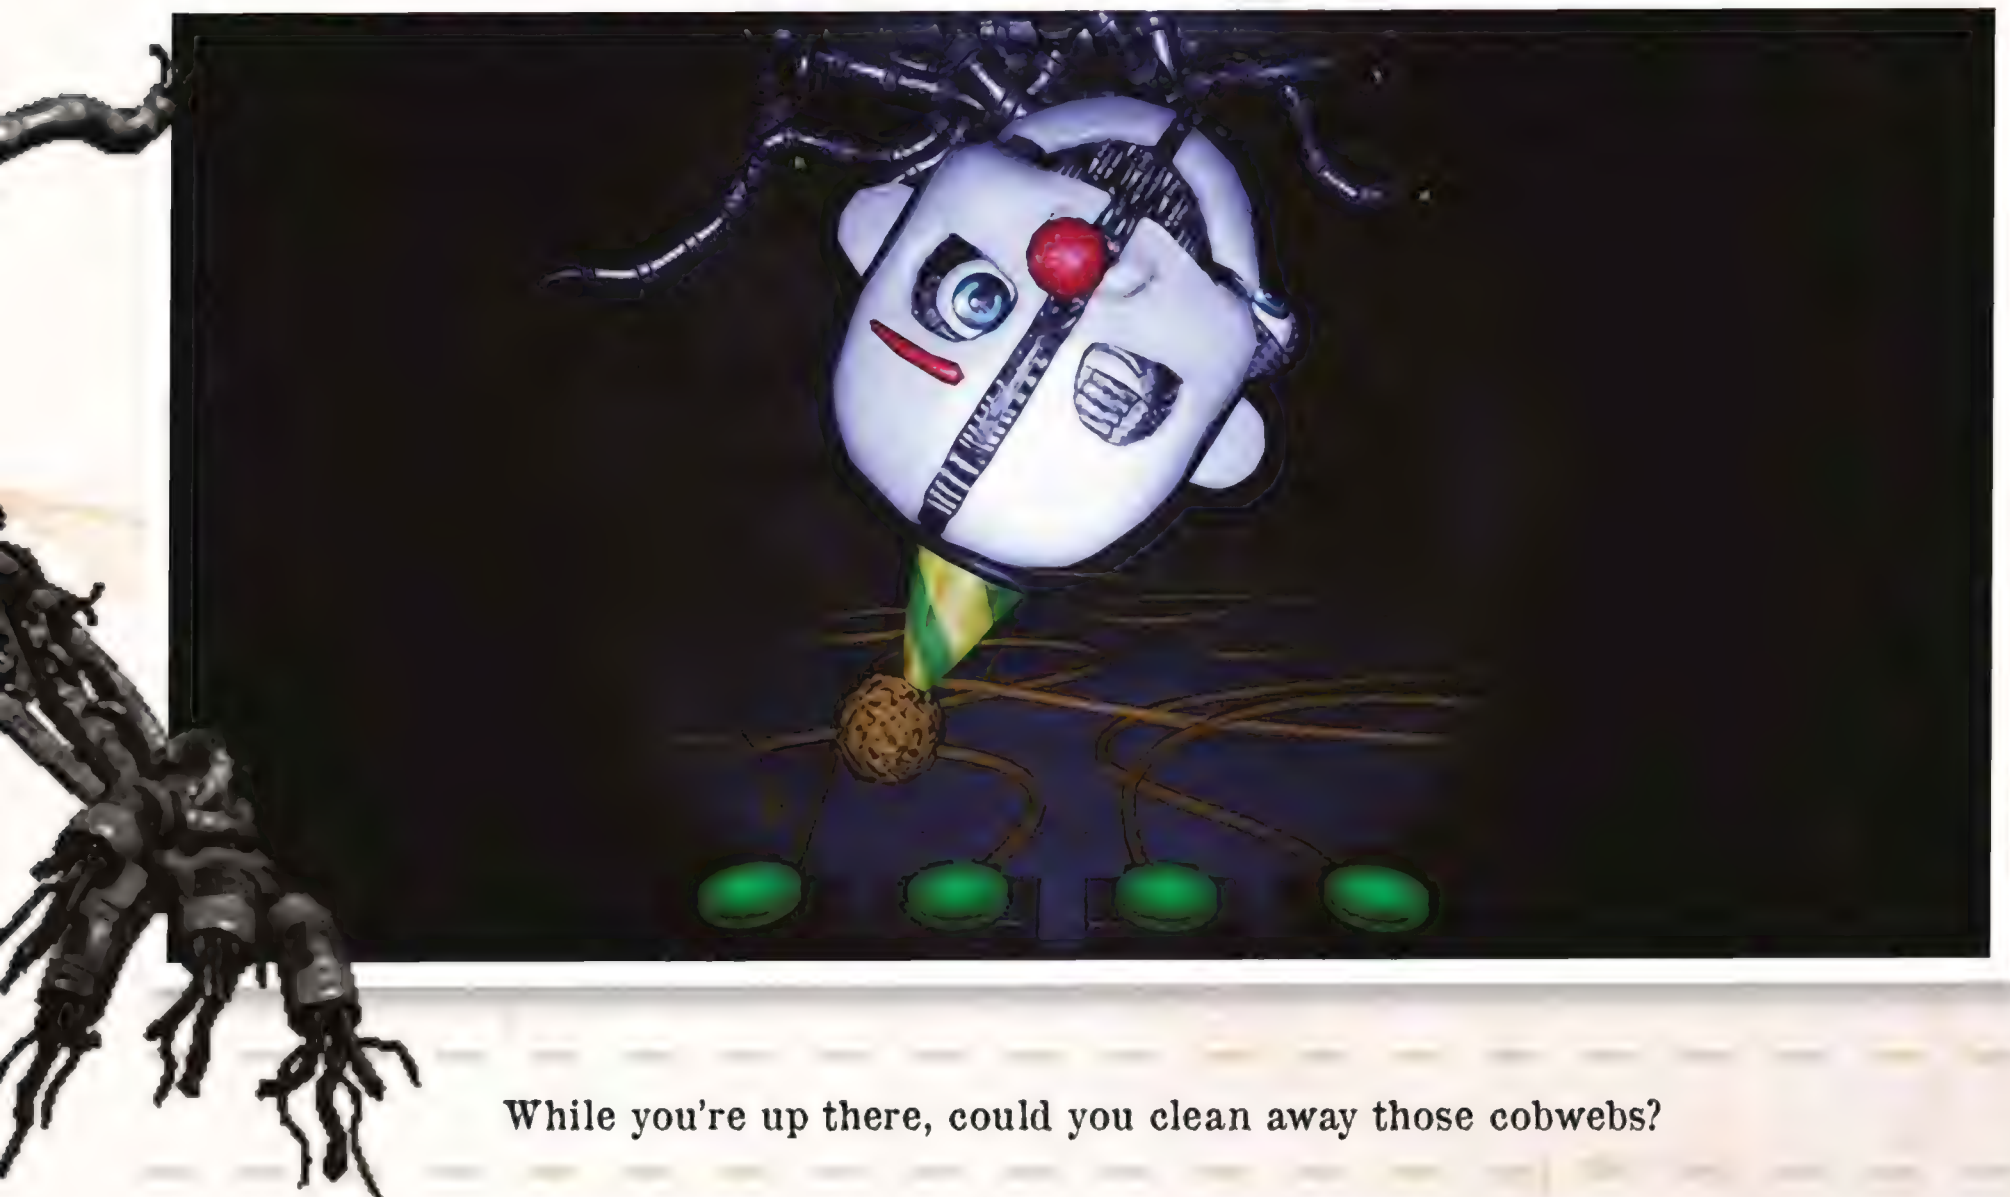

Ennard is the final antagonist of *Five Nights at Freddy's: Sister Location*, appearing on Night 5. There are a number of mistakes that will lead you into being jump scared by Ennard if you don't listen to Circus Baby, but if you reach the Scooping Room, Ennard/Circus Baby/Elizabeth will reveal its/her plan . . . to take over your body, hide inside and escape the underground facility, and infiltrate human society.

KEEP IT PRIVATE

If you can then reach the Private Room, you must stay safe from Ennard there in an old-school *Five Nights at Freddy's* level. Ennard subsequently appears in *Ultimate Custom Night* and as an antagonist in the Vent Repair level of *Help Wanted*.

Put your game face on.
Or any face. Please.

While you're up there, could you clean away those cobwebs?

YENENDO

Part of the skeleton crew.

Data File

Name: Yenndo

Type: Endoskeleton

Game appearances: *Five Nights at Freddy's: Sister Location*

Yenndo is a rarely encountered endoskeleton in *Sister Location* that sometimes appears on Night 3 in place of Funtime Foxy. It looks a lot like Funtime Freddy, but its origins have never been revealed.

WALKING THROUGH WALLS

Yenndo also appears in the Custom Night segment of *Sister Location*, where it acts in a similar way to Golden Freddy from earlier games—its appearances have nothing to do with the doors being open or closed, for instance. If you stare too long at Yenndo, your oxygen levels will deplete rapidly. You can make it disappear by opening the monitor.

FLAMETHROWER ENDO

Careful where you point that thing.

Data File

Name: Flamethrower Endo

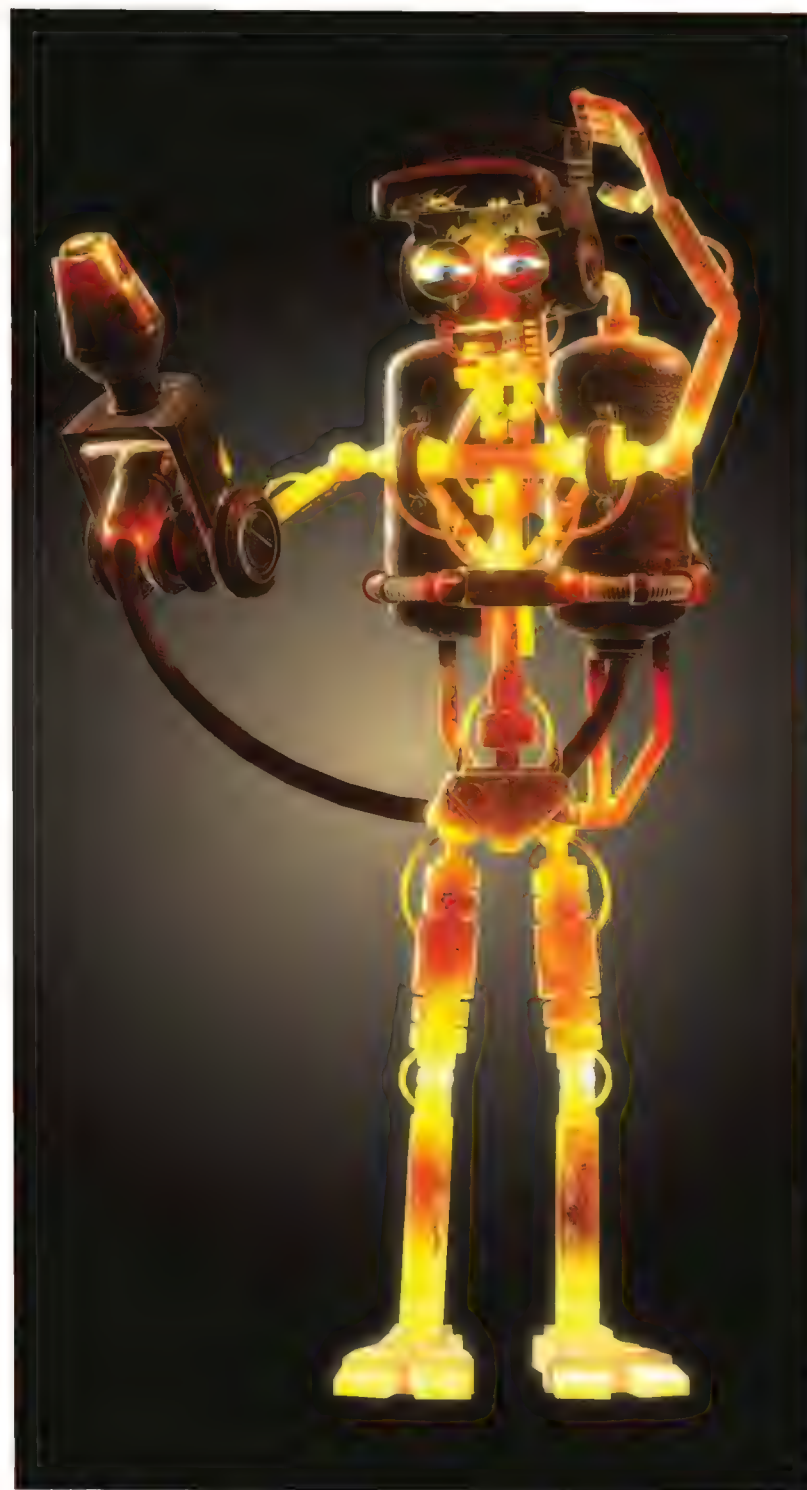

Type: Endoskeleton

Game appearances: *Five Nights at Freddy's AR: Special Delivery*

Flamethrower Endo was introduced into *Special Delivery* as a limited-time skin for the Sizzling Summer event in July 2020. It's the first variant of Endo-01 to appear in the game. It wears a welding mask, which covers its whole face except its eyes—a big improvement.

TWISTED FIRE STARTER

The most distinctive element of this skin is that it has a flamethrower instead of a right hand. This is connected to fuel tanks on its back and shoots a constant jet of flame when in the workshop.

DARK WATER ENDO

There's something fishy about this one.

Data File

Name: Dark Water Endo

Type: Endoskeleton

Game appearances: *Five Nights at Freddy's AR: Special Delivery*

Dark Water Endo was released in May 2021 for *Special Delivery's* Wicked Tides event. It's quite different from the usual Endo-01 seeing as it fuses the endoskeleton with an angler fish—that's the fish with huge eyes and a dangling light on its head. (You know, from *Finding Nemo*.)

DON'T TAKE THE BAIT

Besides the eyes and light, Dark Water Endo has fins on the sides of its head and fronds on its shoulders and arms. In nature, the angler fish uses the light to lure in its prey. But you're too smart to get taken in by that, aren't you . . . ?

MOLTEN FREDDY

Can't stand the heat?

Data File

Name: Molten Freddy

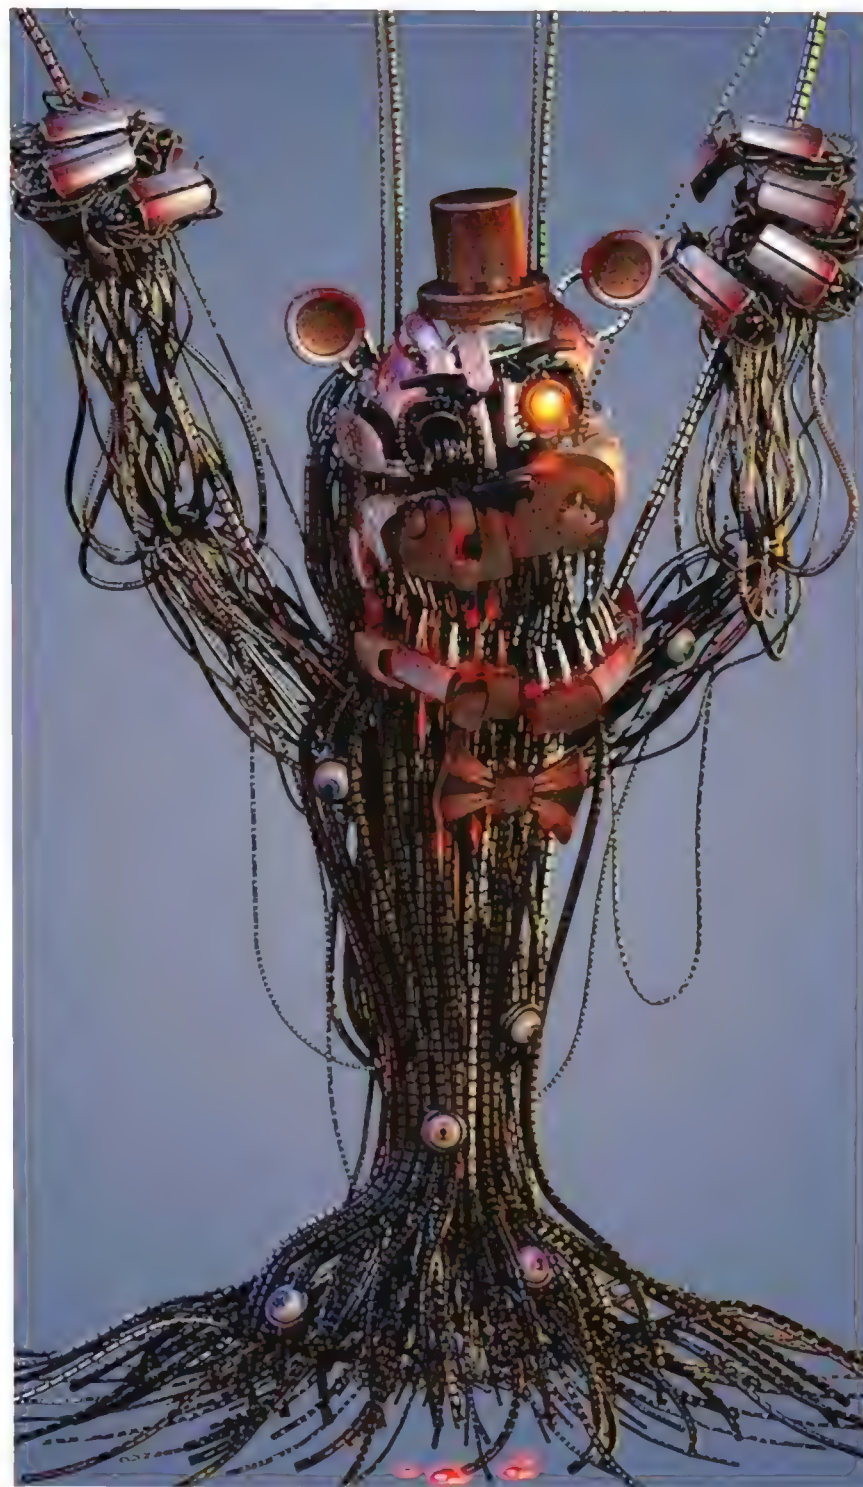

Type: Endoskeleton

Game appearances: *Freddy Fazbear's Pizzeria Simulator*, *Ultimate Custom Night*, *Five Nights at Freddy's: Security Breach*

Molten Freddy is one of the main enemies in *Freddy Fazbear's Pizzeria Simulator*. He is a damaged version of Ennard, but Funtime Freddy is controlling him. His voice sounds the same (complete with its distinctive glitch), and his ears are just about identifiable. What do you reckon?

CASHING IN

Molten Freddy is also one of the game's four salvageable animatronics, so he can earn you a \$500 profit if brought back for parts. Or you can choose not to salvage him and just put him back where you found him.

GLITCHTRAP

You'll need more than debugging
to get rid of him.

Data File

Name: Glitchtrap

Type: Computer Virus

Game appearances:

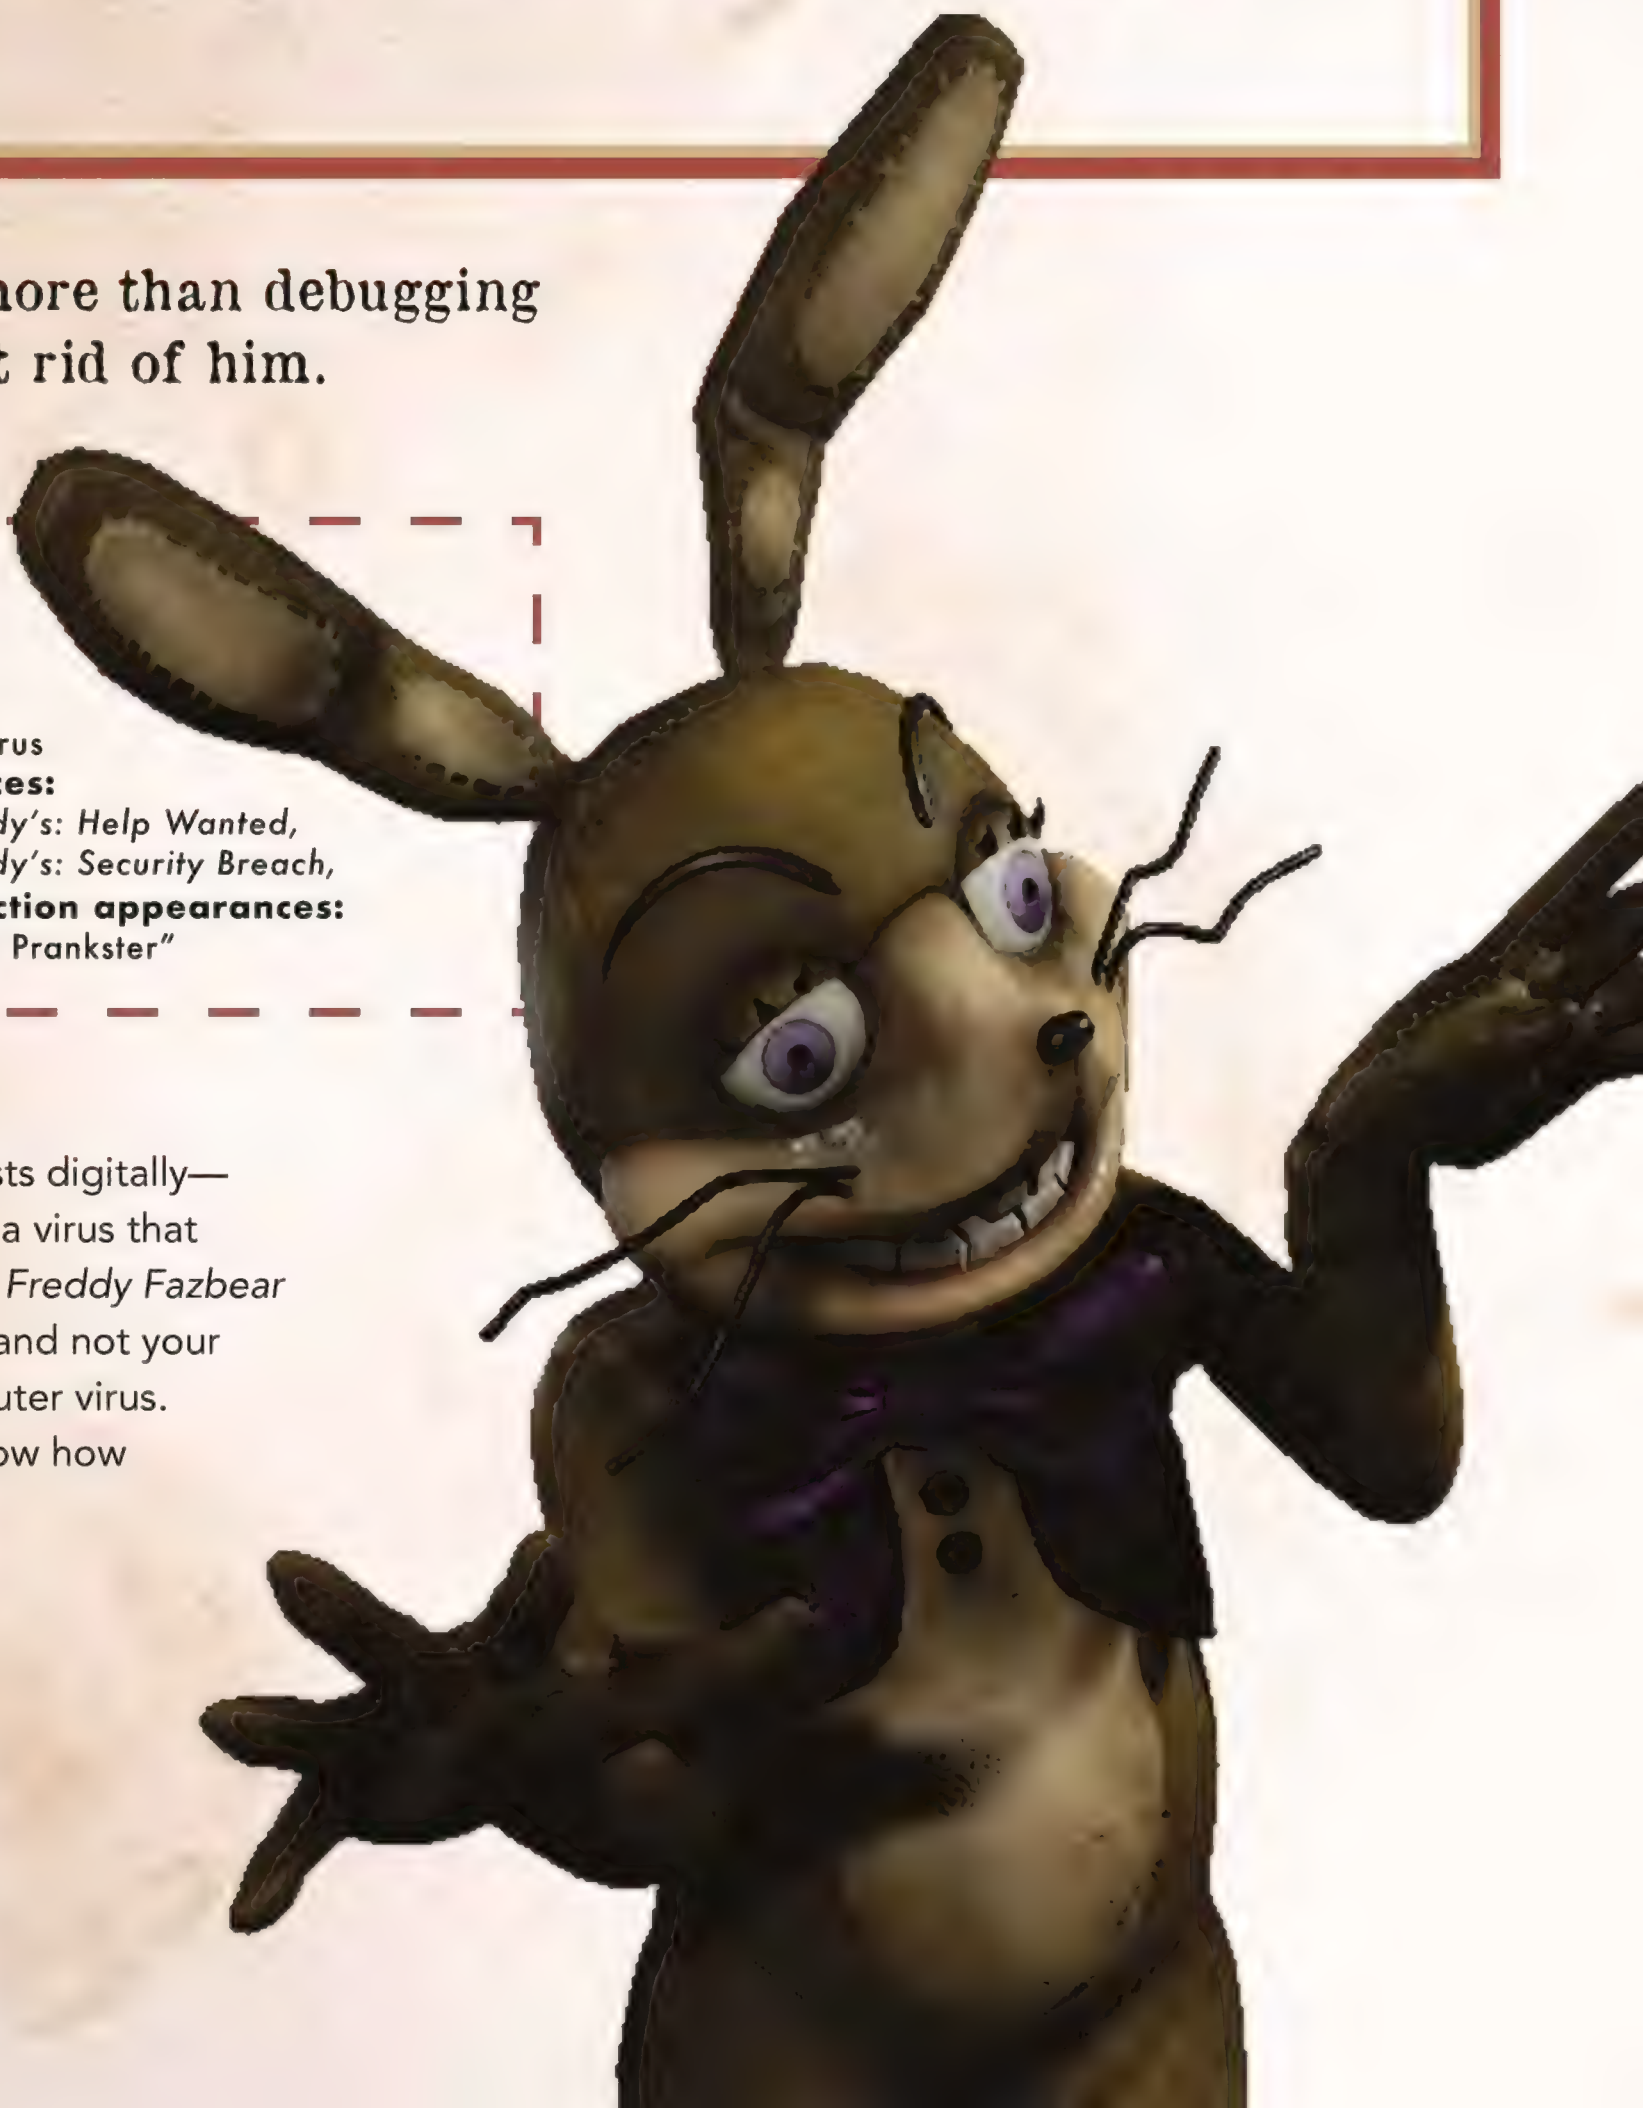

Five Nights at Freddy's: Help Wanted,

Five Nights at Freddy's: Security Breach,

Short story collection appearances:

"In the Flesh," "The Prankster"

This mascot only exists digitally—
Glitchtrap is actually a virus that
manifests within *The Freddy Fazbear
Virtual Experience*—and not your
normal sort of computer virus.
No one seems to know how
he got there.

The malicious code of Glitchtrap attached itself to a developer's logs, which the developer broke up into sixteen pieces in order to hide them. Reassembling the logs enables you to learn about this threat, but it also causes him to manifest. Initially, Glitchtrap appears to be green (in the style of primitive computer displays) but becomes more real and solid as his pieces come together.

DOWN THE RABBIT HOLE

In the *Pizza Party* mini game, he seems to be re-creating a murder. But his real aim is to merge with you and take over your body, enabling him to escape from the game and into the real world. The sixteenth tape tells you what you need to survive!

Take his hand? Or is it a trap?
The clue's in the name.

Don't worry, it's just a glitch. Blink and it'll go away. Probably.

SPRINGTRAP

Full of the joys of spring.

Data File

Name: Springtrap

Type: Rabbit Springlock Suit

Game appearances: *Five Nights at Freddy's 3*, *Five Nights at Freddy's 4*, *Five Nights at Freddy's: Sister Location*, *Five Nights at Freddy's: Help Wanted*, *Ultimate Custom Night*, *Five Nights at Freddy's AR: Special Delivery*

Novel appearances: *The Silver Eyes*, *The Twisted Ones*, *The Fourth Closet*

Short story collection appearances: "In the Flesh," "Stitchwraith Stingers"

Springtrap resembles the Spring Bonnie suit, but he's very battered and damaged. While the big holes in the suit make it look empty, there's a suggestion there might be some bits of someone left inside it. Just look at the hole in his chest . . . Springtrap plays a huge role in the novel trilogy, and is one of the most frightening animatronics of the series.

HE VENT THAT WAY

Springtrap appears in *Ultimate Custom Night*, where he can be found crawling around the vents in certain challenges, and also in the Blacklight mode of Ennard's Vent Repair level. In this, he turns up in the Breaker Room, forcing you to repair the vent before he arrives.

DARK SPRINGTRAP

How much darker can he get?!

Data File

Name: Dark Springtrap

Type: Rabbit Springlock Suit

Game appearances: *Five Nights at Freddy's: Sister Location*

Springtrap makes a very brief appearance in *Sister Location*, in a cut scene viewable after all the Custom Nights have been completed. In this scene he has a shadowy, possibly fire-damaged look—seemingly just to confirm he's still around.

WATCHING FROM THE SHADOWS

This variant of Springtrap, who's missing even more parts than the regular version, was only named when the Funko Pop! was released, where he was called Dark Springtrap. He hasn't appeared again since *Sister Location*.

CLOWN SPRINGTRAP

Really not funny.

Data File

Name: Clown Springtrap

Type: Rabbit Springlock Suit

Game appearances: *Five Nights at Freddy's AR: Special Delivery*

Was it really necessary to make clowns even creepier? One of the Circus Animatronics introduced for *Special Delivery's* Dark Circus event in September 2020, Clown Springtrap wears a clown costume and has clown makeup clumsily applied to his face.

IT'S A HIT

A major difference between this and other versions of Springtrap is he's equipped with a weapon—a huge mallet. Clowns' mallets are usually padded so they don't hurt. We bet this one isn't.

TOXIC SPRINGTRAP

He's from a toxic environment.

Data File

Name: Toxic Springtrap

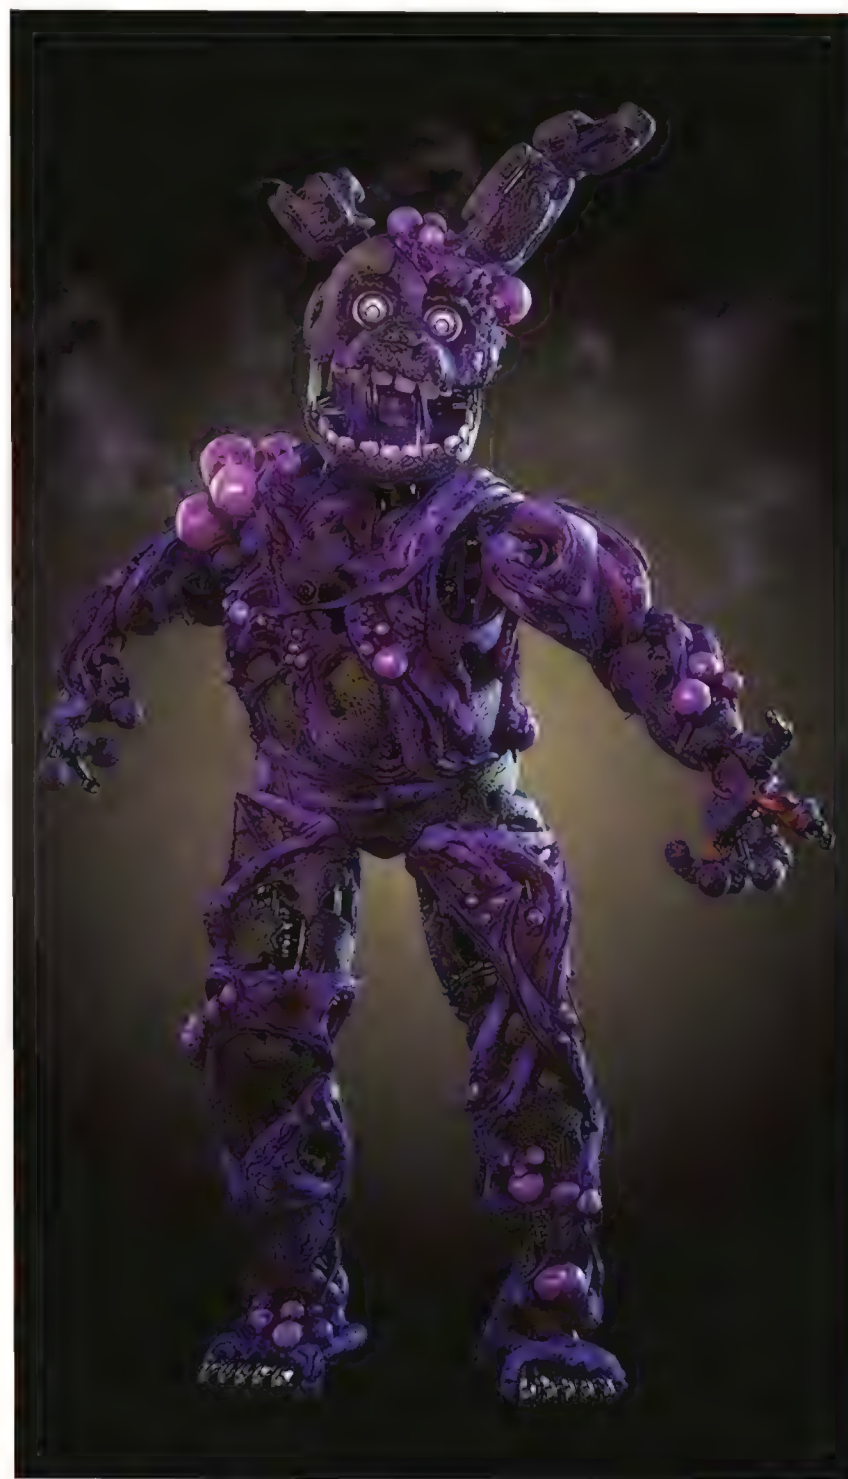

Type: Rabbit Springlock Suit

Game appearances: *Five Nights at Freddy's AR: Special Delivery*

This was the first skin to be released for Springtrap, as part of *Special Delivery's* Wasteland event in June 2020. It's also one of only two Wasteland Animatronics, along with Radioactive Foxy. He doesn't seem to have fared as well as Foxy, though . . .

PURPLE PATCHES

Toxic Springtrap is horribly mutated, with his body covered in purple warts that seem to emit gas. Overall, he's more organic-looking than Springtrap usually is, which might be because the body inside has mutated along with the suit.

THE CURSE

There's no escaping the Curse.

Data File

Name: The Curse

Type: Rabbit Springlock Suit

Game appearances: *Five Nights at Freddy's AR: Special Delivery*

This Springtrap skin was released in March 2021 as part of the Ancient Equinox event in *Special Delivery*—an event themed around Aztec culture. This is the first skin to have a name that doesn't mention the name of the original animatronic.

THE LION'S SHARE

The Curse is styled as an Aztec warrior, with a feathered shield and headdress. Aspects of his outfit are decorated like a lion—his face seems to be inside a lion's mouth. In fact, it's hard to tell whether he is Springtrap under all that. But his withered ankles are a dead giveaway!

PLUSHTRAP

Terrible things come in small packages . . .

Data File

Name: Plushtrap

Type: Rabbit Plush Toy

Game appearances: *Five Nights at Freddy's 4*, *Ultimate Custom Night*, *Five Nights at Freddy's: Help Wanted*, *Five Nights at Freddy's AR: Special Delivery*, *Five Nights at Freddy's: Security Breach*,

Short story collection appearances:
"Out of Stock"

This toy version of Springtrap first appears in *Five Nights at Freddy's 4*, as part of the mini game *Fun with Plushtrap*. You can earn a boost on the next level by shining the flashlight on the X spot as it runs through a hallway.

PLUSHTOM NIGHT

Presumably, he started out as a Springtrap toy but has since been damaged. He reappears in *Ultimate Custom Night* as one of the animatronics that can only be summoned by Dee Dee.

FROST PLUSHTRAP

Does this plush turn to slush?

Data File

Name: Frost Plushtrap

Type: Rabbit Plush Toy

Game appearances: *Five Nights at Freddy's AR: Special Delivery*

Released in December 2020 for *Special Delivery's* Winter Wonderland event, Frost Plushtrap is part of the Winter Animatronics set. Like the others in this series, he's made of ice! Unlike, say, Frostbite Balloon Boy, he's closely modeled on the original Plushtrap.

WALK-IN FREEZER

Frost Plushtrap also has a customized environment and inhabits a frostier version of the warehouse where he's usually found. You can see him, along with Frostbite Balloon Boy and Freddy Frostbear, on the Frozen Land pinball machine in *Security Breach*.

PIRANHA PLUSHTRAP

Small but deadly.

Data File

Name: Piranha Plushtrap

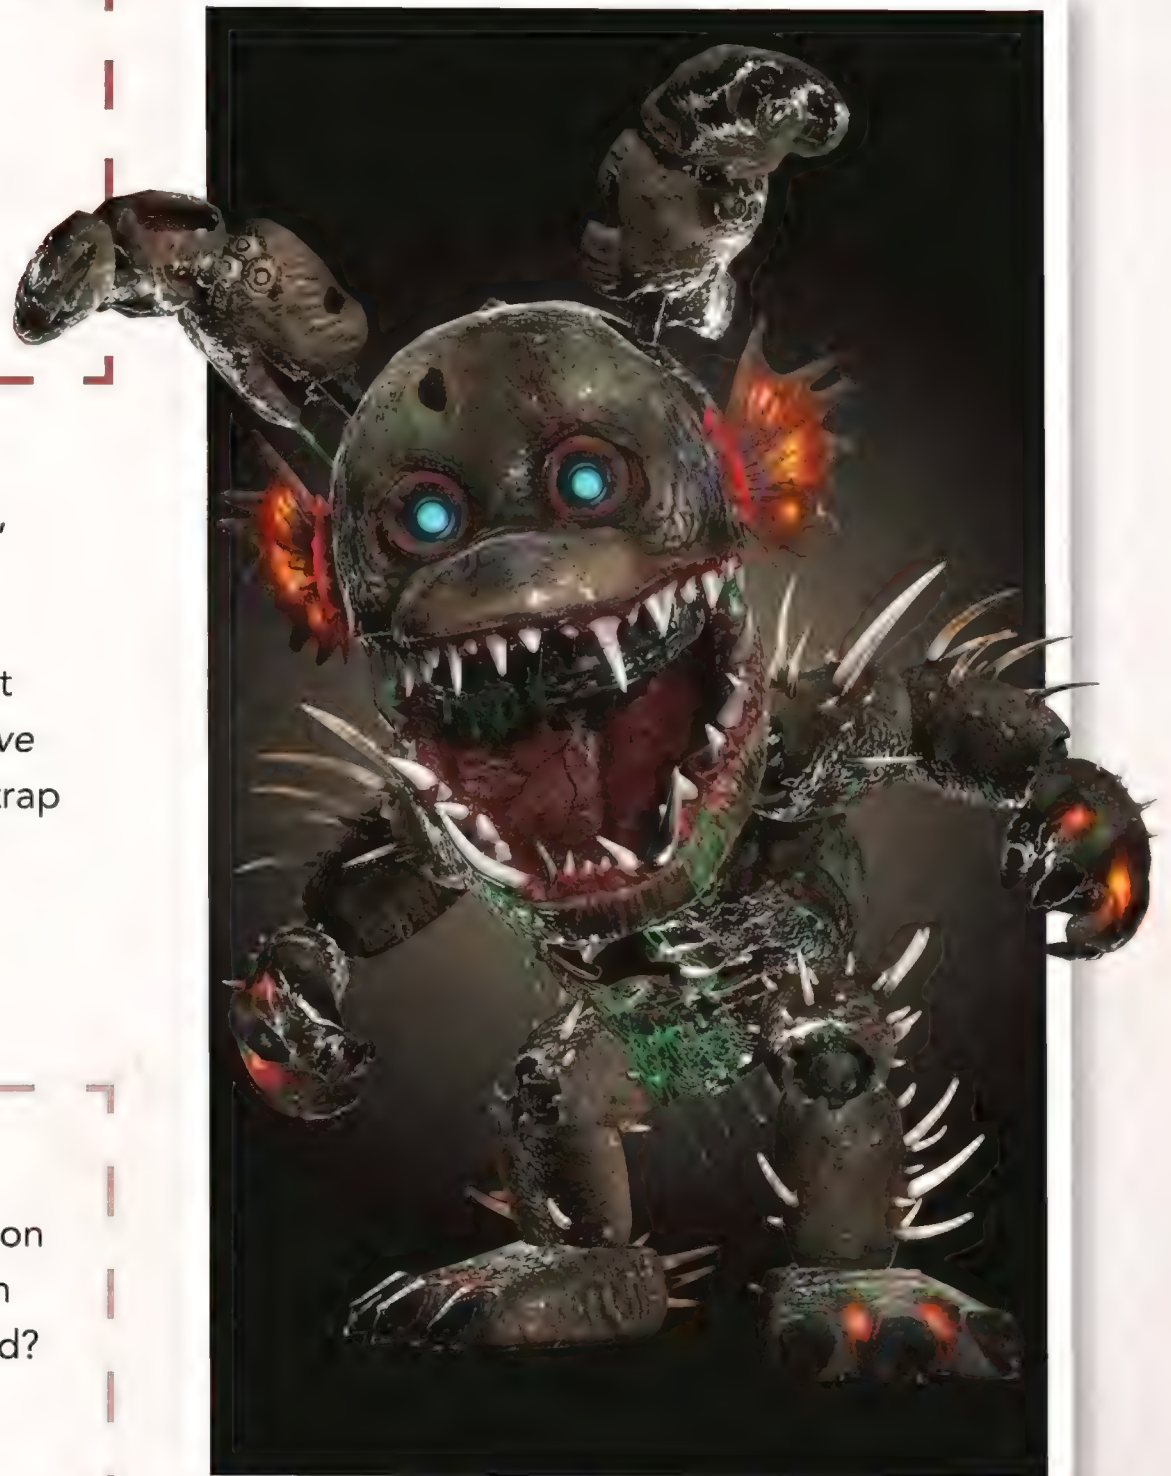

Type: Rabbit Plush Toy

Game appearances: *Five Nights at Freddy's AR: Special Delivery*

This is the Wicked Tides version of Plushtrap, released into *Special Delivery* in June 2021. He is obviously based on a piranha—the famously vicious flesh-stripping fish that's just as frightening as most of the characters in *Five Nights at Freddy's*. Combine that with Plushtrap and you have something you really wouldn't want to encounter on a trip to the beach.

SUNKEN TREASURE

Piranha Plushtrap's environment is based on a sunken pirate ship, with seaweed strewn around—and is that the ocean just beyond? Hope you can swim.

CIRCUS BABY

She gives a haunting performance.

Data File

Name: Circus Baby

Type: Animatronic Humanoid

Game appearances: *Five Nights at Freddy's: Sister Location*, *Ultimate Custom Night*, *Five Nights at Freddy's: Help Wanted*, *Five Nights at Freddy's AR: Special Delivery*, *Five Nights at Freddy's: Security Breach*

Novel appearances: *The Fourth Closet*

Short story collection appearances: "Dance with Me"

What could be more friendly and welcoming than a giant robot baby dressed up like a clown? Actually, don't answer that. Circus Baby is the lead mascot of Circus Baby's Entertainment and Rental. A teaser for *Sister Location* mentions another location that bore her name (Circus Baby's Pizza World), whose grand opening was canceled, with gas leaks being blamed.

The *Circus Baby* mini game is key to understanding what she is. After distributing cupcakes to delighted children, she tempts a little girl with an ice cream, and then her chest opens and a metal claw drags the girl inside. Circus Baby is inhabited by this restless spirit, and the objective of the game is to release her. In the process, Circus Baby manipulates the play and is rebuilt as Ennard.

ENCORE!

Circus Baby keeps coming back . . . and not just in the form of Scrap Baby. A reincarnated version of the character appears in *Ultimate Custom Night*, where her attack can be prevented by simply buying her plush toy from the Prize Corner. She can also be found in the Night Terrors level of *Help Wanted*.

Do you take requests? For songs
we mean, not murders.

Don't you just hate it when part of your face comes loose?

PLUSHBABIES

All dolled up.

Data File

Name: PlushBabies

Type: Plush Toys

Game appearances: *Five Nights at Freddy's: Help Wanted*

These plush toy versions of Circus Baby appear in the Dark Rooms level of *Help Wanted*, in a segment that takes place in the Prize Corner. There they must be repelled with the flashlight in order to survive the night. They then also reappear in the Night Terrors level. In Blacklight mode, they're based on Scrap Baby.

LOOKIN' GOOD

A variant of the PlushBabies can be found in *Curse of Dreadbear*. These are the Plushkin, and they appear in the Plushkin Patch level, where they sport masks of Freddy Fazbear, Foxy, Chica, and Balloon Boy.

SCRAP BABY

You played right into her hands . . .

Data File

Name: Scrap Baby

Type: Animatronic Humanoid

Game appearances: *Freddy Fazbear's Pizzeria Simulator*, *Ultimate Custom Night*

Circus Baby returns in *Freddy Fazbear's Pizzeria Simulator* in the form of Scrap Baby. Having been removed from *Ennard*, she's rebuilt herself in a new design with orange-and-black Halloween stylings, plus roller skates.

A TRAP FOR THE SCRAP

Scrap Baby is one of just four hostile animatronics in *Pizzeria Simulator*.

All of them behave in the same way and are attracted by sound. Unfortunately, the business of running the pizzeria makes a lot of sound, but audio lures can be used to send them into the vents.

8-BIT BABY

A little bit bad.

Data File

Name: 8-Bit Baby

Type: Animatronic Humanoid

Game appearances: *Five Nights at Freddy's AR: Special Delivery*

This arcade-themed variant of Circus Baby was released as part of the Arcade Mayhem event in *Special Delivery*. Unlike most of the variants released for that game, she's not just a reskinned version of an existing character. 8-Bit Baby is a new character who acts differently from Circus Baby.

A BIT ANGRIER

When encountered in *Special Delivery*, 8-Bit Baby is more aggressive than Circus Baby, going into haywire mode more quickly—she changes her color scheme completely when that happens. When she's defeated, she explodes into pixels.

BROILER BABY

Getting all up in your grill.

Data File

Name: Broiler Baby

Type: Animatronic Humanoid

Game appearances: *Five Nights at Freddy's AR: Special Delivery*

This Circus Baby variant is one of the Heatwave Animatronics that was released in July 2020 for *Special Delivery's* Sizzling Summer event. Her most notable feature is that she has a burning coal stove in her chest. The glow from this fire spreads out into the rest of her body.

SHOVEL OFF

The microphone usually carried by Circus Baby would fuse and malfunction in a second if Broiler Baby picked it up. So it makes sense that she has a coal shovel instead. But, er, she's only going to use that to shovel coal, right?

HEARTSICK BABY

She'll give you a heart attack.

Data File

Name: Heartsick Baby

Type: Animatronic Humanoid

Game appearances: *Five Nights at Freddy's AR: Special Delivery*

This Valentine's Day-themed Circus Baby skin is one of the Holiday Animatronics in *Special Delivery* and was released in February 2021. There are hearts everywhere on her—her cheeks, her torso . . . even on her knees!

STUPID CUPID

With her wings and bow and arrow, the design of Heartsick Baby is based on Cupid—the flying baby who shoots arrows at people to make them fall in love, remember? But we bet Heartsick Baby's arrows don't have the same effect.

ELEANOR

A friendly face.

Data File

Name: Eleanor

Type: Animatronic Humanoid

Short story collection appearances:

"To Be Beautiful," "Stitchwraith Stingers"

Eleanor closely resembles Circus Baby, but she is a bit taller. She first appears in the Fazbear Frights story "To Be Beautiful," in which she's found in a dumpster by a girl called Sarah. Out of gratitude, Eleanor gives Sarah a necklace that will make her appear more beautiful every day. But underneath this illusion, something horrible is happening . . .

STING IT BACK

Eleanor later emerges as one of the main villains of the whole Fazbear Frights series. Each book features part of an ongoing story called the Stitchwraith Stingers, in which the soul of a boy called Jake is incorporated into the Stitchwraith, and faces off against Eleanor, who feeds off the pain and suffering of others.

BALLORA

Care to dance?

Data File

Name: Ballora

Type: Animatronic Humanoid

Game appearances:

Five Nights at Freddy's:

Sister Location,

Freddy Fazbear's

Pizzeria Simulator,

Ultimate Custom

Night, Five Nights at

Freddy's AR: Special

Delivery

Short story collection

appearances:

"Dance with Me"

Ballora is one of the Funtime Animatronics. A similar model to Circus Baby, she's a ballerina with her own gallery at Circus Baby's Entertainment and Rental. She can usually be seen in a pose, standing on tiptoe with her hands above her head and her eyes closed. And she can sometimes be heard singing.

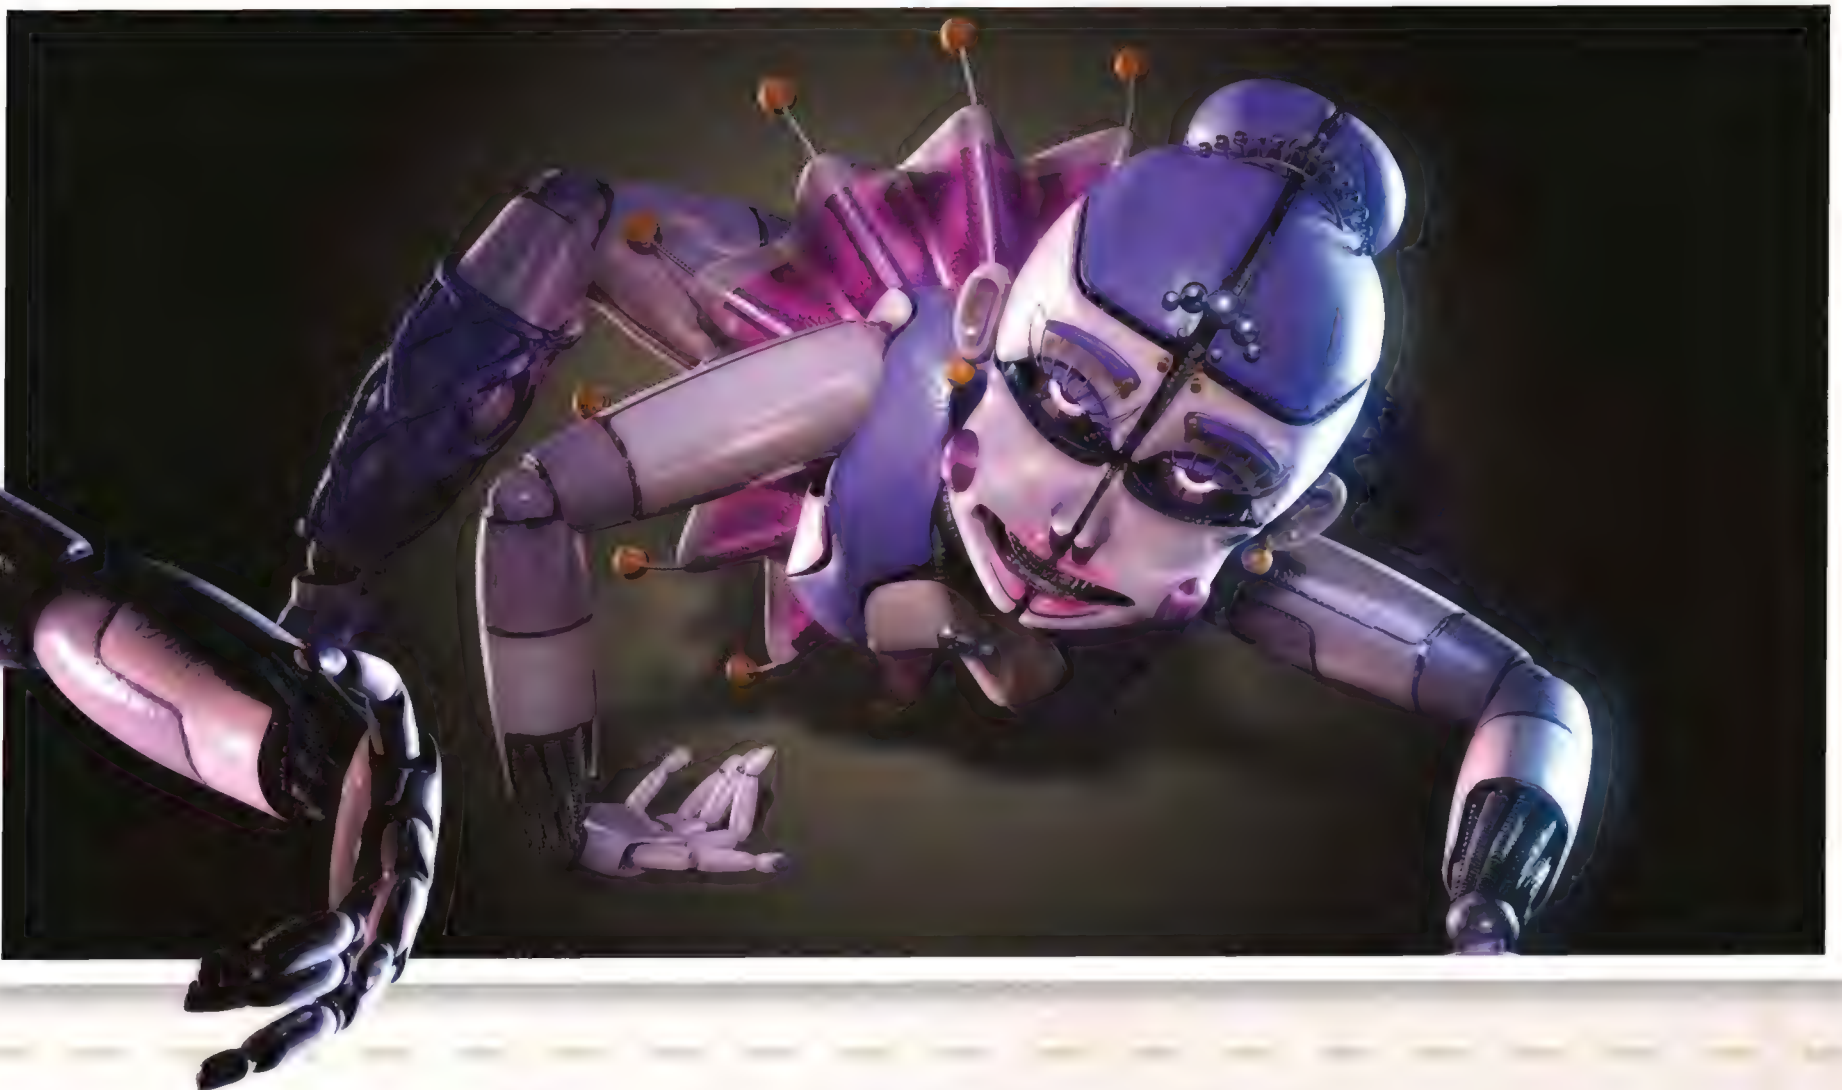

Ballora has a group of smaller animatronics called the Minireenas. In *Sister Location*, she can be seen performing on her stage on the first night. On Night 2, when you have to go through her room to reach the Breaker Room, she becomes active. Listen for how loud her music gets and try not to move when she is close by. On subsequent nights, she's dismantled and incorporated into Ennard. Circus Baby does mention that Ballora is afraid of the Scooping Room, and she's right to be!

REPEAT PERFORMANCES

Ballora can also be found in *Ultimate Custom Night* and more significantly in *Special Delivery* and its DLC *Dark Circus: Encore!*, in which she and the Minireenas are released after the final puzzle of the game is solved.

Is she asleep? Let's hope so.

And . . . what do you need those spikes for?

ARCTIC BALLORA

Dancing on ice.

Data File

Name: Arctic Ballora

Type: Animatronic Humanoid

Game appearances: *Five Nights at Freddy's AR: Special Delivery*

This Ballora skin was released into *Special Delivery* as part of the Winter Wonderland event in December 2020. She resembles an ice sculpture version of Ballora, with a tutu, crown, and elaborate collar made of icicles. Like other versions of Ballora, she mostly keeps her eyes closed. She's concentrating!

PLUM ROLE

Arctic Ballora has a special music box tune! It's a version of "Dance of the Sugar Plum Fairy," from Tchaikovsky's *Nutcracker Suite*—a ballet traditionally performed at Christmastime.

CLOCKWORK BALLORA

Don't wind her up.

Data File

Name: Clockwork Ballora

Type: Animatronic Humanoid

Game appearances: *Five Nights at Freddy's AR: Special Delivery*

The close association between wind-up mechanisms and toy ballerinas meant it was always likely Ballora would feature as one of the Steampunk Animatronics. Sure enough, she arrived in *Special Delivery's* Screampunk event in June 2021.

TEETH EVERYWHERE

Clockwork Ballora has a very different look from other versions, in part because she doesn't wear any makeup. In contrast to the smoother contours of other Balloras, Clockwork Ballora's body is largely made up of gears, including her tutu.

MINIREENA

Stay away, tiny dancer.

Data File

Name: Minireena

Type: Animatronic Humanoid

Game appearances: *Five Nights at Freddy's: Sister Location*, *Ultimate Custom Night*, *Five Nights at Freddy's: Help Wanted*, *Five Nights at Freddy's AR: Special Delivery*

Short story collection appearances:
"Room for One More"

The Minireenas accompany Ballora in most of her appearances—they're like small poseable mannequins, wearing tutus and creepy masks. In *Sister Location*, they can be seen with Ballora, and on Night 3, they can be found holding parts of her. It's on Night 4 that they cause a problem. They crawl up the outside of the springlock suit you're hiding, and if you don't know off the suit in time, they can jump scare you.

DANCING ON AND ON

The Minireenas are one of the six characters in *Ultimate Custom Night* that can only be summoned by Dee Dee. A Minireena makes a brief, occasional appearance during the Nightmare Balloon Boy and Plushtrap Dark Rooms levels of *Help Wanted*. The creatures are a hindrance in the Ballora section of *Special Delivery*.

CLOCKWORK MINIREENA

They keep ticking over.

Data File

Name: Clockwork Minireena

Type: Animatronic Humanoid

Game appearances: *Five Nights at Freddy's AR: Special Delivery*

When Ballora was given a new skin for the Screampunk event, the Minireenas also got a fresh look. This was the first variant they'd ever had, because they didn't get a skin to go with Arctic Ballora. It was released into *Special Delivery* at the same time in June 2020.

SOME NEW GEAR

The design isn't as significantly reworked as Clockwork Ballora, but the Clockwork Minireenas do have gear tutus like Ballora, plus gears at their elbow and knee joints. They also have glowing green eyes.

BIDYBAB

Circus Baby's babies.

Data File

Name: Bidybab

Type: Animatronic Humanoid

Game appearances: *Five Nights at Freddy's: Sister Location*, *Ultimate Custom Night*, *Five Nights at Freddy's: Help Wanted*, *Five Nights at Freddy's: Security Breach*

These animatronics take the form of babies and are sidekicks of Circus Baby. Two of them accompany Circus Baby onstage in the Circus Gallery in *Sister Location*. They speak in little-girl voices with sinister English accents.

CHILDPROOF LOCKS

The Bidybabs become active on Night 2. While you hide under the desk, the Bidybabs will try to get through the door and you must hold it shut. One of them does also feature in the game's Custom Night, but their appearances in *Ultimate Custom Night* and *Help Wanted* are just cameos.

ELECTROBAB

From Electric Babyland.

Data File

Name: Electrobab

Type: Animatronic Humanoid

Game appearances: *Five Nights at Freddy's: Sister Location*

Electrobab is effectively a reskinned Bidybab, with “electric” eyes that glow and flicker. It only features in the Custom Night mode of *Sister Location*, where it randomly appears in a closet in the Private Room and causes a power drain until it’s deactivated with a controlled shock.

WHERE’S THE SCARE?

Electrobab is unusual in that it doesn’t have a jump scare (something it has in common with Circus Baby)—it hampers you rather than attacking. And unlike Bidybab, it has no dialogue, so it’s hard to say anything about its personality.

MANGLE

Why you should leave repairs to the professionals.

Data File

Name: Mangle

Type: Animatronic Fox

Game appearances: *Five Nights at Freddy's 2, Five Nights at Freddy's 3, Five Nights at Freddy's 4, Ultimate Custom Night, Five Nights at Freddy's: Help Wanted, Five Nights at Freddy's AR: Special Delivery, Five Nights at Freddy's: Security Breach*

Novel appearances: *The Fourth Closet*

This was meant to be a friendlier-looking redesign of Foxy that wouldn't scare children. Unfortunately, children kept taking him apart, and eventually the staff decided to just let the kids dismantle and put him back together however they wanted. "Now he's just a mess of parts," as the phone messages say. "I think the employees refer to him as just the Mangle." Parts of Mangle have been put back in the wrong places, and others are completely missing. He also has a second, rough-looking endoskeleton head.

Mangle starts off in Kid's Cove and is quite active, becoming one of the main antagonists of *Five Nights at Freddy's 2*. Mangle is most dangerous when crawling across the ceiling, as the Freddy Fazbear Head will not deter him from there.

MANGLE'S MINI GAME

Other notable Mangle appearances include a Vent Repair level in *Help Wanted* and his own mini game in *Five Nights at Freddy's 3*. On Night 2, go to Cam 07 and click the buttons on the arcade machine in this order—top left, bottom left, top right, bottom right. This accesses the *Mangle's Quest* mini game, where you must collect his parts so he can reassemble himself, while avoiding a marauding child.

Putting his best foot forward.

Is he waving hello? It's hard to tell.

PHANTOM MANGLE

Resting in pieces.

Data File

Name: Phantom Mangle

Type: Animatronic Fox

Game appearances: *Five Nights at Freddy's 3*, *Ultimate Custom Night*, *Five Nights at Freddy's: Help Wanted*

Like the other Phantom Animatronics, Phantom Mangle is an apparition who seems to have been damaged by fire and haunts Fazbear Frights: The Horror Attraction. You can see him on Cam 04, sometimes on the ceiling.

THEY VENT THAT WAY

Phantom Mangle's head appears in the office behind the window, sometimes watching you alongside other animatronics.

The *Five Nights at Freddy's 3* levels of *Help Wanted* also feature Phantom Mangle, but here he acts very differently—appearing in the vent cameras and creating an error in the vents.

NIGHTMARE MANGLE

A Mangle of the mind.

Data File

Name: Nightmare Mangle

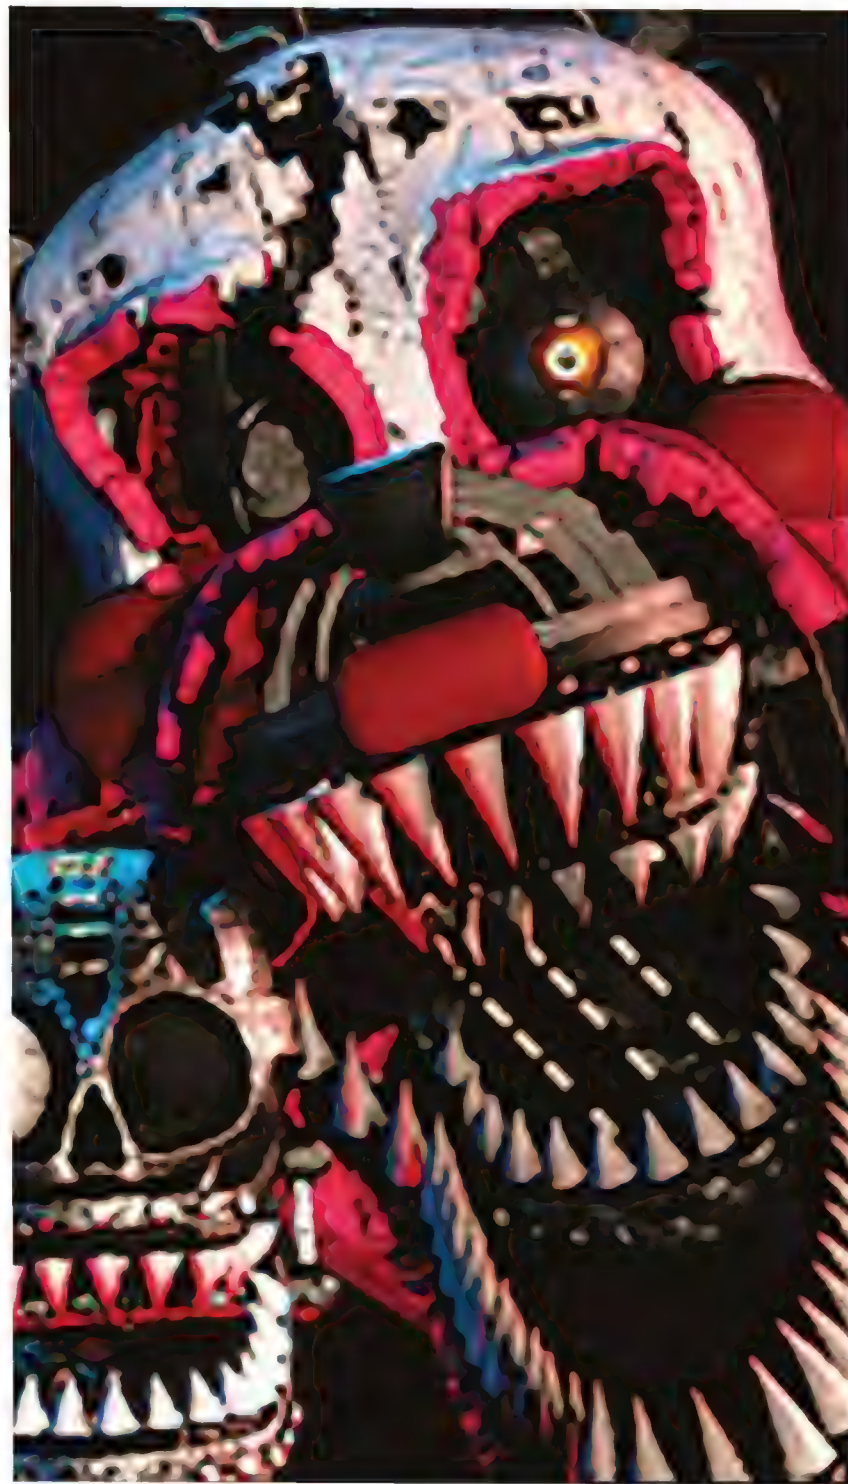

Type: Animatronic Fox

Game appearances: *Five Nights at Freddy's 4*, *Ultimate Custom Night*

The Halloween edition of *Five Nights at Freddy's 4* replaces Nightmare Foxy with Nightmare Mangle. Since the original Mangle was pretty grotesque to begin with, Nightmare Mangle isn't actually much different from him! Although his main head is more battered and has the classic double jaw of Nightmare Animatronics. Oh, and his secondary endoskeleton head is more skull-like.

STATIC INTERFERENCE

Nightmare Mangle acts in much the same way as Nightmare Foxy, but if he reaches the closet, the game becomes more difficult. Like other versions of Mangle, Nightmare Mangle emits static. This makes it much harder to hear anything else that's going on!

MAGICIAN MANGLE

Can't you magic yourself back into shape?

Data File

Name: Magician Mangle

Type: Animatronic Fox

Game appearances: *Five Nights at Freddy's AR: Special Delivery*

This was Mangle's first skin, released for the Dark Circus event in *Special Delivery* in September 2020. It was the very first set of skins to feature a version of Foxy and a version of Mangle.

I SEE YOUR SAW

Magician Mangle carries a saw—presumably intending to perform the old saw-the-lady-in-half trick! So, don't clamber into any boxes while he's around. His second head wears a set of rabbit ears, as if it's going to be pulled from a hat.

SERPENT MANGLE

A slippery character.

Data File

Name: Serpent Mangle

Type: Animatronic Fox

Game appearances: *Five Nights at Freddy's AR: Special Delivery*

One of just two skins produced for *Special Delivery's* Ancient Equinox event in March 2021 (the other being The Curse), this is an Aztec-themed version of Mangle. He holds a sun and moon in his hands to reference Aztec myths about how the sun and moon were the result of a competition between two gods.

DOUBLE HEADER

Both of Serpent Mangle's heads wear a snake headdress, and his two-headedness is why Mangle was selected for this theme. The two-headed serpent was a powerful element of mythology in ancient Mexico, and was a symbol of Quetzalcoatl—the feathered serpent god.

THE STITCHWRAITH

It's just two kids inside a big coat.

Data File

Name: The Stitchwraith

Type: Endoskeleton

Short story collection appearances:
"Stitchwraith Stingers"

The Stitchwraith is the main character of the Stitchwraith Stingers series of short stories—one appears in each of the first eleven Fazbear Frights books. It's an endoskeleton wearing a black trench coat, with a crudely drawn white mask for a face (one of its eyes is black). It was created by Dr. Phineas Taggart, who wanted to harness the energy of human emotions and believed the most powerful emotion was agony. After he completed his creation, by using haunted objects from the past filled with agony, it murdered him.

At the start of "Stitchwraith Stingers," the Stitchwraith has been dismissed by many as an urban myth—but it's also been linked with a series of murders. As a result of Taggart's experiments, it's inhabited by the souls of two dead boys—Jake, whose soul passed to the Stitchwraith when it was made, and Andrew, a murder victim. Since they don't understand what's happening to them, they accidentally guide the Stitchwraith to kill others with its agonizing touch.

SOUL SURVIVOR

When Andrew's soul is released from the Stitchwraith, the agonizing touch vanishes with him. Jake takes control of the Stitchwraith and comes into conflict with Eleanor—she is the true source of the agony and is trying to spread suffering across the world. He traps Eleanor inside the Stitchwraith and allows it to shut down in a ball pit within a derelict restaurant, before moving on himself.

It'll have you in stitches.

MR. CUPCAKE

Every day's a birthday party with this guy.

Data File

Name: Mr. Cupcake

Type: Animatronic Cake

Game appearances: *Five Nights at Freddy's*,
Five Nights at Freddy's 2, *Five Nights at Freddy's 3*,
Ultimate Custom Night, *Five Nights at Freddy's*:
Help Wanted, *Five Nights at Freddy's AR: Special*
Delivery, *Five Nights at Freddy's: Security Breach*

Some call him Cupcake, but we prefer the more respectful Mr. Cupcake. In his standard form, he's a cupcake with pink frosting, a single candle, buck teeth, and eyes. He's usually carried by Chica, and he's in most of the games in some form or other: *Five Nights at Freddy's 4* and *Freddy Fazbear's Pizzeria Simulator* feature variant Cupcakes, so the only game with no Mr. Cupcake of any kind is *Sister Location*.

Mr. Cupcake rarely does anything to affect the game—he's just there! *Five Nights at Freddy's 3* features the *Chica's Party* mini game, which requires you to collect Shadow Cupcakes.

In the Chica's Parts and Service level of *Help Wanted*, Mr. Cupcake hops off his plate and must be returned there by you—and in Blacklight mode he can jump scare you.

TRY ALL OUR GREAT FLAVORS

Five Nights at Freddy's 4 features Nightmare Cupcake (of course), while *Freddy Fazbear's Pizzeria Simulator* includes the sharp-toothed Funtime Cupcake. As mentioned, the Shadow Cupcakes are in *FNaF3* along with the Golden Cupcake. *FNaF2* introduced the toothless Toy Cupcake. *Special Delivery* also brought us various Mr. Cupcake skins—8-Bit Cupcake, Torch Cupcake, Scorching Cupcake, Calavera Cupcake, and Moldy Cupcake.

Make a wish before you blow out his candle. Maybe, "Please let me live."

Don't go to sleep on a full stomach—you may have weird dreams . . .

MEDIOCRE MELODIES

Striking some of the right notes.

Data File

Name: Mediocre Melodies

Type: Animatronic Animals

Game appearances: *Freddy Fazbear's Pizzeria Simulator*, *Ultimate Custom Night*, *Five Nights at Freddy's: Security Breach*

The Mediocre Melodies are a group of plastic animatronics who appear in *Freddy Fazbear's Pizzeria Simulator*. With the exception of Orville Elephant, you can purchase them from the Stan's Budget Tech section of the catalog as attractions for your pizzeria. Buying all five unlocks the Mediocre Melodies achievement.

REAL IMITATIONS

What's interesting about the Mediocre Melodies is they're not part of the Freddy Fazbear or Circus Baby groups. They look like they might be a deliberate attempt to mimic the Fazbear animatronics. Because those have always been such a successful part of the Fazbear Entertainment establishments, obviously.

HAPPY FROG

A big fish in a small pond.

Data File

Name: Happy Frog

Type: Animatronic Frog

Game appearances: *Freddy Fazbear's Pizzeria Simulator*, *Ultimate Custom Night*, *Five Nights at Freddy's Security Breach*

Here's an idea that hasn't already been done at Freddy Fazbear's Pizza or any of its associated establishments—an animatronic frog! Happy Frog has a humanoid body and a frog-like head. The fact she carries a microphone marks her out as the leader of the Mediocre Melodies.

CRIMINALLY UNDERRATED

When she returns for *Ultimate Custom Night*, Happy Frog has dialogue that gives us more of a sense of her personality. In particular, she feels underestimated. She boasts of her "ninja skills," and believes she deserves a higher status than she's received—"Move over, Freddy Fazbear! Happy Frog is the new star of the show!"

MR. HIPPO

Don't get him started.

Data File

Name: Mr. Hippo

Type: Animatronic Hippo

Game appearances: *Freddy Fazbear's Pizzeria Simulator*,
Ultimate Custom Night, *Five Nights at Freddy's: Security Breach*

Mr. Hippo? Yes, I met Mr. Hippo once. It was about five years ago—or was it six? Yes, maybe it was six. Anyway, he was in the pizzeria, on the stage where he usually is, and I asked him what that box behind him was. And he said, "What box?" And I said, "That box, there." And he said, "Gosh, I forgot it was there. There's an interesting story behind that box . . ."

SKIP TO THE END

Mr. Hippo's dialogue in *Ultimate Custom Night* reveals the key aspect of his personality—he tells incredibly long, rambling stories with no clear point to them. This makes him the worst character to be jump scared by—you have to listen to his stories in full before you can go back to the main menu. Mr. Hippo also appears in *Security Breach*—in the form of a magnet received from the Wind-Up Gifts, and in one of the endings.

PIGPATCH

Banjo pursue-ee.

Data File

Name: Pigpatch

Type: Animatronic Pig

Game appearances: *Freddy Fazbear's Pizzeria Simulator*, *Ultimate Custom Night*, *Five Nights at Freddy's: Security Breach*,

Short story collection appearances: "The Puppet Carver"

Pigpatch is the only member of the Mediocre Melodies to demonstrate musical ability, as he carries a banjo. If you encounter Pigpatch in *Ultimate Custom Night*, you may get to know the sound of his banjo better than you'd like to. He plays a little flourish on it after each time he speaks—usually a mocking comment at your expense.

SOUND JUDGMENT

In *Ultimate Custom Night*, Pigpatch and Mr. Hippo can both reliably be held in place by an audio lure—using the heater also works on both characters. Plus, Pigpatch pops up in *Security Breach* in the arcade game *Funtime Fantasy*.

ORVILLE ELEPHANT

The magical Mediocre Melody.

Data File

Name: Orville Elephant

Type: Animatronic Elephant

Game appearances: *Freddy Fazbear's Pizzeria Simulator*, *Ultimate Custom Night*

Orville is a magician and a good friend of Mr. Hippo—as you'd know if you've listened to any of Mr. Hippo's interminable stories. He's unique among the Mediocre Melodies in as much as he must be bought from the Rare Finds Auction section of the catalog, and he's more expensive.

OBSTINATE ORVILLE

In *Ultimate Custom Night*, Orville is the toughest of the Melodies to repel. The audio lure won't usually work, though you can use the heater against him as you can for the others. Strangely, he does not mention Mr. Hippo in any of his jump scare lines. Maybe they're not such great friends after all . . .

NEDD BEAR

The off-brand bear.

Data File

Name: Nedd Bear

Type: Animatronic Bear

Game appearances: *Freddy Fazbear's Pizzeria Simulator*, *Ultimate Custom Night*, *Five Nights at Freddy's: Security Breach*

Nedd Bear looks a little familiar. Is it possible he's an imitation of Freddy Fazbear—altered just enough to avoid any copyright issues? But he is wearing a regular tie instead of a bow tie . . . so obviously completely different. Unlike most of the Mediocre Melodies, Nedd Bear has an Entertainment score of more than 4. He has 5, but he also comes with a Liability score of 1.

DEAD BECAUSE OF NEDD

"Don't you hate gettin' killed by obscure secondary characters?" he says when he strikes in *Ultimate Custom Night*. And yes, yes, we do. In *Security Breach*, he appears as the star of his own arcade game, *Nedd Bear: The Space Soldier*.

ROXANNE WOLF

She's Rox, and she rocks.

Data File

Name: Roxanne Wolf

Type: Animatronic Wolf

Game appearances: *Five Nights at Freddy's: Security Breach*

At Freddy Fazbear's Mega Pizzaplex, the eerie, not-quite-put-together-right animatronics you've come to expect from a Fazbear establishment are things of the past. The Glamrock Animatronics are cool, sophisticated, perfectly polished pieces of engineering . . . but it doesn't last! Roxanne Wolf—who plays keytar in the band—is seen to be very vain and looks in the mirror a lot. So when she gets badly damaged during the events of *Security Breach*, with much of her endoskeleton exposed (including her eyes), she's devastated.

Part of Gregory's mission in *Security Breach* is to take parts from the other Glamrock Animatronics and use them to upgrade Glamrock Freddy. Roxanne's eyes can be removed to enable you to see through walls, but this doesn't stop Roxanne! In some ways, it makes her more dangerous, since certain tactics no longer work on her.

SINK ABOUT IT

Roxanne is one of the main villains of *Security Breach*—under the control of Vanny. Plus, Roxanne's area of the Pizzaplex (Roxy Raceway) was built over a sinkhole that contains the remains of what seems to be Freddy Fazbear's Pizza Place. Never build anything over the ruins of a haunted building, kids.

Who's afraid of the big bad wolf?

Can you please stick to shredding on the keytar, Rox?

MONTGOMERY GATOR

Hey, little guy!

Data File

Name: Montgomery Gator

Type: Animatronic Alligator

Game appearances: *Five Nights at Freddy's AR: Special Delivery*, *Five Nights at Freddy's: Security Breach*

Montgomery is one of the Glamrock Animatronics, and perhaps the most glammed up of them all. For starters, he wears star-shaped sunglasses! And like other members of the band, his style also has punk elements—check out his Mohawk haircut. He plays bass guitar and is prone to throwing rock shapes. He seems to have a rivalry with Glamrock Freddy, perhaps feeling he should be the star of the band.

Montgomery's area of the Pizzaplex is a minigolf course called Monty's Gator Golf, and he mostly stays there during *Security Breach*. Like Roxanne, he sustains serious damage but keeps on going—even though he's lost his legs and his sunglasses (which probably annoys him more).

THE BONNIE MYSTERY

The Pizzaplex used to have a Glamrock version of Bonnie, too (as we can see from the existence of the Bonnie Bowl area), but there's no Glamrock Bonnie in the game. Further investigation reveals that Bonnie was badly damaged, removed from service, and then replaced by Montgomery Gator. And a security log states Bonnie was last seen entering Monty's Gator Golf.

That's one snappy dresser!

Hitting all the low notes.

TRASH AND THE GANG

You could build a better animatronic yourself.

Data File

Name: Trash and the Gang

Type: Makeshift "Animatronics"

Game appearances: *Freddy Fazbear's Pizzeria Simulator*, *Ultimate Custom Night*

These guys are terrible. When you start running Freddy Fazbear's Pizza Place, Trash and the Gang are available to buy from the catalog's Dumpster Diver Weekly section for just \$10 each (\$15 for Mr. Hugs). They're all made from junk you might find around the house—trash cans, buckets, sticks, etc.

WHICH ONE'S TRASH?

None of the animatronics (there are five in the gang) is actually called Trash. Their names are Bucket Bob, Mr. Can-Do, Mr. Hugs, No. 1 Crate, and Pan Stan. All of them appear in *Ultimate Custom Night*, except Pan Stan. This is fine, since he is the boring one.

OLD MAN CONSEQUENCES

Reeling you in.

Data File

Name: Old Man Consequences

Type: ?

Game appearances: *Ultimate Custom Night*

Old Man Consequences is a red, primitively animated fisherman who first appears in an ending in the *FNaF World* RPG. In *Ultimate Custom Night*, he presents you with a simple fish-catching mini game. If you don't complete the game quickly enough, your screen will lock.

ACTIONS HAVE CONSEQUENCES

If you set all characters to zero and set Old Man Consequences to level one, then catching a fish will take you to Old Man Consequences sitting by his lake. "Come sit with me a while," he says. "Leave the demon to his demons. Rest your own soul. There is nothing else."

SUN

He's pretty bright.

Data File

Name: Sun

Type: Animatronic Humanoid

Game appearances: *Five Nights at Freddy's: Security Breach*

The Superstar Daycare section of Freddy Fazbear's Mega Pizzaplex in *Security Breach* is a huge soft-play area with slides, climbing walls, and ball pits. Sun acts as the attendant here, looking after and playing with the kids who've been dropped off. He appears on ads for Sunnydrop "energizing" candy.

KEEPING IT LIGHT

Sun is a cheerful guy who seems to enjoy engaging with children. But he can get sort of intense about it, as seen when he insists on Gregory staying in Superstar Daycare. He gets intense about keeping the lights on at all times, too—but to be fair, there's a good reason for that . . .

MOON

Good night, children.

Data File

Name: Moon

Type: Animatronic Humanoid

Game appearances: *Five Nights at Freddy's: Security Breach*

When the lights go out, Sun transforms into Moon. In a Jekyll-and-Hyde-type situation, part of his face goes dark and the crescent moon area lights up. He then becomes a threat to children inside Superstar Daycare—chasing them and punishing them for breaking rules (for example, making a mess).

DROPPING OFF TO SLEEP

Like Sun, Moon is also a candy mascot for Moondrop “sleepy-time” candy, which sounds more than a little sinister. Once the power to Superstar Daycare has been shut down, Moon moves around the Pizzaplex. In particular, you need to watch out for him when the lights shut down every hour.

MUSIC MAN

You know what's underrated? Silence.

Data File

Name: Music Man

Type: Animatronic . . . Spider? Maybe?

Game appearances: *Freddy Fazbear's Pizzeria Simulator*,
Ultimate Custom Night, *Five Nights at Freddy's: Security Breach*

Music Man has six legs and two arms, which he uses to play cymbals. In *Pizzeria Simulator*, you can either buy him from the Rare Finds Auction section or find him in the *Ballpit Tower* mini game. When this game is played, sometimes Music Man can be found in it for no cost.

KEEP IT DOWN

Another version of Music Man, named DJ Music Man, appears in *Security Breach*. This one is more spidery in the sense that he crawls along using all his legs, but less spidery because he only has six legs. He operates the DJ booth in the West Arcade.

EL CHIP

Is it chili in here?

Data File

Name: El Chip

Type: Animatronic Beaver

Game appearances: *Freddy Fazbear's Pizzeria Simulator*, *Ultimate Custom Night*, *Five Nights at Freddy's: Security Breach*

El Chip wears a sombrero and carries a mandolin. He's the mascot of an eatery that's never actually seen—the Mexican restaurant, El Chip's Fiesta Buffet. However, he can be purchased from the Rare Finds Auction section of the catalog. You need him, Music Man, and Funtime Chica on the stage to unlock the Posh Pizzeria achievement. In *Security Breach*, El Chip has his own restaurant at the Pizzaplex.

AD BLOCKER

In *Ultimate Custom Night*, El Chip appears in the form of a pop-up ad promoting El Chip's Fiesta Buffet, distracting you. Failing to close the ad before it ends also carries the risk of an attack from another character.

LITTLE JOE

Just a boy who loves lollies.

Data File

Name: Little Joe

Type: Animatronic Human

Game appearances: *Five Nights at Freddy's: Sister Location*, *Freddy Fazbear's Pizzeria Simulator*

Little Joe is one of a number of miniature animatronics found in Sister Location in the Circus Control area. He has old-fashioned "little boy" clothes, including a bow tie and a striped hat.

A SUCKER FOR LOLLIES

As we learn in *Freddy Fazbear's Pizzeria Simulator*, Little Joe is the mascot of Lally's Lollies—a company that may offer to buy advertising in your restaurant. "Have a lollie good time with Lally's Lollies!" is their slogan.

MAGICIAN

A little bit of magic.

Data File

Name: Magician

Type: Animatronic Human

Game appearances: *Five Nights at Freddy's: Sister Location*, *Ultimate Custom Night*

Like Little Joe, Magician also appears in *Circus Control* in *Sister Location*—he's a small doll with a magician's outfit and magic wand. And like Little Joe, he doesn't really do anything. Magician's appearance in *Ultimate Custom Night* is much like his earlier one—you can see him on the control console of the *Sister Location* office.

TOYING WITH YOU

Is Magician an animatronic or just a toy? He doesn't display any kind of intelligence or movement, and might just have been put on the console as a mascot. But we know better than to make assumptions about anything in the FNaF world . . .

EGG BABY

Is this some kind of yolk?

Data File

Name: Egg Baby

Type: Machine

Game appearances: *Freddy Fazbear's Pizzeria Simulator*, *Ultimate Custom Night*

Egg Baby is . . . um . . . how exactly do you describe Egg Baby? It's a machine in the shape of a baby, with a smaller version of itself—with an identical face but no clothes—inside its body. And the smaller one has a red sphere inside itself. Clear?

THAT'S INSANE

Egg Baby can be purchased in *Pizzeria Simulator* from the Rare Finds Auction section—it is crucial to unlocking the Insanity Ending. Turn the blue button by the monitor on and off, and you'll see blueprints (presumably stored in Egg Baby, which seems to be a scanner) and then a Certificate of Insanity, accompanied by a crucial message . . .

HUMAN HEADS

Get a head. Or three.

Data File

Name: Human Heads

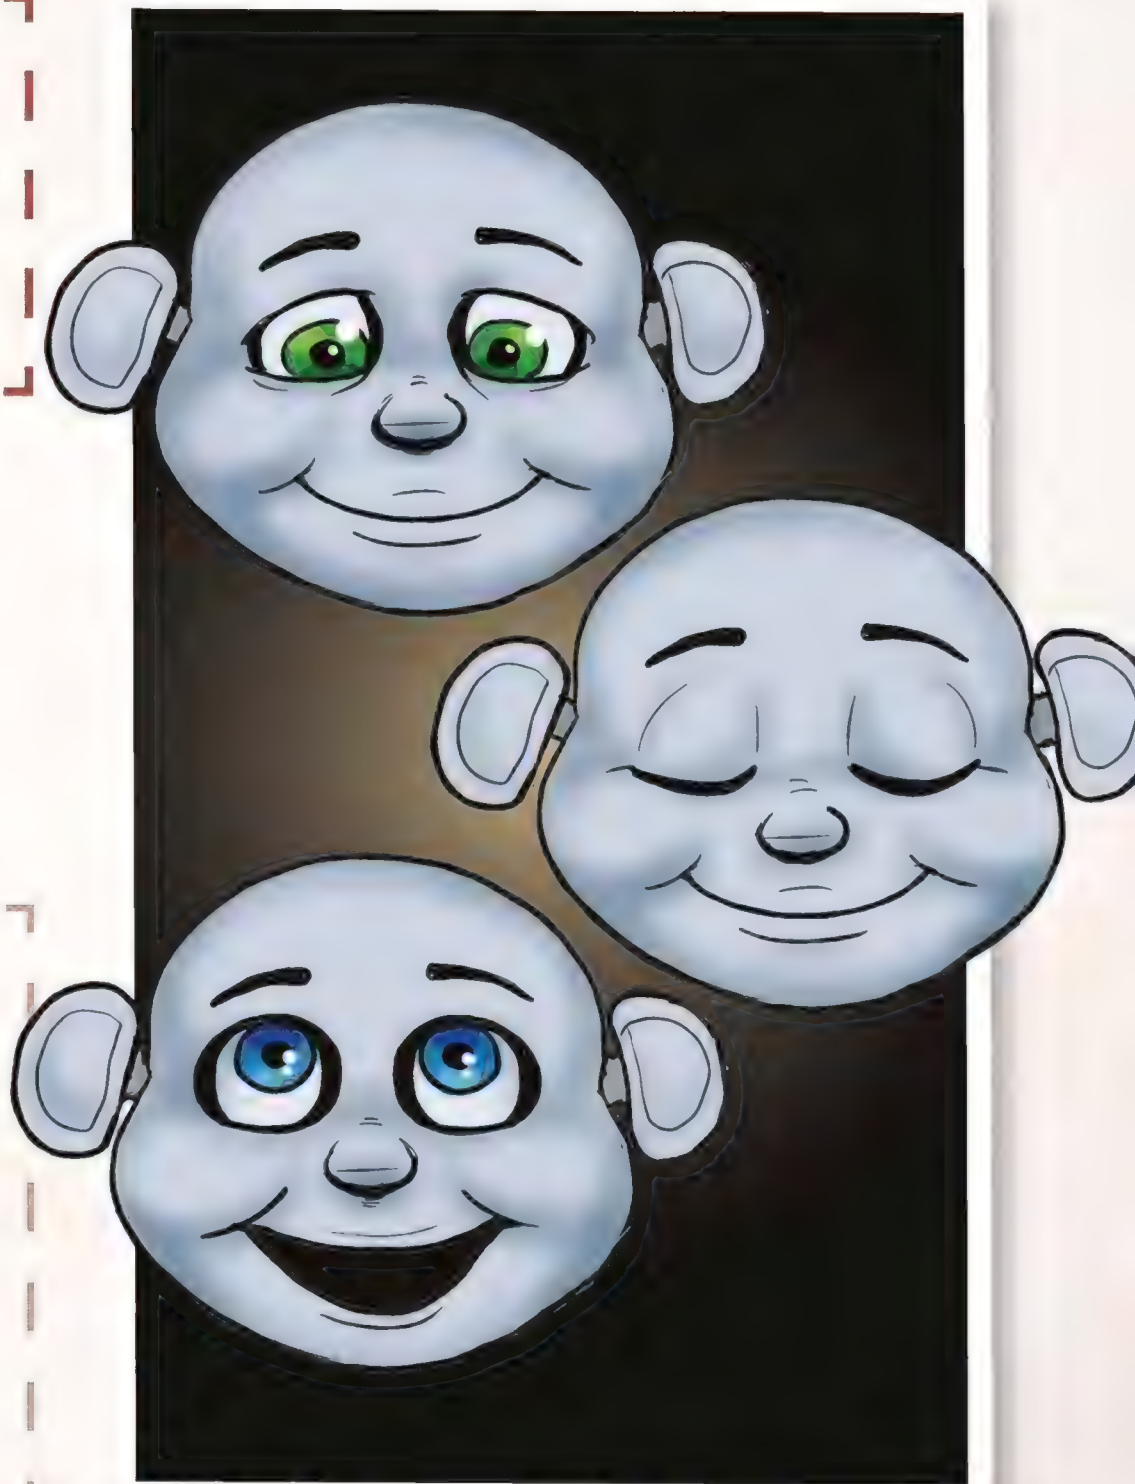

Type: Animatronic Heads

Game appearances: *Five Nights at Freddy's: Sister Location*, *Ultimate Custom Night*

The Human Heads appear in the Primary Control Module in *Sister Location*. There are three of them fixed onto poles. Two of them blink, while the third appears to be asleep. They reappear in the Sister Location office in *Ultimate Custom Night*.

SIGNS OF LIFE

The Human Heads are the only characters in Circus Control who appear to be actual animatronics, as one of them shows signs of movement. It's possible the others are just toys. But then, in the world of Freddy Fazbear, who knows what might come to life?

HANDUNIT

Not always that handy.

Data File

Name: HandUnit

Type: AI Device

Game appearances: *Five Nights at Freddy's: Sister Location*, *Five Nights at Freddy's: Help Wanted*

The Handyman's Robotics and Unit Repair System Model 5 (or just "HandUnit" if you can't remember or be bothered to say all that) is an interactive guide to help train new employees of Circus Baby's Entertainment and Rental. It also has some control over the building, including the ability to open and close maintenance hatches.

UNDERHANDED

HandUnit is not entirely reliable and may give totally wrong advice. It also serves as the host of The Freddy Fazbear Virtual Experience in *Help Wanted*, where it makes light of the many atrocities that have occurred at the various Fazbear establishments and continues to claim that nothing is amiss.

VENDOR BOTS

Don't waste all your money on them.

Data File

Name: Vendor Bots

Type: Animatronic Humanoids

Game appearances: *Freddy Fazbear's Pizzeria Simulator*, *Ultimate Custom Night*

Five vending machines are available to customize the pizzeria in *Freddy Fazbear's Pizzeria Simulator*: Fruit Punch Clown, Lemonade Clown, Candy Cadet, Prize King, and Gumball Swivelhands. All of them come with a mini game—with the exception of Gumball Swivelhands, which is just a gumball machine. But it's the cheapest of the Vendor Bots at \$125.

Also available from the Stan's Budget Tech section for \$310 is Candy Cadet—a space-age robot that dispenses candy in exchange for a Faz-Token. This is all you have to do to play its mini game, and then Candy Cadet will either promise to tell you a story next time, or (more rarely) actually tell one of three creepy stories. Candy Cadet makes a small appearance in *Ultimate Custom Night*.

Lemonade Clown and Fruit Punch Clown are very similar—both are available from the Smiles and

Servos, Inc. section of the catalog. They both dispense soft drinks, but Lemonade Clown costs \$390, whereas Fruit Punch Clown is \$490. (Guess fruit punch is nicer than lemonade?) Both come with a similar mini game where you play as the character and have to scare children.

Finally, there's the Prize King—a prize-capsule machine. This is very expensive and costs \$7,770 from the Rare Finds Auction section—but in its mini game, you can obtain prize capsules and the chance to win Funtime Chica for free.

TWISTED WOLF

Who's afraid of the big bad wolf? We are.

Data File

Name: Twisted Wolf

Type: Animatronic Wolf

Game appearances: *Freddy Fazbear's Pizzeria Simulator*, *Ultimate Custom Night*

Novel appearances: *The Twisted Ones*

Twisted Wolf is one of the four Twisted Animatronics created by William Afton with the purpose of killing Charlotte Emily. It's the only one that doesn't have a counterpart among the original animatronics.

Like all the Twisted Animatronics, Twisted Wolf can appear more organic due to hallucinations induced by William's technology. It morphs between a realistic wolf and a more artificial one, disorienting its victims. Parts of its endoskeleton are visible down its left side, and it's able to trap victims in a cavity in its chest.

WOLF VS. FOX

Twisted Wolf appears in *The Twisted Ones* after digging itself out of the ground in the backyard of a tornado-ruined house. It attacks a woman in the woods and traps her in its chest cavity. When confronted by Charlie, it releases the woman and flees. Twisted Wolf returns to chase Charlie and the others in an underground pizzeria, but is attacked and destroyed by Foxy, who, along with the other original animatronics, seeks revenge on William Afton.

He doesn't need a full moon to appear, unfortunately.

It looks like his arm might twist right off. Unfortunately it won't.

WILLIAM AFTON

Basically, it's all his fault.

Data File

Name: William Afton

Type: Human (at first)

Game appearances: *Five Nights at Freddy's*, *Five Nights at Freddy's 2*, *Five Nights at Freddy's 3*, *Five Nights at Freddy's 4*, *Five Nights at Freddy's: Sister Location*, *Freddy Fazbear's Pizzeria Simulator*, *Ultimate Custom Night*, *Five Nights at Freddy's: Help Wanted*, *Five Nights at Freddy's: Security Breach*

Novel appearances: *The Silver Eyes*, *The Twisted Ones*, *The Fourth Closet*

Short story collection appearances: "The Man in Room 1280," "Stitchwraith Stingers"

You don't see a lot of William Afton in *Five Nights at Freddy's*, but his presence hangs over the whole series. At the start of *Sister Location*, a conversation can be heard where a member of the Fazbear Entertainment board asks a maker of animatronics to explain some odd design choices. After the designer explains Circus Baby's ability to sing, dance, inflate balloons, and dispense ice cream, the board member replies, "With all due respect, those aren't the design choices we were curious about, Mr. Afton."

He kills children in the *Five Nights* at *Freddy's* 2 mini games, hides from ghosts inside the Spring Bonnie suit and dies in *Five Nights at Freddy's* 3, and is present at the diner in *Five Nights at Freddy's* 4.

COMING BACK AGAIN . . . AND AGAIN

Afton appears time after time in the novel trilogy, each appearance more disturbing than the last.

The suit's kinda holding him together.

Dude, your brain is showing.

BURNTRAP

Why you should always know where the fire exit is.

Data File

Name: Burntrap (Not Canon Name)

Type: Animatronic Rabbit

Game appearances: *Five Nights at Freddy's: Security Breach*

Burntrap only appears as a final boss in a particular ending of *Security Breach*. To access this ending, you have to make all the upgrades to Glamrock Freddy and then use the old elevator to reach the submerged office.

HAVE WE MET BEFORE?

He appears to be another incarnation of Springtrap, animated by . . . whatever was inside Springtrap, which seemingly lived on in the form of Glitchtrap. The Spring Bonnie suit has, by this time, become even more tattered and degraded—and, as the name suggests, burned. He does still have one mostly intact foot though, so that's something.

THE BLOB

Has a real sense of togetherness.

Data File

Name: The Blob (Not Canon Name)

Type: Animatronic Amalgamation

Game appearances: *Five Nights at Freddy's: Security Breach*

The Blob also features in the ending of *Security Breach* where you face Burntrap. It's the largest animatronic yet seen in a *FNaF* game, and that's because it's a massive amalgamation of damaged animatronics.

MIX AND MATCH

Like Molten Freddy, the Blob may have its origins in Ennard—but with even more of the other characters combined into its body. It has the face of Funtime Freddy, and other visible parts come from Chica, Bonnie, Mangle, Circus Baby, and the Puppet. So maybe this is where they all ended up . . .

THE CRYING CHILD

A life of sorrow and tragedy.

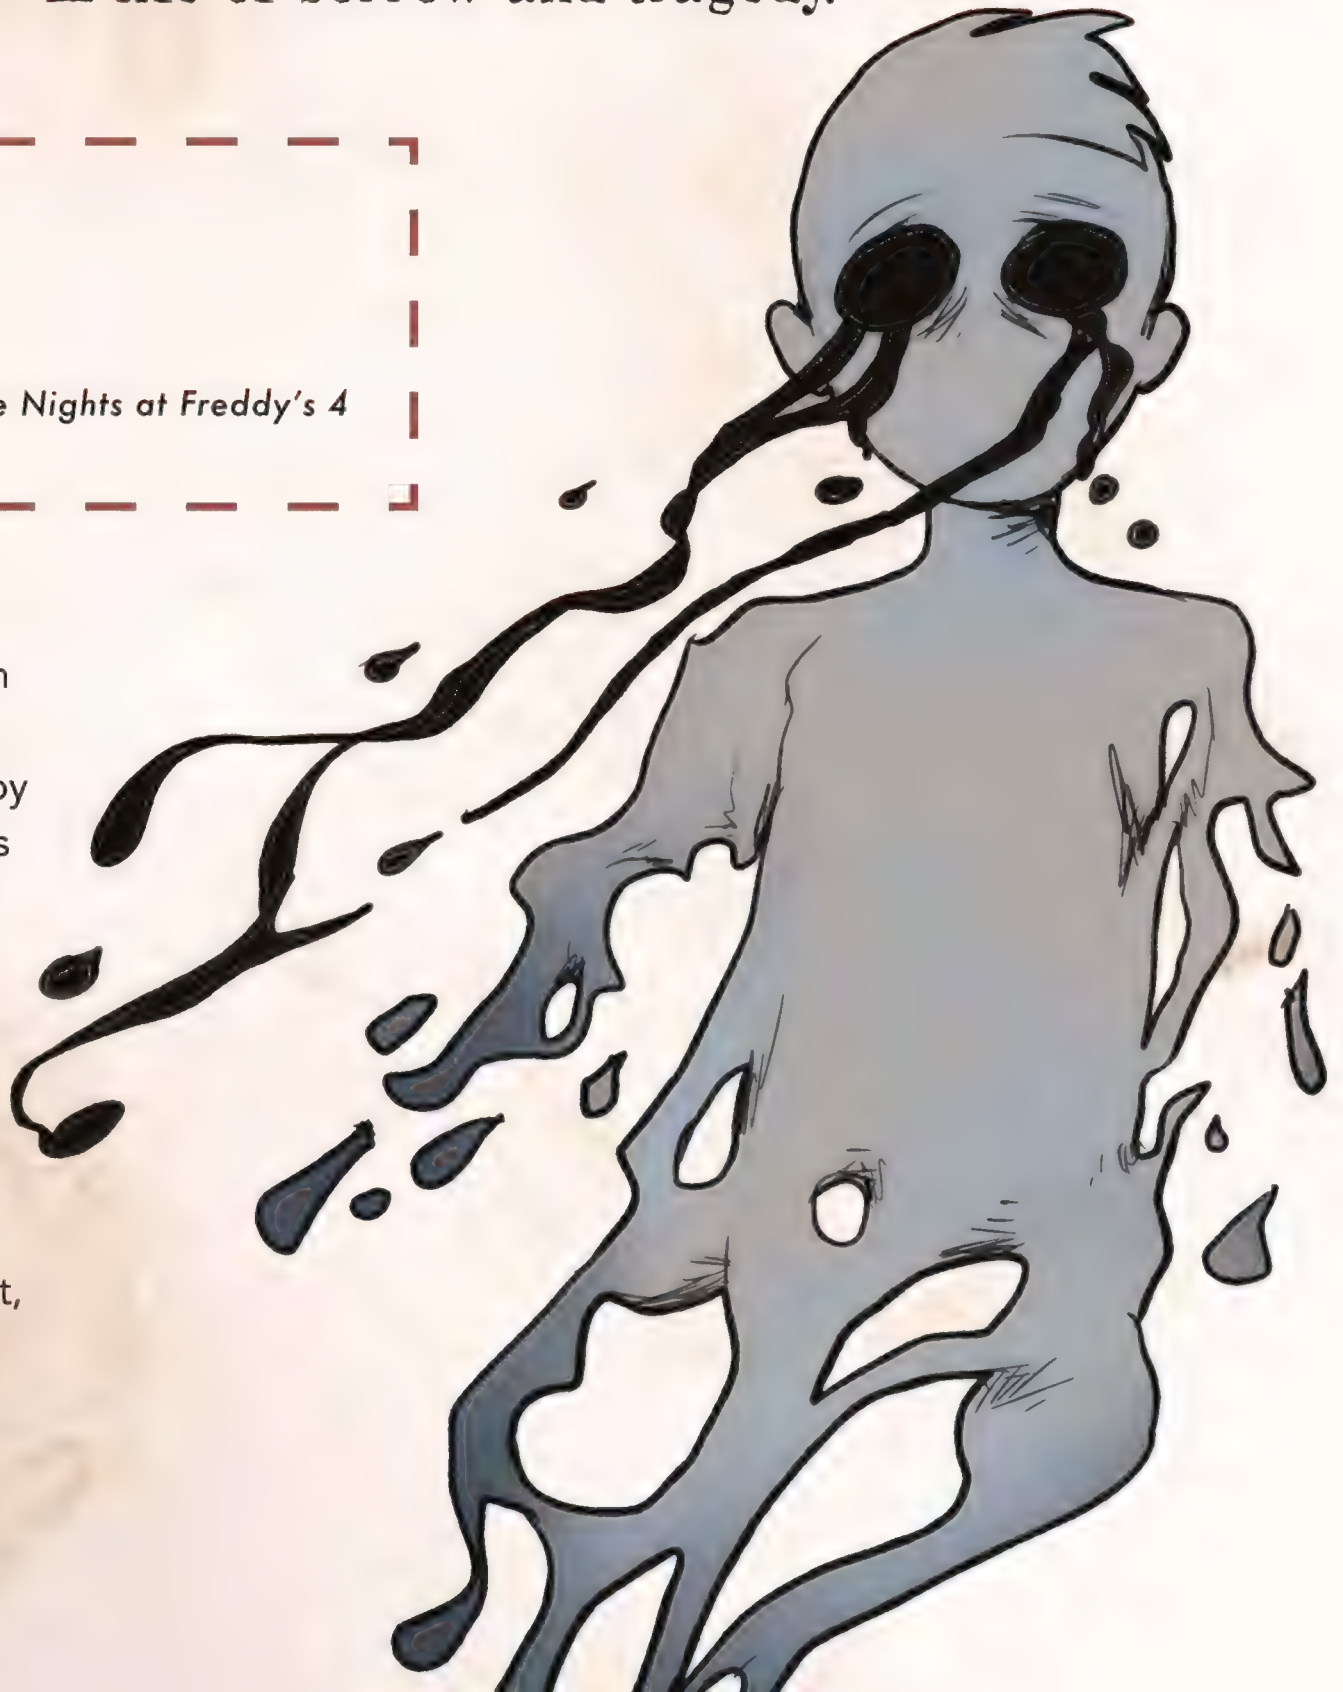

Data File

Name: The Crying Child

Type: Human

Game appearances: *Five Nights at Freddy's 4*

The Crying Child is the main character in *Five Nights at Freddy's 4*. He's terrorized by the Nightmare Animatronics in his bedroom, but his real story is told in end-of-night mini games. In them, we see the child locked in his room by his bullying big brother. The child is comforted by his Fredbear plush, and when he gets out, his brother jump scares him with a Foxy mask.

The mini games on the second and third nights establish the child's dislike of Fredbear's Family Diner due to seeing something traumatizing.

"Don't you remember what you saw?" On the way home, he hears stories of how the animatronics come to life at night and kill people, which distresses him even more. On the fourth night, we see the child locked in the Parts and Service Room, surrounded by pieces of animatronics.

CRUNCH TIME

On the fifth night, we see the tragic events at the diner on the Crying Child's birthday. His brother and his friends force the child's head into Fredbear's mouth, where the child's head becomes stuck before the animatronic bites down. A final sequence suggests the child later dies of his injuries—the Fredbear plush tells him, "You're broken. We are still your friends . . . I will put you back together."

When your only friend is a plush version of a creepy robot.

He just can't tear himself away.

ELIZABETH AFTON

Bringing new meaning to the phrase “spoiled child.”

Data File

Name: Elizabeth Afton

Type: Human

Game appearances: *Five Nights at Freddy's: Sister Location*, *Freddy Fazbear's Pizzeria Simulator*

Novel appearances: *The Fourth Closet*

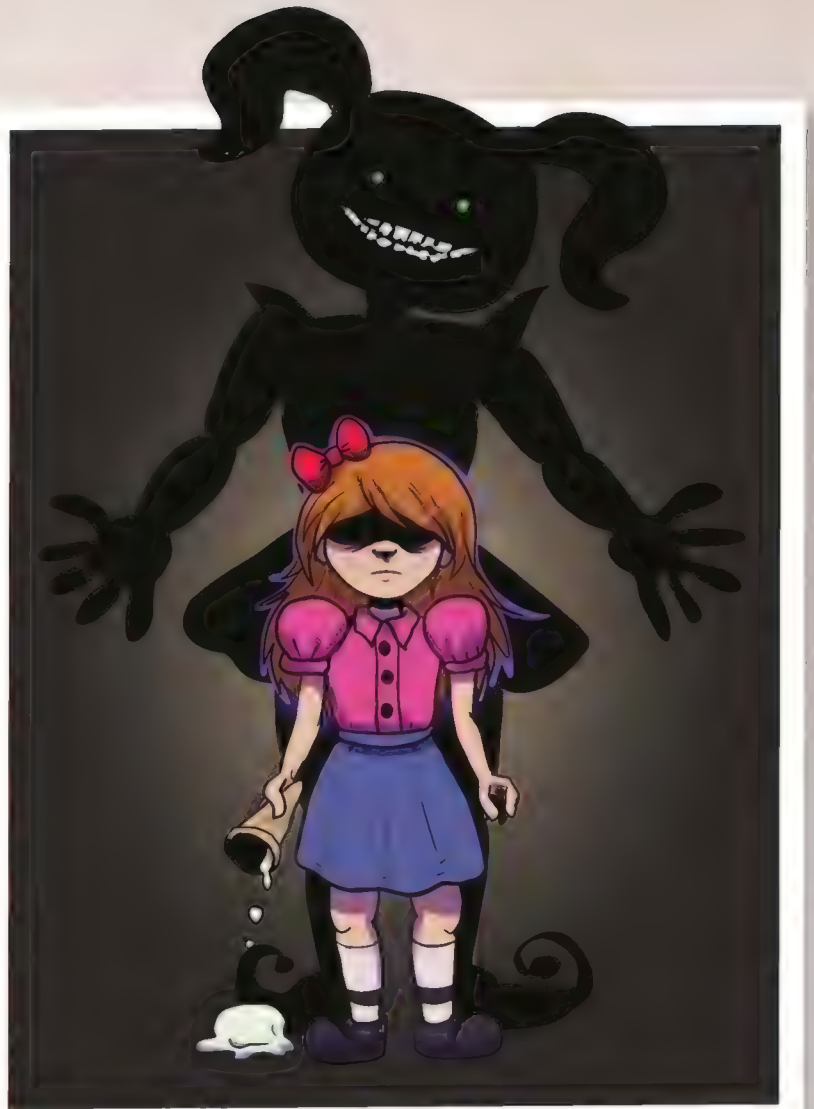

William Afton's daughter had a particular fascination for Circus Baby, her father's creation. "Daddy, just once let me go play with her," she can be heard saying in *Sister Location*. "She's so pretty and shiny! Didn't you make her just for me?" But William wouldn't let her play with him because of what he'd designed Circus Baby to do.

We even hear what she said moments before her death: "Don't tell Daddy that I'm here. I wanted to watch your show, too. I don't know why he won't let me come see you, you're wonderful! Where did the other children go . . . ?" As seen in Circus Baby's mini game, she was grabbed by a claw inside Circus Baby's torso, and dragged inside and killed.

RENT-A-SOUL

There are hints that Michael was following his father's instructions when he went to Circus Baby's Entertainment and Rental—William evidently didn't intend his daughter to fall victim to Circus Baby. But in *Pizzeria Simulator*, as Scrap Baby, she declared her intention to "make you proud, Daddy." That was before the Cassette Man cut her off by saying, "I'm sorry to interrupt you, Elizabeth, if you still even remember that name, but I'm afraid you've been misinformed . . ."

Dropped your ice cream? There's more where that came from . . .

She'll never grow up, not now . . .

CHARLOTTE EMILY

Taken from us too soon.

Data File

Name: Charlotte Emily

Type: Human

Game appearances: *Five Nights at Freddy's 2*, *Five Nights at Freddy's 3*, *Freddy Fazbear's Pizzeria Simulator*

In the *Take Cake to The Children* mini game in *Five Nights at Freddy's 2*, a little girl can be seen crying outside the pizzeria. Then the Purple Man arrives and kills her. Another perspective on this event can be found in the *Security Puppet* mini game in *Pizzeria Simulator*, with the addition of her soul taking possession of The Puppet.

The full meaning of these events is confirmed by the message from Cassette Man in *Pizzeria Simulator*: "I'm sorry on that day, the day you were shut out and left to die, no one was there to lift you up into their arms the way you lifted others into yours . . . I should have known you wouldn't be content to disappear, not my daughter." Her father was William's colleague, and she was, of course, Charlotte Emily.

HAVE YOUR CAKE AND EAT IT

Charlotte also appears in the *Happiest Day* mini game in *FNaF3*, which gains its full lore significance only when the Cake endings have been achieved in the other mini games. Once they are, Charlotte (wearing The Puppet mask) encounters five children wearing the masks of various animatronics. The children (including Charlotte) vanish, the masks drop, and six balloons rise to indicate they've been released.

Charlotte's spirit lingers on as more spirits are still trapped inside metal prisons, and Afton is still present, which is why she is still active in *Pizza Simulator* inside of Lefty.

An alternate version of Charlotte—who survived childhood—appears in the novels.

The Silver Eyes

The instructional tapes left for the manager of Freddy Fazbear's Pizza Place deal with how to salvage animatronics. There's also a recording of the same man musing bleakly on all of the crimes that have dogged the Fazbear establishments and the person who committed them: "Small souls trapped in prisons of my making, now set to new purpose and used in ways I never thought imaginable."

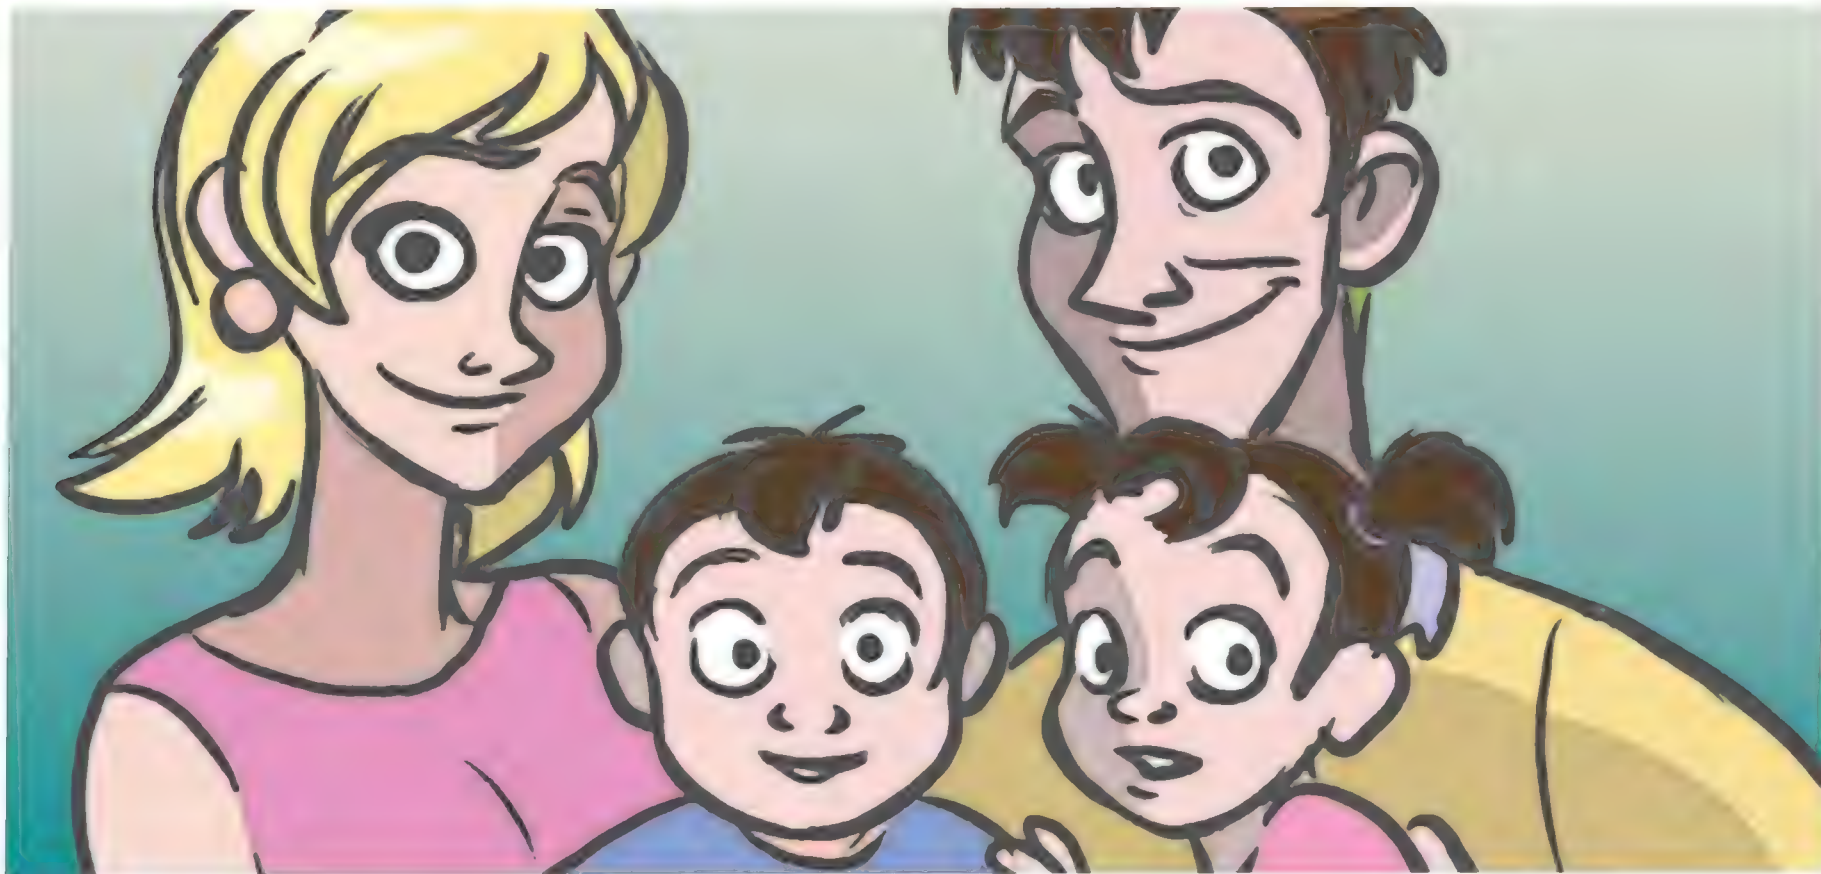

This indicates that the speaker helped build the animatronics—he vows to “undo what he has done and heal this wound—a wound first inflicted on me, but then one that I let bleed out to cause all of this.” And the new pizzeria is part of his plan . . .

HIS FINAL RESTING (PIZZA) PLACE

In the final message from this man, we learn that his daughter is the soul inside The Puppet. The only name he mentions is Elizabeth, which is how he addresses Scrap Baby. He also says, “for one of you, the darkest pit of hell has opened to swallow you whole, so don’t keep the devil waiting, old friend.” He and William appear to have been friends and colleagues—the name established for him in the FNaF books is Henry Emily. He declares his intent to remain in the pizzeria as it burns.

It's all part of the plan.

Once upon a time . . .

VANESSA/ VANNY

Giving you a false sense of security.

Data File

Name: Vanessa/Vanny

Type: Human

Game appearances:

*Five Nights at Freddy's:
Help Wanted, Five Nights
at Freddy's AR: Special
Delivery, Five Nights at
Freddy's: Security Breach*

Vanny's first appearance occurs deep, deep into *Help Wanted*. If you complete the *Curse of Dreadbear* DLC and wear the rabbit mask and hold the Glitchtrap plush, you can hear her voice. "No, no one suspects anything . . . Don't worry, I'll be ready, and I won't let you down. It will be fun." She's been corrupted by Glitchtrap.

This sets up her appearance in *Security Breach*. Vanessa is a security guard at Freddy Fazbear's Mega Pizzaplex. She searches for Gregory when she realizes he's been locked in the Pizzaplex overnight—he doesn't trust her and tries to avoid her, but she does catch him and puts him in the Lost and Found . . .

AGENT OF AFTON

While Gregory is in there, Vanny seems to replace Vanessa—they appear to be the same person, and Vanny is the side of her that's in thrall to Glitchtrap. She wears a rabbit costume she made herself in homage to Spring Bonnie, and she freely wanders the Pizzaplex, causing distortions to Gregory's vision and hearing whenever she's near. The game has several possible endings—the *Princess Quest* arcade machines are crucial to Vanessa's fate.

Isn't cosplay meant to be a bit of harmless fun?

Wow, eating carrots really does help you see in the dark.

GREGORY

He's up past his bedtime.

Data File

Name: Gregory

Type: Human

Game appearances: *Five Nights at Freddy's: Security Breach*

Gregory is the protagonist of *Security Breach*. He's a boy who's clambered inside the glitching Glamrock Freddy and has been locked in Freddy Fazbear's Mega Pizzaplex overnight. He doesn't trust Vanessa (ignoring what Freddy tells him) and avoids her while looking for a way out. After Vanessa puts him in the Lost and Found and intends to contact his parents, she can be heard saying, "Turns out, there's no record of him."

While trying to get out, Gregory learns children have been going missing at the Pizzaplex. Even when he gets a chance to leave, he seeks to find out what happened to them. What's more, he confronts the various Glamrock Animatronics in an effort to extract their special features, and forges a surprising bond with Glamrock Freddy, who's keen to liberate him from the Pizzaplex.

GREGORY'S GOOD ENDING

In the ending where Vanessa is freed from Glitchtrap's influence, Gregory is seen outside the Pizzaplex eating ice cream with Vanessa and Freddy's detached head, forming an odd little family unit. A happy ending at last.

No pizza is worth this.

Gregory learns there's such a thing as *too much* security.
